Saturday, November 20, 1875.

Financial and Commercial Affairs.

Notwithstanding the further failures and rumors of failures through the week in the financial and commercial lines, the Money market has been working on toward even greater ease for responsible borrowers, with call loans to the leading Street firms quoted at the close at 2@3. and best discounts at 5@7 per cent per annum, under very liberal offerings of accommodation, far beyond the urgent requirements of the business. Secretary Bristow, of the Treasury Department, has issued fresh calls for $17,785,000 5-20 bonds, of which $12,785,000 were on account of the Syndicate and $5,000,000 for the Sinking Fund, thus completing the negotiation of the Syndicate, as the $12,785,000 5-20 bonds exhausts the remaining balance of the $500,000,000 5 per cent. bonds authorized for funding purposes. These calls absorb all the 5-20s of 1864, and make a drain of $2,000,000 on the 5 20s Loan of 1865. The protracted ease in Money has contributed largely to the marked success of these Treasury negotiations. The City banks, through the week, have been gainers of specie, while losing legal tender reserve and deposits. They have reduced their loan and discount average, and augmented their circulation. The U. S. Sub Treasury office has diminished its currency reserve, while increasing its coin board, as the result of the week's business. The City Banks reduced their reserve of legal tender notes $2,860,000, and their deposit item $3,423,000, while increasing their specie average $1,163,900. They report a decrease of $2,674,200 in the loans and

discounts, and an increase of $105,700 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $50,143,914 against $53,859,578, the preceding week; and a coin hoard of $42 007,694 against $41,764,600, on the previous return. The City bank exchanges in currency reached $415,380,336, or a daily average of $69,230,056. The customs revenue of the port, during the week, was $1,718,000. The City banks reported their average of gold last week at $14,409,400, and their greenback average, at $48,954,500. Their deposits stood at $218,507,300. The loan item was $273,881,600. The circulation was $18,145,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $8,737,075.

The aggregate of the outstanding U. S. currency, of all denominations, November 1st was $414,455,666. The outstanding amount of legal tender notes is $373,236,244. The National bank circulation is now $345,602,278, including $2,220,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to October 28, were $39,417,705, against $24,257 627 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,365,961; special deposit of legal tenders for the redemption of certificates of deposit, $53,035,000; Coin, $71,250,000; Coin certificates $18,400,000.

The week's import entries of Foreign Merchandise at New York were $4,135 565, including $1,329,090 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 44 millions; and from Customs, 62½ millions.

Gold has been less active and quoted lower. The speculative inquiry has been lighter. The customs call moderate, and the export drain unimportant. The extremes of the price during the week have been 114⅛@114⅞, closing on Wednesday at 114⅜, as against 114⅛ on Wednesday of the preceding week. The specie outflow last week was $358,418 against $604,150 the previous week. The imports of specie at this port since Jan. 1, have been $11,273,397, against $5,480,450 same time last year. The customs demand for Gold last week averaged $286,333 per day. Foreign Exchange has been in more demand and quoted stronger. Bankers' sixty day bills on London closed on Wednesday at $4 83½@$4 84; sight bills on London at $4 87½@$4 88 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,832,890. The week's imports of Dry Goods and general merchandise were to the specie value of $4,135,565, as against $6,092,737,027 the corresponding week of last year.

Government Securities have been in good investment demand at current quotations, closing very firmly. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $366,150,812.

U. S sixes of 1881 closed on Wednesday of this week at 122½@123; U. S. Five-Twenties of 1864, at 114¼@114¾; U. S. Five-Twenties of 1865, 116¼@116½; U. S. Five-Twenties of 1865, consolidated, 119⅝@119⅞; U. S. Five-Twenties of 1867, 121¾@121⅞; U. S. Five-Twenties of 1868, 121¾@122; U. S. Ten-forties at 117¼@117½; U. S. Fives of 1881, (Funding Loan) 116¼@116⅛; Six per cent. currency Sixes, 124⅛@124¾.

State and Railway bonds have been in more active demand at generally firmer prices. And in the line of Railway and Miscellaneous share property, business has been less animated with values quoted quite irregular, in the leading instances, closing weak.

General business has been comparatively tame in nearly all lines since our last, though prices of Produce and Merchandise in several instances have been quoted lower. The Metal trade has been inactive, as a rule, and values have been depressed—Ingot Copper showing exceptional animation and firmness. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock, $32@$33; Coltness, $33; No. 1 American Pig at $24@$25; No. 2 do. at $22 @$23; Forge, $19@$21; English Rails at $46@$49, gold; American Rails, at works, $46@$50; Old Rails, $25@$26. Wrought Scrap, $30@$32. Ocean freights have been more active and quoted stronger. Grain, Provisions, Resin, Petroleum and Cotton room in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—New Jersey Southern R. R., 1⅝; Dubuque and Sioux City R. R., 66; Rensselaer and Saratoga R. R., 114½; Milwaukee and St. Paul 2d mort., 90; Buffalo, New York and Erie 1st mort., 88; Canada Southern 1st mort., coupon on, 52; Chesapeake and Ohio R. Baltimore and Ohio Railroad.

From the report of this company for the year ending September 30, 1875, it appears that the gross earnings of the main stem were $10,514,178 97, the expenses $6,181,972 50, and the net earnings $4,332,206 47. The total earnings of the road, including the main stem and branches and western divisions, were $14,426,552 27, the expenses $9,936,543 67, and the net earnings $4,490,008 60. The surplus fund of the company now amounts to $34,023,566 83. The entire mortgage indebtedness in currency and sterling is $28,716,334 58—showing that the surplus fund representing the capital derived from the net earnings invested in its branch and connecting roads and in improvements constructed on the main stem, which is not represented by either stock or bonds, exceeds the entire mortgage debt of the company $5,307,232 35.

☞ The Brooks Locomotive Works, Dunkirk, N. Y., have sold to the Illinois Central Railroad 2, 17×24 and 8, 16×24 locomotives, and are building for the Cincinnati and Westwood Railroad, narrow gauge, one 3 *ft*, gauge engine.

The National Banks.

The following is an abstract of reports made to the Controller of the Currency, showing the condition of the national banks in the United States at the close of business on Friday, the 1st day of October, 1875:

RESOURCES.

Loans and discounts	$980,222,951 34
Overdrafts	4,468,483 06
United States bonds to secure circulation	370,021,700 00
United States bonds to secure deposits	14,097,200 00
United States bonds on hand	13,989,950 00
Other stocks, bonds and mortgages	33,505,045 15
Due from approved reserve agents	85,701,259 82
Due from other national banks	47,028,759 18
Due from State banks and bankers	11,963,768 90
Real estate, furniture and fixtures	42,366,647 65
Current expenses and taxes paid	7,841,213 05
Premiums paid	8,670,091 18
Checks and other cash items	12,758,872 03
Exchanges for Clearing-house	75,142,863 45
Bills of other national banks	18,528,837 00
Fractional currency	2,595,641 78
Specie	8,050,329 73
Legal-tender notes	76,463,734 00
United States certificates of deposit for legal-tender notes	48,805,000 00
Five per cent redemption fund	16,233,192 30
Due from the United States Treasurer	3,453,768 00
Total	$1,882,209,307 62

LIABILITIES.

Capital stock paid in	$504,829,769 00
Surplus fund	134,856,076 41
Other undivided profits	52,964,953 50
National bank notes outstanding	318,350 379 00
State bank notes outstanding	772,348 00
Dividends unpaid	4,003,534 90
Individual deposits	664,579,619 39
United States deposits	6,507,531 59
Deposits of United States Disbursing Officers	41,271,195 19
Due to other national banks	129,810 681 60
Due to State banks and bankers	49,918,530 95
Notes and bills rediscounted	5,254,453 66
Bills payable	6,590,234 43
Total	$1,882,209,307 62

Number of banks, 2,087.

Southern Pacific Railroad.

On the recommendation of government commissioners Foulke, Brown and Sullivan, the President has accepted the section of fifty miles of railroad constructed in a southeatterly direction from Spadra, California, as a part of the road which the Southern Pacific Railroad Company, of California, was authorized to build from Tehachapa Pass via Los Angeles, to connect with the Texas Pacific railway at or near the Colorado river. This section maks a total of one hundred miles of said extension accepted to date.

☞ A special meeting of the stockholders of the Baltimore and Ohio Railroad Company is called for the 15th of December to consider the arrangement by which the Baltimore and Ohio Company agrees to operate the Pittsburg and Connellsville road for a term of years, and agrees to guaranty the payment of the mortgage bonds of the Pittsburg and Connellsville Company.

☞ G. B. Roberts has been elected President and Albert Hewson Secretary and Treasurer of the Alexandria and Fredericksburg Railway Company.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

The National Debt.

The following data with reference to the national debt will be read with interest at the present moment, and also the remarks of Mr. Edward Young, of the Bureau of Statistics, addressed to Mr. William Watson, of this city:

The highest point of the public debt ever reached was in 1866, and was	$2,783,425,879
On the 1st of this month it stood	2,118,397,212
Reduction in nine and one-third years	$665,028,667

It is computed on the best authority that about two-thirds of the indebtedness is held in Europe, leaving $700,000,000 held in the United States. "It would be," says Mr. Young, "of particular advantage if the greater proportion of our public debt was held in this country, and thus prevent the continued drain of gold to pay the interest."

☞ At a meeting of the directors of the Rome, Watertown and Ogdensburg and Syracuse Northern Railroad Companies, held on the 19th of October, an agreement of consolidation of the two companies was effected, under the name of the Rome, Watertown and Ogdensburg Railroad Company, to continue under the management of its present officers, as follows: Marcellus Massey, President; Talcot H. Camp, Vice President; J. A. Lawyer, Secretary and Treasurer.

☞ The directors of the Third Avenue (New York) Railroad company, recently elected, are: Samuel L. Phillips, Henry Hart, William Remsen, Thurlow Weed, Robert George Remsen, Jonathan W. Allen, Samuel Hall, Moses Mitchell, Henry Morrison, James D. Smith, Frederick B. Noyes, Alexander S. Webb, John M. Samler. Inspectors—Michael Emanuel, Henry Remson, Lewis Lyon.

☞ John B. Peters has been appointed Superintendent of the Scioto Valley Railroad, with headquarters at Columbus, Ohio.

Official List of Patents Issued by the United States Patent-Office.

[For the Week ending November 12, 1875.]

MECHANICAL AND RAILROAD.

169,114. Pulleys or Gear Wheels, J. B. Mason, Quincy, Mass.

169,121. Rock Drills, G. B. Seddon, New York.

169,124. Lubricators, W. P. Stephenson, Waverly, Iowa.

169,126. Apparatus for Lighting Railway Cars, J. Story, Washington, D. C.

169,140. Railroad Car Windows, A. Brandon, New York.

169,151. Making Patterns for Castings, W. E. Craig, Indianapolis, Ind.

169,167. Combined Air Heaters and Boilers, J. Harris, Pittsburg, Penn.

169,169. Car Couplings, J. Harris, Paola, Kansas.

169,174. Piston Packings, C. R. James, Jersey City, N. J.

169,190. Clicks for Ratchet Wheels, E. H. Perry, Lancaster, Penn.

169,198. Treating Quicksilver Ore, J. P. Sieveking, Altona, Prussia.

169,201. Car Couplings, J. B. Smith, Hepworth, Canada.

169,208. Socket Couplings, A. H. Wadleigh, San Francisco, Cal.

169,225. Tubular Boilers, J. Barton, Williamsport, Penn.

169,233. Motive Powers, E. Brettell, Evansburg, Penn.

169,237. Railroad Rail Joints, L. Chilson, Woonsocket, R. I.

169,241. Track Clearers, J. Doman, Bay City, Mich.

169,249. Steam Engines, S. B. Frahk, Marshall, Mo.

169,261. Casting Iron, W. Hainsworth, Pittsburg, Penn.

169,266. Railroad Rail Joints, W. H. Horman, New York.

169,269. Rotary Steam Engines, J. C. Johnson, Boston, Mass.

169,304. Car Couplings, F. L. Small, Houlton, Me.

169,322. Elevated Railways, J. Westcott, Tocoi, Florida.

MINING.

169,121. Rock Drills, G. B. Seddon, New York.

169,198. Treating Quicksilver Ore, P. Sieveking, Altona, Prussia.

RHISSUE.

6,716. Rock Drills, W. R. King, U. S. A. Old Patent No. 53,805, dated March 20, 1866.

SHEET METAL.

169,109. Oil Cans, E. Knessner, Cincinnati, Ohio.

169,192. Soldering Processes, M. A. Richardson, Bridgeport, Conn.

169,320. Annealing Metals, J. H. Warrington, Camden, N. J.

☞ A branch railroad eight miles long is being built from Cooke's furnace, in Botetourt, Va., to Clifton Forge, on the Chesapeake and Ohio Railroad. A large foundry has also been erected at the furnace.

☞ The stockholders of the Gallipolis, McArthur and Columbus Railway being unable to complete their road, the Michigan and Ohio Company offers to complete it, if the right of way and $5,000 per mile is secured, to Columbus, Ohio, and take the stock of the road at par.

The Coal Trade.

For the week ending on the 6th instant the anthracite coal tonnage amounted to 476,864 tons, and for the year to 17,436,826 tons, against 17,614,483 tons to corresponding date last year, a decrease of 177,657 tons. The bituminous tonnage for the week was 88,246 tons, and for the year 3,866,395 tons, making a total of all kinds for the week of 560,110 tons, and for the year 20,803,221 tons, against 20,760,986 to corresponding date last year, an increase of 52,235 tons The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 144,706 tons, and for the year 3,659,014 tons, of which 2,988,849 was coal, and 583,471 coke. This embraces all the coal carried both east and west. The receipts of coal over the Lehigh Valley branch road from Easton to Perth Amboy for the week ending on the 6th instant were 16,899 tons, making the total received to that date 277,807 tons. The shipments for the week were 14,040 tons, making the total shipments to that date 250,875 tons, and leaving on hand 30,698 tons. The Philadelphia *Ledger*, from which the above is obtained, adds:

The only feature of the anthracite coal trade commanding special remark this week is that of overproduction. The present overstock of coal, which is said to be larger than ever before, must be by some practical operation lessened. At Port Richmond for the week ending the 13th instant there were receipts of 60,000 tons of coal, shipments of 60,000 tons, leaving 153,000 tons on hand. While this amount of coal on hand shows a reduction of 42,000 tons, as compared with the close of the previous week, the stock there is nevertheless very immense. In fact, very few of our readers are aware of the immensity of the coal movement at Port Richmond alone. We learn that "the receipts of 13,000 tons of coal per day involves the discharge of a train of cars six miles in length, which, under the circumstances of a full wharf and a scarcity of vessels, seems almost a physical impossibility." The aggregate amount of coal now deposited on the Port Richmond wharves—153,000 tons—would fill a train of cars 67½ miles long, and would reach back on the Reading Railroad nearly three fourths the distance to the mines from whence the coal came. For the week ending with the last of October the receipts of coal at Port Richmond were some 80,000 tons, the next week 45,000 tons, and last week, as above given, 60,000 tons. All the operators there have very heavy stocks, but the Reading Coal and Iron Company, being the largest operators, necessarily have the largest amount. A lessening of the supply of cars by the Reading Railroad Company is an apparent necessity, there being no room on the wharves for the coal. We see it stated that the Lehigh and Wilkesbarre Coal Company and the Delaware and Hudson Canal Company have commenced a shortening of the daily hours of labor in order to bring their overstocks of coal within working control, and all the other regions are having resort to some policy to bring down the production to the demand for coal in the market, which is now quite limited, and yet the prices of most sizes of Schuylkill coal are 25 to 50 cents per ton lower than they were in November last year. Some other coal regions have put down the prices of coal 35 to 80 cents per ton. With so large a supply of coal at weak prices users are slow in sending their orders, the apprehension of higher prices from a scarcity of coal later in the season being somewhat removed. The demand for coal by the Eastern manufacturers on the lines of the roads, and for steam marine purposes, is quite light, the orders being largely confined to dealers for special sizes and qualities of coal.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET, NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

FAIRBANKS' SCALES,

R. R. TRACK, HAY, COAL SCALES.

SCALES
For Rolling Mills, Furnaces, Foundries, Miners' Use.

SCALES
For Stores, Mills and Wharves.

SCALES
For Elevators and Grain Warehouses.

SCALES
For Farmers, Butchers, Druggists, &c., &c.

ALSO,

The Most Perfect Alarm Cash Drawer,
MILES ALARM TILL CO'S. Also,
Herring's Safes, Coffee and Drug Mills, Letter Presses.

FAIRBANKS' STANDARD SCALES.

Total exports.....	$25,900,305	$25,276,182
Do. exclusive of specie.	24,285,552	23,306,581

The exports from New York to foreign ports for ten months from January 1, were:

	1874.	1875.
Domestic produce.....	$232,658,284	$202,166,922
Foreign free goods.....	1,872,328	1,663,909
Do. dutiable.....	5,916,500	5,157,230
Specie and bullion.....	44,275,987	63,555,805
Total exports.....	$284,723,099	$272,543,866
Do. exclusive of specie.	240,447,112	208,988,061

Chesapeake and Ohio Railroad.

Mr. Henry Tyson has qualified as permanent receiver of the Chesapeake and Ohio railroad, and given bond in the sum of $200,000—$100 000 in the United States Court for this district and $100 000 in the United States Court for West Virginia. His bondsmen are Messrs. James E. Tyson, Thomas M. Lanahan, Washington Booth and George Small, of Baltimore. Mr. Tyson says he has no new policy to inaugurate, but will endeavor to increase the earnings of the road and to reduce expenses as far as possible. He expresses great interest in the completion of the canal from Buchanan to Clifton Forge, and believes that it will result in great good to the State and prove of advantage both to the railroad and to the canal. —*Richmond Dispatch.*

☞ At the annual meeting of the stockholders of the Bushwick Avenue Railroad Company, the following officers were elected to serve for the ensuing year: William H. Husted, President; A. M. Bliss, Vice President; A. Ivins, Secretary; David Cameron, Treasurer; W. N. Morrison, Superintendent.

☞ The directors of the Panama Railroad Company at their meeting in this city on the 13th inst., unanimously adopted a report of a special committee recommending the purchase of ships necessary to make a tri-monthly line in connection with the company's railroad between New York and San Francisco, and a line between Panama and Central America. In their report the committee state that ten steamers will be necessary. Three of the vessels are to ply between New York and Aspinwall, five between Panama and San Francisco, and two between Panama and Central America.

☞ The earnings of the Franklin Telegraph Company for four years and four months, from April 30, 1871, to September 1, 1875, were $1,135,516, and the expenditures, $1,026,953; leaving a net gain of $108,563.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

J. M. Brigham, KINGSTON, N. Y
J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

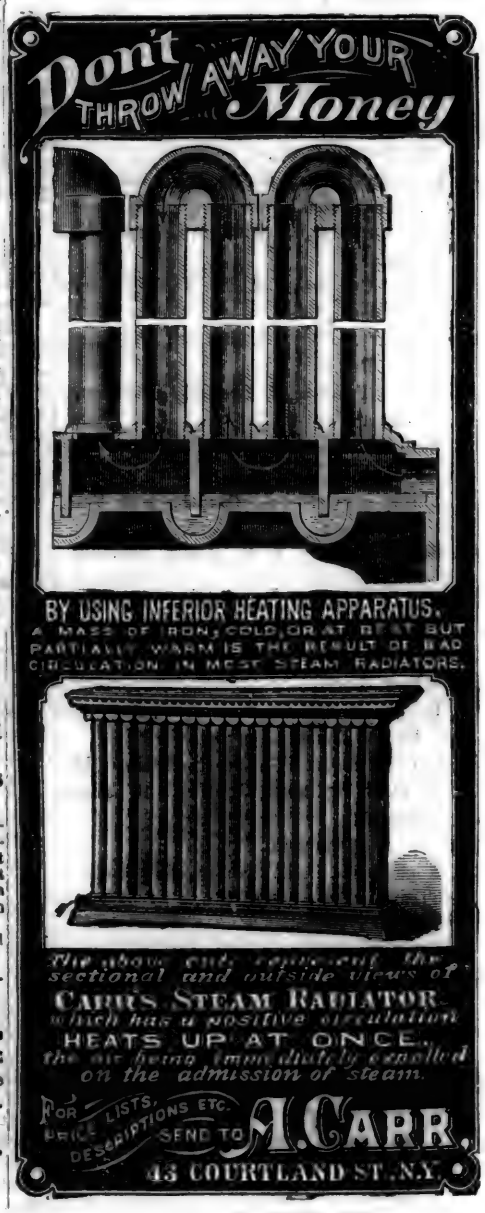
WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300 lbs.** Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.



LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

ESTABLISHED 1857.
C. EDWARD HECHT,
LEHICTON PAINT WORKS,
EASTON, PA.
LEADS, ZINCS, COLORS, VARNISHES, DRYERS and PAINTS, "Always Ready" Mixed.
ALL COLORS BY THE GALLON.

For Railroad Purposes.

STEEL STAMPS, LETTERS AND FIGURES,

of every description, and for all purposes. Made by

RICHARD H. ROGERS,

Die Sinker and Letter Cutter,

No. 50 Fulton Street, New York.

Name Punches, Alphabets, Figures, and every variety of Steel Stamp Work for

RAILROAD PURPOSES

Established 25 years. Orders and inquiries by mail promptly answered.

THE

PHŒNIX IRON CO.,

410 Walnut St., Philadelphia,

MANUFACTURERS OF

CURVED, STRAIGHT AND HIPPED

Wrought Iron Roof Trusses

BEAMS, GIRDERS and JOISTS,

and all kinds of Iron Framing used in the construction of iron roof buildings.

DECK BEAMS, CHANNEL, ANGLE AND T BARS

curved to template, largely used in the construction of Iron Vessels.

Patent Wrought Iron Columns,

Weldless Eye Bars,

for top and bottom chords of bridges.

Railroad Iron, Street Rails, Rail Joints and Wrought Iron Chairs.

Refined Bar, Shoeing, and every variety of Shipping Iron Made to Order.

Plans and Specifications furnished. Address

SAMUEL J. REEVES, President.

ESTABLISHED, 1821.

THOS. T. TASKER, Jr., STEPHEN P. M. TASKER.

MORRIS, TASKER & CO.

PASCAL IRON WORKS,

PHILADELPHIA.

TASKER IRON WORKS,

NEW CASTLE, DELAWARE.

Office FIFTH and TASKER Streets, Philadelphia.
Office and Warehouse, No. 15 GOLD St., New York.
Office and Warehouse, No. 36 OLIVER St., Boston.

Manufacturers of Wrought Iron Welded Tubes, plain, galvanized and *rubber coated*, for gas, steam and water.
Lap-Welded Charcoal Iron Boiler Tubes.
Oil Well Tubing and Casing.
Gas and Steam Fittings, Brass Valves and Cocks.
Gas and Steam Fitters' Tools.
Cast Iron Gas and Water Pipe.
Street Lamp Posts and Lanterns.
Improved Coal Gas Apparatus.
Improved Sugar Machinery, &c.

We would call special attention to our Patent Vulcanized Rubber-coated Tube.

Jersey City Steel Works.

JAS. R. THOMPSON & CO.,

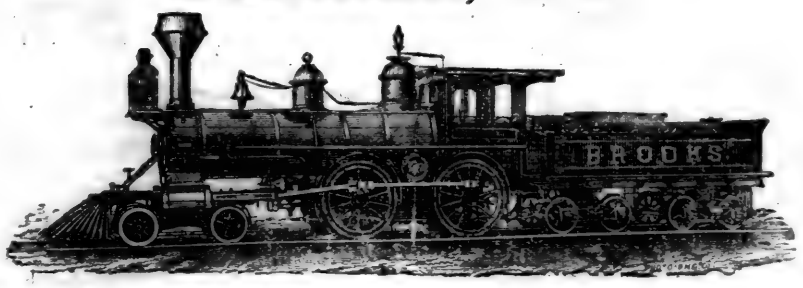
MANUFACTURERS OF

HAMMERED AND ROLLED

CAST STEEL,

OF ALL DESCRIPTIONS,

Warren Street, Jersey City, N. J.



Tool, Drill, Frog Plates and Points, Cutlery, Rake, Axe, Hoe, Machinery, Spring Wagon-Axle, Tyre, Sword, Bayonet, Rifle, and Pistol, *made to Order.*

Jas. R. Thompson,

J. R. Gautier, B. Illingsworth,
D. C. Gautier, H. Dickinson.

BROOKS LOCOMOTIVE WORKS,

DUNKIRK, N. Y.

Orders Solicited for Locomotives Adapted for Every Class of Railway Service.

M. L. HINMAN, *Secretary and Treasurer.*

H. C. BROOKS, *President and Superintendent.*

THE

TAUNTON LOCOMOTIVE MANUFACTURING COMPANY,

TAUNTON, MASS.,

HAVING large facilities, and having had a long experience in the business, are prepared to furnish

LOCOMOTIVES,

EITHER FOR BURNING WOOD OR COAL,

OF THE MOST APPROVED CONSTRUCTION.

ALSO ALL KINDS OF

RAILROAD MACHINERY,

STATIONARY ENGINES AND BOILERS.

SUGAR MILLS, SHAFTING, ETC.

The Dickson Manufacturing Co. of Scranton.

Chesapeake and Ohio Canal.

The regular monthly meeting of the president and directors was held at Annapolis, Md., on the 11th inst. The president submitted his report for the month of October, as follows:

Accrued revenue.....		$60,566 12
Ordinary expenses for operating and maintaining canal, pay of officers, etc	$17,360 83	
Expenses of wharves at Cumberland.....	1,113 77	
Extraordinary repairs, dredging, and cost of material for winter use....	2 825 92	
		21,300 52
Net revenue.....		$39,255 60

The coal tonnage for October was 112,094 tons, being an increase over the tonnage for October, 1874, of 8,759 tons.

The balance to the credit of the company in the different banks on the 30th of October, was $108,000 71.

The board appropriated $50,985 to pay the overdue coupon on the preferred construction bonds of the company, due July 1, 1868, on and after the 17th instant.

☞ The Secretary of the Treasury has issued two calls for the redemption of five-twenty bonds of 1864 and 1865. The first call (being the thirtieth) embraces $12,785,350 of the five-twenty bonds of 1864, which will complete the subscriptions to make up the amount of $500,000,000 of the new five per cent bonds authorized by Congress, and closes up the funding operations, so far as the new five per cent bonds are concerned. The second (being the thirty first) is for $5,000,000 account of the sinking fund, and will exhaust the balance of the five-twenty bonds of 1864, and will commence upon the six per cent five-twenty bonds of 1865 to the amount of $1,975,400. The interest on these bonds will cease on the 15th of February, 1876.

Phœnixville Bridge Works

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, November 27, 1875.

Pittsburg and Northwestern Railroad.

The Pittsburg Dispatch says that the project of a new route west from that city, connecting with the Baltimore and Ohio Railroad via the Pittsburg and Connellsville Railroad, has been advanced quietly and steadily so that now much of the road between Allegheny and connecting points west is nearing completion or under contract, and the prospects are that very soon that portion of the new line adjacent to the Northside city and through it will be let and work begun. A. Pearce, of Harmony, Pa., is President of the company, and Charles Walker, of Butler, Pa., Secretary. The directors are: Wm. C. Satchaw, J. D. Lytle and John Pearce, of Harmony; A. L. Foster and C. H. Cornwell, Cleveland, Ohio, and J. C. Fawcett, Allegheny, Pa. Mr. Chas. R. Alton, of New York city, in August last, took the entire contract for the whole line of eighty miles (including sidings) which implies completing roadway and equipments. The contract price is about $2,500,000, and the cars are to be running by January 1st, 1877. Messrs. Weiss & Britton, of Reading, Pa., have the contract for the grading and bridging of the entire line. As soon as the question of route, concessions, etc., in Allegheny City shall have been decided, the work will be pushed forward with vigor. Referring to the above, the Pittsburg Chronicle says that at Youngstown, Ohio, the new road has the choice of three connections to the lake and the west, namely, the Youngstown and Painesville, Ohio, on the lake, the Cleveland and Mahoning, to Cleveland, and the Atlantic and Great Western to Mansfield, Tiffin, &c.

John Stephenson & Co.'s Improved One-Horse Cars in California.

There arrived yesterday from the East four of the new one horse cars for the City Railway Company; more will arrive to day, and others will be received right away. They are of remarkably fine finish, yet adapted to lengthy service, and JOHN STEPHENSON & Co., of New York, the manufacturers, who have a reputation almost world wide for that kind of work, guarantee that they possess all the latest improvements. Their cost is greater than that of the ordinary two horse cars. The entrance sliding door is operated by the driver, by means of a lever and rock shaft, easily handled. The entrance platform step is convenient of access, and is provided with a stern rail, to prevent accidents. Signal bells are so arranged that passengers can operate them while seated. The front door has an aperture through which passengers can obtain change of the driver, and is also provided with sliding panels for ventilation, so that currents of air can pass through the car when desired. A mirror above the face of the driver enables him to observe the entrance and exit of passengers without turning his head backward. Patent sash springs keep the windows from making noise, and India rubber cushions, or insulators, prevent noise from the running gear. Spring draw heads ease the horses when starting, and save passengers from the annoyance of sudden jerks. The seats are something new, and in fact every attention appears to have been given, not only to lightness, durability and elegance, but to the comfort and pleasure of passengers. The cars will be put in service some time next week.—*Sacramento Record Union Nov.* 18.

☞ The directors of the Hannibal and St. Joseph Railroad company, recently elected, are: H. H. Baxter, N. L. McCready, W. H. Neilson, Allan Campbell, Joseph Richardson, B. F. Carver, J. P. Acker, J. Van Schaick and Charles E. Lowe. President and General Manager, W. H. Neilson.

Costa Rica Railroad.

The Panama Star and Herald of November 1st says that the completion of the Costa Rica Railroad at an early day, it would now seem, is placed beyond a doubt. Minister Lara, who has been in Europe for some time past, has, on the part of the Costa Rican Government, concluded a contract for the finishing of the work with Mr. Nicholas Lescaine Perdoux, one of the leading railroad men of France, the basis of which is as follows:

The road is to be built in the style of European railroads, with a gradient not to exceed two and a half per cent., and with curves of a maximum radius of 320 feet. The stations are to be constructed after the style of those in Paris, with iron pillars and frame work, and the roof of glass. That part of the road already finished is to be altered so as to conform with the specifications of the new contract, and an iron roof 600 feet long is to be built at Port Limon, the Atlantic terminus of the road. Costa Rica, on its part, agrees to pay $50,000 monthly in gold, and the balance in bonds of from four to seven years' time, which is considered a most favorable arrangement for that Republic. Minister Lara deserves great credit for the favorable contract obtained as represented to us, and for the innumerable obstacles which he has succeeded in overcoming to obtain it. Mr. Lara, accompanied by Mr. Morandiere, a noted French engineer, and Mr. A. Lescaine Perdoux, returned from Europe by the Royal Mail steamer of the 24th instant, and proceeded hence next day by the steamer Winchester to Costa Rica.

New York and Canada Railroad.

The first regular passenger train passed over this road on the 23d inst. It is the property of the Delaware and Hudson Canal Company, by whose capital it was built. It forms the connecting link between the Rensselaer and Saratoga Railroad and the Grand Trunk Railway of Canada, and makes a direct line between New York and Montreal, forty miles shorter than any previous line. The road has been built in a very short time, considering the difficulties that attended the building. Some idea of what these difficulties amounted to may be seen from the statement that the average cost of building was $70,000 a mile, and that there was a single mile that cost $500,000. For the Delaware and Hudson Canal Company the road is an excellent investment for it

makes a through line from their mines in Pennsylvania to the great coal burning regions of Eastern New York and the Canadas.

Old Colony Railroad.

The earnings of this road for the years ending September 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$1,456,315 11	$1,372,607 10
" freight	752,838 19	741,479 69

Deduct dividend July 1, 1875, $3 50 per share	234,258 50	
		479,853 53
Balance of income account September 30, 1875		$677,947 48

The dividend of January 1, 1876, is to be taken in part from this balance.

The gross receipts of the road were, for the year ending Sept. 30, 1875	$2,286 473 90
For the year ending Sept. 30, 1874.	2,890,309 63
Decrease in receipts	$103,835 73
The working expenses for the year ending Sept. 30, 1875	$1,443,135 39
For the year ending Sept. 30, 1874.	1,537,530 34
Decrease in working expenses	$94,394 95
The amount paid for interest was, for the year ending Sept. 30, 1875	$259,063 84
For the year ending Sept. 30, 1874.	281,243 27
Decrease	$22,179 43
Amount paid for taxes was, for the year ending Sept. 30, 1875	$110 609 01
For the year ending Sept. 30, 1874.	96 435 40
Increase	$14,173 61
The net earnings after paying interest and taxes, were, for the year ending Sept. 30, 1875	$473,665 66
For the year ending Sept. 30, 1874.	475,100 62
Decrease	$1,434 96

The interest account has been charged with the payment of the coupons on the bonds issued for the purchase of stock in the Old Colony Steamboat Company, and has been credited with the dividends received on this stock.

There has been a decrease in the freight tonnage of 7,959 tons, and in receipts from freights of $11,350 50.

Coal tonnage for 1875	139,904
Coal tonnage for 1874	149,092
Decrease	9,188

The decrease in the number of passengers carried was 88,596, and in receipts from the passenger business was $83,708 01.

One locomotive, two passenger cars, two freight cars and seventeen gravel and coal cars have been added to the rolling stock.

Two locomotives, seven passenger cars, fourteen freight cars and twenty gravel and coal cars have been rebuilt.

1,422 tons of steel, 476 tons of new iron rails, and 101,586 new sleepers have been used in repairing the track; 2,480 tons of rail have been taken up, repaired and relaid.

A new depot has been built at South Yarmouth, and new coal sheds at South Boston, and considerable additions to the buildings at Plympton Grove and Plymouth.

New side tracks have been constructed to the extent of 16,182 feet, and considerable grading has been done about the shops, and upon the third track between Boston and Quincy.

Our passenger equipment has been completely furnished with the Westinghouse brake, and we have purchased the right to use upon the whole road the Miller platform and coupling which has been already applied to sixty-four of our passenger cars.

The cost of these improvements has been charged to expense, and may be estimated as follows:

Cost of new equipment	$27,970 99
" Miller platforms and patent	19,221 96
" Westinghouse brakes	14,797 85
" 16,182 feet of side track	16,500 00
" 1,422 tons of steel rails in excess of iron at $25 per ton	35 550 00
Cost of new buildings	16,207 00

The railroad and equipment has been kept up, and is now in good working order.

The mileage of trains has increased the past year 10,102 miles, and the computed expense per mile run is $1 12 against $1 18 last year.

The business of the road has considerably decreased during the past year, caused by the general depression in business which has so materially affected the railroad interests of the country. We have been able, without diminishing the train service, to cut down the expenses in nearly equal proportions, leaving the net earnings about the same as last year. The entire suspension of operations by several large manufacturing companies upon our line, and especially at Fall River, has affected our passenger receipts.

The business with the islands in Vineyard Sound and Nantucket shows a fair increase for the year, and promises further gains in future.

Our New York business has been particularly affected by the general dullness in trade. The boats have been managed with economy and have run without accidents, and we have received from the investment in the steamboat company dividends amounting to eight per cent on our investment, which, as before stated, have been credited to interest.

The new bridge at Fall River and the connection with the Fall River and Providence Railroad has been nearly completed. It is expected that they may be opened for business before the first day of December. The cost of the bridge has been, to date, about $242,000, of which one quarter is to be refunded to us from the county of Bristol. Its completion will probably cost about $30,000.

Arrangements have been made for the transfer to this company of the Fall River and Providence Railroad on October 1st, and means had been provided for the payment therefor. This accounts for the large amount of money shown by the Treasurer's accounts to be on hand at the time of closing the books. The transfer of the property has been delayed, but will probably be made before December 1st.

With the completion of the bridge and opening of the line between Fall River and Providence, the directors consider that but little expenditures will be required to be met by increase of construction account, unless an increase of business requires an addition to station accommodations and equipment and an extension of our double track.

The equipment of the road is as follows: 42 passenger, 15 freight, and 6 switching locomotives; 141 passenger, 25 baggage, 308 long box, 10 short box, 338 long platform, 24 cattle, 72 stone, 13 short platform and 478 coal and gravel cars. Number of miles run by passenger trains, 922,510; by freight trains, 415,734; by gravel trains, etc., 49,237—total miles run one year to September 30, 1875, 1,387,481, an increase over the year ending Sept. 30, 1874, of 10,102. Number of passengers carried the past year, 4,286,720; do. carried one mile, 61,295,520. Tons of merchandise carried the past year, 625,768; do. carried one mile, 18,371,231.

Treasurer.—JOHN M. WASHBURN.

Superintendent.—J. R. KENDRICK.

Worcester and Somerset Railroad.

The Worcester and Somerset Railroad, the proposed terminus of which is Cherrystone, opposite Norfolk, has recently passed into the hands of Gen. William Painter, a Philadelphia broker, who is now working up the proposed extension of the same, though at present not to its intended terminus. The objective point now in view is Chincoteague Bay, and on Friday last a survey was concluded to that estuary at Bloodgood's wharf, a short distance below Nashville. There is sufficient water at that point to allow vessels of five or six feet draught to approach the wharves. Gen. Painter was in Newtown last week, and says that if the proper aid is extended by the commu-

nity through which the road is to pass, the work of building the extension will immediately go on. —*Wilmington (Del.) Commercial.*

Camden and Atlantic Railroad.

This is one of the most successful railroads connecting with Philadelphia. It was built at a most inauspicious time, 1852 to 1854, when credit was at a low ebb and money difficult of obtainment, and only at high rates. The natural result was, it cost more than double the original estimates. But it has steadily worked through all its embarrassments, and now presents a greatly improved work, and without a dollar of floating debt. On the first of October last the company paid the interest on half a million of bonds and 3½ per cent on the common and preferred stocks, leaving a handsome cash balance in the treasury. This company has sixty miles of main line and seven miles of branch road to May's Landing. It has had twenty one years of pretty severe trial, but it is now at length free from trouble, and in that enviable and unusual position among rail roads, free of debt. Its only funded debt is $1,075 000. Next year it is expected that the road will open for the summer traffic ballasted from end to end, and the cleanest and most inviting route to the sea shore. The business of the road is steadily increasing, the receipts of last year being largely in excess of those of the previous year, and preparations at Atlantic City for next year's business are greater than ever before, in anticipation of the Centennial.

Great Western Railway of Canada.

REPORT OF THE AUDITORS.

The subject of making provision for the renewal of the "Permanent Way" by the creation of a fund for that purpose, it will be observed on reference to the report of the Directors, has been under the consideration of the board during the past half year, and it is now proposed to be dealt with. It is not, however, proposed to extend the application of the fund to all the items of expenditure included in the "Maintenance and Renewal of Way," but to limit its operation to making provision for the renewal of steel rails and the replacement of wooden bridges in iron and stone; the reason being that the other items under that head are of a less fluctuating character, and may be charged as they arise, without disturbing to any serious extent the general average charges. It appears that the number of miles in the main line and branches (taking a mile of double track as two miles of single) already laid with steel rails is 529, and the number of miles in branches proposed to be relaid with steel rails in the course of the next four years is 225; total, 754. The mode in which it is proposed to make provision for the cost of laying the 225 miles in branches with steel rails, and for the renewal of steel rails in the future, is by setting aside £45,000 per annum out of revenue by a half yearly charge of £22,500, which amount will be regularly credited to the "Renewal Fund." This sum has been arrived at, after careful consideration, as follows:—To lay the 225 miles in the branches with steel rails it is estimated, after allowing for the proportion chargeable to capital, and the value of the old rails, will involve a charge to revenue of £121-600, which outlay it is proposed to spread over 16 years. The relaying of the whole 754 miles being thus provided for, the renewal of the same in steel it is estimated will cost (after allowing for the value of old rails) about £608,000. Total amount to be provided for the renewal of steel rails, £729,-500. The life of steel rails now laid on the main line and branches, and yet to be laid on the leased lines and branches, is estimated at an average of 16 years, and the half yearly charge as already stated would amount to about £22,500. The Directors also propose to replace the wooden bridges in stone and iron, which it is estimated will cost £600,000. Of this expenditure, it is considered that one half is fairly chargeable to capital, as the increased cost or value of the proposed new structures, and the other half to revenue. The moiety chargeable to revenue the Directors propose to spread over 20 years, making a half yearly charge of £7,500. Thus making a total half yearly charge to revenue account, and a like credit to the rail and bridge renewal fund of £30,000. Having regard to the difficulty which still exists in arriving at a reliable estimate of the life of steel rails, owing to the want of sufficient experience as to their duration, we are of opinion that the proposal of the Directors is fair and reasonable. We observe that the Directors are of opinion that the locomotive renewal fund has accumulated more rapidly than the prospective demands upon it justify, whilst they think the car renewal fund is in a satisfactory condition. The Directors propose considering this subject with us during the current half year.

JOHN YOUNG, THOMAS ADAMS, } Auditors.

October 27, 1875.

Progress of Railroads.

The Portland and Ogdensburg Railroad has been completed to the Connecticut River at Lunenburg. It is to be extended east to Portland and west to Swanton by the 1st of July next.

The narrow gauge railroad from Dumbarton Point to Alviso (Cal.) will be in operation by the 1st of January. The sum of $75,000 has been subscribed by the Santa Clara people to secure its extension to that town.

The North Brookfield Railroad, extending from North to East Brookfield, Mass., has been completed at a cost of about $95,000. It is proposed to lease the road to the Boston and Albany Railroad Company.

Gentlemen interested in the proposed Attleboro' (Mass.) and Providence (R. I.) Railroad, described in our issue of the 30th ult., met in Attleboro' on the 18th inst., and adopted the preliminary articles of association prescribed by law. The requisite number of twenty-five corporators signed the agreement, a large part of the required stock having been subscribed. Surveys have sufficiently progressed to show the feasibility of the route and the light grades required. Proposals have already been received from a firm of contractors, offering to compete for the building of the road and also take any remaining portion of the capital stock not yet secured.

The branch railroad of the Lehigh Coal and Navigation Company, up Sandy Run, is being rapidly pushed forward to completion. It is being graded in the vicinity of Drifton and along the line. It is hoped the company will ultimately extend it to Hazleton and thus give a new and short route to Wilkesbarre.

The Hot Springs, Arkansas, narrow gauge railroad is now running regular trains between Malvern and Lawrence, six miles from Hot Springs.

A company has been organized in Cheyenne, Wyoming, looking to the construction of a railroad from that place to Laramie. The proposed line has been named the Wyoming Central. Ultimately, the road is to be extended northward from Laramie to the Black Hills.

The Northern Division of the Intercolonial Railway, or that part of the line between Moncton (N. B.) and Campbelltown, a distance of 185 miles, was opened on the 8th instant for regular traffic.

The Extension of the Northern (Canada) Railway to Gravenhurst was formally opened on the 18th. A connecting link is thus formed between the northern lakes and Toronto.

It is stated that the Central Railroad Company of New Jersey propose to extend their road from Tuckerton down the shore to Cape May.

A delegation of West Virginia capitalists and landholders held an informal meeting in Philadelphia on the 19th inst. in reference to the extension of the Washington and Ohio Railroad, elsewhere alluded to. If the extension, as proposed, is carried out, it is said that traffic will be diverted from the Baltimore and Ohio Railroad.

The Emmittsburg Railroad was to have been opened on the 22d inst. The Western Maryland Railroad Company will furnish the rolling stock and operate the road subject to a contract with the Emmittsburg Railroad Company.

The contract for grading and bridging the Brownsville Railway from Brownsville, Penn., to Vance's Mills, a distance of twelve miles, has been awarded to G. W. Smith, of Philadelphia, and W. W. Morrison & Co., Lock Haven. The work will be commenced as soon as located, which will occupy about two weeks yet. The terminus of the road from Vance's Mills has not as yet been determined on by the company.

The engineers of the Massachusetts Central Railroad have surveyed a road through to Poughkeepsie and find the distance between that city and Boston 199 miles.

The Burlington, Monmouth and Illinois River company is to build a narrow gauge road from Burlington east to Monmouth, Ill., and thence east by south to Heyworth.

☞ The annual meeting of the stockholders of the Richmond, Fredericksburg and Potomac Railroad Company was held in Richmond, Va., on the 17th inst. The annual report of the president, Mr. John M. Robinson, shows the gross revenue for the fiscal year to have been $382,298 14, and the expenses $180,049 38, leaving a net revenue of $202,248 76, an increase of $22,589 76 over that of the previous year. The President thinks it cannot be very long before dividends on the common, as well as on the guaranteed stock, may be resumed with a reasonable certainty of permanent continuance. Mr. John M. Robinson was re-elected President for the ensuing year.

☞ The sixth annual meeting of the stockholders of the Wilmington, Columbia and Augusta Railroad Co. was held in Wilmington on the 17th inst. For the year ending September 30, 1875, the receipts were $593,596 67, and expenditures $454,438 07, leaving a net balance of $139,158 60, showing a falling off of $20,874 21 compared with the previous year. Hon. R. R. Bridgers was unanimously elected President, and Wm. T. Walters and J. B. Palmer vice presidents.

☞ The fortieth annual meeting of the stockholders of the Wilmington and Weldon Railroad Co. was held at Wilmington, N. C., on the 17th inst. The receipts for the year ending September 30, 1875, were $661,295 35, and the expenditures $391,786 10, leaving a net balance of $269,509 25, showing a falling off in net receipts of $43,460 49 compared with the previous year. Hon. R. R. Bridgers was re elected president, and B. F. Newcomer vice president.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

All entries occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, November 27, 1875.

Financial and Commercial Affairs.

Money has been in liberal supply all through the week, rendering the market quite easy to all responsible borrowers, with call loans to the leading Street firms quoted at 2@3, and best discounts at 5@7 per cent per annum. The offerings, especially on private account, have been far beyond the urgent requirements of business. Large amounts have been invested directly by capitalists in Government securities, and the more substantial of the State and Railway loans, at the ruling prices, with a view to the employment of balances, in some lucrative form. European advices have been favorable to cheap rates for accommodation. The currency movements here have been advantageous to the borrowing interests in the local market. The city banks have been gainers in the specie line, and while reporting a loss of legal tender notes, also indicated a further decrease in deposits, and a reduction of their loan and discount averages, with a moderate addition to their item of circulation. The U. S. Sub Treasury cut down its currency reserve materially, and also diminished its specie hoard to a limited extent. The City Banks reduced their reserve of legal tender notes $967,200, and their deposit item $2,375,500, while increasing their specie average $1,302,600. They report a decrease of $1,204,200 in the loans and discounts, and an increase of $304,300 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $44,524,862 against $50,143,914, the preceding week; and a coin hoard of $41,925,891 against $42,-

007,694, on the previous return. The City bank exchanges in currency reached $416,908,560, or a daily average of $69,396,772. The customs revenue of the port, during the week, was $1,741,000. The City banks reported their average of gold last week at $15,712,000, and their greenback average, at $47,987,300. Their deposits stood at $216,131,800. The loan item was $272,697,400. The circulation was $18,449,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $2,668,450.

The aggregate of the outstanding U. S. currency, of all denominations, November 1st was $414,455,666. The outstanding amount of legal tender notes is $373,236,244. The National bank circulation is now $345,560,913, including $2,204,450 of national gold bank notes.

The specie shipments from San Francisco, January 1, to November 11, were $40,371,194, against $26,948,677 same time in 1874.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,570,478; special deposit of legal tenders for the redemption of certificates of deposit, $54,505,000; Coin, $71,272,045; Coin certificates $19,076,300.

The week's import entries of Foreign Merchandise at New York were $4,718 735, including $1,040,569 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 46½ millions; and from Customs, 65 millions.

Gold has been only moderately active, speculative dealings having been on a restricted scale; while the customs drain was moderate and the export movement light. The extremes of the price during the week have been 114⅛@115, closing on Wednesday at 114⅛, as against 114⅜ on Wednesday of the preceding week. The specie outflow last week was $397,500 against $358,418 the previous week. The imports of specie at this port since Jan. 1, have been $11,344,124, against $5,512,072 same time last year. The customs demand for gold last week averaged $290,167 per day. Foreign Exchange has been more sought after and quoted firmer. Bankers' sixty day bills on London closed on Wednesday at $4 83⅛@$4 84⅛; sight bills on London at $4 87⅛@$4 88⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,832,890. The week's imports of Dry Goods and general merchandise were to the specie value of $4,718,735, as against $7,380,496 the corresponding week of last year.

Government Securities have been in more urgent investment demand at current quotations, which indicated a rising market, on very moderate offerings of the favorite issues. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $366,150,912.

U. S sixes of 1881 closed on Wednesday of this week at 123¼@123½; U. S. Five-Twenties of 1864, at 114⅛@114¾; U. S. Five-Twenties of 1865, 116¼@116⅜; U. S. Five-Twenties of 1865, consolidated, 120⅜@120⅝; U. S. Five-Twenties of 1867, 122⅛@122¾; U. S. Five-Twenties of 1868, 122⅜@122⅝; U. S. Ten-forties at 117¾@118; U. S. Fives of 1881, (Funding Loan) 117@117¼; Six per cent. currency Sixes, 125@125½.

State and Railway bonds have been generally more inquired for, in good part for permanent investment, at firmer prices, closing strong in most instances. And in the line of Railway and Miscellaneous share property, business has been moderately active with values, though quoted quite irregular in the leading instances through the week, closing more firmly and with an upward tendency.

General business has been on a moderate scale, in most kinds of Produce and Merchandise, since our last. Values have been variable, but without very radical changes in the leading instances. Breadstuffs, Cotton, Lard, Bacon, Petroleum and Naval Stores have been attracting rather more attention from export buyers. The Metal trade has been comparatively tame. The most important dealings have been in American Pig and Forge Iron, chiefly in Lehigh brands, for water pipe purposes. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock, $32@$33; Coltness, $33; No. 1 American Pig at $24; No. 2 do. at $22; Forge, $19@$21; English Rails at $46@$49, gold; American Rails, at works, $46@$50; Old Rails, $25@$26. Wrought Scrap, $30@$32. Ocean freights have been fairly active and quoted firmer. Grain, Provisions, Resin, Petroleum, Cotton and Tobacco room most wanted.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

by WM. R. UTLEY,
4 Wall St.

☞ Articles of consolidation of the Toledo, Thornton and St. Louis Railway Company and the Crawfordsville and Illinois Railway Company, have been filed with the Secretary of State of Ohio.

Toledo, Peoria and Warsaw Railway.

A meeting of the first mortgage bondholders of the Eastern and Western Divisions of the Toledo, Peoria and Warsaw Railway was held in the office of Jacquelin & De Coppett Brothers, No. 19 New street, on the 23d inst. The plan of reorganization recently submitted, wherein the interests of the junior securities were recognized, was, after discussion, rejected on the ground of lack of co-operation on their part, and a resolution was adopted to proceed immediately with a foreclosure of the first mortgage of both divisions, for the benefit only of the first mortgage bondholders. Messrs. Isaac Sherman, R. C. Martin, and Charles Moran were appointed a committee to draft a plan in accordance with this resolution, and Messrs. R. C. Martin, Henry De Coppett, and John S. Barnes were appointed another committee to carry the resolution into effect. This action, if successful, will wipe out $5,700,000 of capital stock, $1,200,000 of second mortgage bonds, $94,000 of equipment and fund bonds, $1,500,000 of consolidated mortgage bonds, and a floating debt of nearly half a million dollars. The first mortgage bonds amount to—Eastern Division, $1,600,000; Western Division, $2,800,000. The road extends from Warsaw, Ill., to the Indiana State line, with a branch from La Harpe to East Burlington, Ill., in all 237.50 miles, and cost $12,150,000.

☞ Under the adoption of present new regulations the Pennsylvania Railroad Company will pay their quarterly dividends on all stocks registered on their books at three o'clock P. M. on the following dates: January 31, April 30, July 31, and October 31. Holders of record on such dates will be entitled to the dividend, and the transfer books will be kept open continuously. In order to do this the company will open new transfer books on the following day. Should any of the above dates fall on Sunday the dividend will be taken from the preceding day.

☞ The officers of the Third Avenue (New York) Railroad company, elected on the 19th inst, are: President, Samuel L. Phillips; Vice President, Henry Hart; Secretary and Treasurer, Charles S. Arthur; Executive Committee, Henry Hart, William Remsen, Dr. Samuel Hall and Moses Mitchell; Finance Committee, Robert G. Remsen, Jonathan W. Allen, and Frederick B. Noyes.

☞ Proposals for building the Dayton and Southeastern Railroad will be received at the office of the company in Dayton, Ohio, until the 8th of December.

☞ The Sacramento Record-Union notices the arrival there on the 13th inst., of two more of John Stephenson & Co.'s one horse cars for the City Railway company.

☞ The Wason Car Company of Springfield, Mass., expect to keep from 500 to 800 men busy during the winter, which is a larger number than they ever employed before.

☞ There are now 500 miles of railway in course of construction in New Zealand, while 360 miles more are authorized.

☞ The Canal Commissioners have passed a resolution to close the canals in this State on the 10th of December next.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

DEALER IN

Securities of Solvent and Defaulted Railroad Companies, also State, City and County Bonds.

TIME LOANS NEGOTIATED.

Refers by permission to Messrs. M. K. Jesup, Paton & Co., New York; Messrs. Soutter & Co., New York; Jos. S. Norris, Esq., President First National Bank, Baltimore; Robert Mickle, Esq., Cashier Union National Bank, Baltimore.

INVENTORS.

If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

Illinois Central Railroad.

In August, 1870, the Illinois Central Railroad Company made a dividend of $1,263,775, upon which in September, 1871, the United States Government assessed a dividend tax of $63,188. The company obtained an injunction against the Collector of Internal Revenue, which was maintained for a long time, although it has since appeared that the court had no rightful authority to thus enjoin a United States officer. The company claimed that a portion of the dividend was derived from sales of the lands granted by the General Government.

Agents of the Government were directed to make the necessary examinations of the books of the company at Chicago, and of their land books at New York. This examination showed that all of the dividend except $721,271 was derived from the sales of such lands. The total amount of dividend upon which the Government made its assessment was about one million and one quarter dollars. More than one half of this dividend was derived from a different source than the real earnings of the road. The Treasury department has adjusted this account by permitting the company to pay $36,068, with interest from September, 1871, in full for the entire assessment. The total amount which the company will be required to pay of tax, interest and penalty is $53,177. The Government originally claimed $96 936. The company has succeeded in reducing this original demand of the Government by $27,125.

Official List of Patents Issued by the United States Patent-Office.

[For the Week ending November 19, 1875.]

MECHANICAL AND RAILROAD.

169,332. Feed-water Heaters for Steam Boilers, Wm. Austin, Hortonsville, Wis.

169,333. Machine for Bending Chain Links, Jas. Baird, Allegheny, Penn.

169,338. Furnaces, Jos. K. Caldwell, Philadelphia, Penn.

169,341. Mechanical Movements, Orlando Child Cleremont, N. H.

169,87 . Car Wheels, Wm. H. Paige, Springfield, Mass.

169,424. Car Couplings, Aubin Cyr, Lowell, Mass.

169,434. Steam-boilers, T. W. Goodwin, Norfolk, Va.

169,455. Furnaces for Steam-boilers, Jesse A. Locke, New York.

169,452. Automatic Air Valve Attachments for Steam Cylinders, Jas. N. Lander, Concord, N. H.

169,469. Feed Boilers, Stark Olmstead, Brook, Ind.

169,477. Railroad Signals, F. Raymond, Cleveland, Ohio.

169,531. Steam Boiler Furnace, Jos. Wright, San Jose, Cal.

169,560. Apparatus for Production of Iron and Steel from the Ore, Wm. Lyttle, The Grove Hammersmith, England.

169,575. Double Acting Air Brakes, H. Lemsing Perrine, Freehold, N. J.

169,581. Reverberating Furnaces, John Price, Sunderland, England.

169,586. Piston Packings, Geo. H. Reynolds, New York.

169,593. Car Brakes, Jas. N. Sawkins, Philadelphia, Penn.

169,606. Elevated Railways, Jno. Westcott, Locoi, Florida.

MINING.

169,560. Apparatus for Production of Iron and Steel from the Ore, Wm. Lyttle, The Grove Hammersmith, England.

169,589. Rock Drilling Engines, Geo. H. Reynolds, New York.

SHEET METAL.

169,480. Hermeting-sealing Devices, T. Roberts, Baltimore, Md.

Des Moines and Fort Dodge Railroad.

The first mortgage land grant bondholders who bought in the Des Moines and Fort Dodge Rail road, at foreclosure sale, in October, 1873, for $475,000, met on the 15th inst., pursuant to a call issued by the President of the road, in the latter's office, at No. 59 Wall street. Two thousand and ninety nine of the 2,278 bonds were represented, including those held in Holland—about one third the total number—for which Mr. Morton, of Morton Bliss & Co., held a power of attorney. The president stated that the condition of the road was slowly improving, but that it would never pay as it ought to until the country through which it runs is built up. The earnings of the year ending April 1, 1875, and of the current year have been devoted to the payment of debts and improvements, leaving a balance on hand of $13,898 80, and debts still due amounting to $28,247, besides several claims still undecided. The road owns 8,959 acres land on which $7,000 taxes are due, and has a claim pending for 17,000 acres more. The articles of reorganization provided that new bonds should be issued to those funding their old bonds, one half to be coupon bonds and the rest registered bonds, the interest on the former to be payable on and after July, 1876. Mr. Whitehead said that he would have the money to meet this interest, but to do so he must neglect the road, which is in a shocking condition. The ties are all rotten, the iron is worn out, and much of the rolling stock is worthless. To put the road in good order will require $60,000 at once and $30,000 per year afterward. His object in calling them together was to ascertain whether they would prefer to receive their interest in 1876 or to have the road repaired and fund their coupons for that year into preferred stock. It was unanimously resolved to take the later course. Mr. Whitehead stated that the Board of Directors had come to a qualified agreement with those of the Keokuk and Des Moines Road in settlement of their contra-claims, by which the Keokuk Company is to receive the fee simple of the bridge across the Des Moines River, two locomotives, and the joint occupancy of the depot at Des Moines for five years at an annual rental of $1,000, and is to give the Des Moines and Fort Dodge Company $20,000 in first mortgage bonds and $15,000 in cash. The agreement was formally ratified, and the Board of Directors were authorized to carry it into effect, with such modifications as may seem to them good. A resolution was passed authorizing a deed of the road to be made from the Purchasing Committee, in whose name it now is, to the corporation. The Board of Directors were authorized to distribute or keep in the treasury, as may seem to them best, the 18,000 shares of common stock remaining after the five shares each authorized by the articles of reorganization shall have been distributed to the bondholders. The time in which still outstanding land grant bonds may be funded was extended to Dec. 31. The meeting then adjourned.

☞ The London Morning Post says that the Poti Tiflis Railway Company has definitely obtained the Government concession for the construction of the projected line from Tiflis to Baku, measuring in length 520 versts. The capital to be raised for the purpose is fixed at 24 millions of roubles. By the terms of the concession the Company is required to use only best steel rails, and allowance has been made for the greater cost of such in the above estimate. It is expected that the same company will obtain the desired concession also for the proposed line from Tiflis to Djulfa, in Persia.

☞ The exports from Philadelphia to foreign ports during October were valued at $2,421,975, an increase of nearly $120,000 over the exports of October last year. The chief articles exported were $872,000 worth of petroleum, $446,000 breadstuffs, $285,000 cotton, and $358,000 provisions. It is noteworthy that no less than 4845 tons of coal were exported from Philadelphia to foreign ports during October.

☞ The Columbus State Journal says that a contract for completion of the Atlantic and Lake Erie railway between Bremen and Granville, has been closed with an Eastern party, who will commence work in a few days.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

The Coal Trade.

For the week ending on the 13th instant the anthracite coal tonnage amounted to 583,708 tons, and for the year to 18,018,198 tons, against 18,120,373 tons to corresponding date last year, a decrease of 102,175 tons. The bituminous tonnage for the week was 76,792 tons, and for the year 3,443,187 tons, making a total of all kinds for the week of 660,4950 tons, and for the year 21,461,385 tons, against 21,827,577 to corresponding date last year, an increase of 133,808 tons. At Port Richmond for the week ending the 20th instant there were receipts of 65,000 tons of coal, shipments of 60,000 tons, leaving 158,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 95,955 tons, and for the year 3,754,969 tons, of which 3,069,575 was coal and 598,200 coke. This embraces all the coal carried both east and west. The Philadelphia *Ledger*, from which the above is obtained, says:

The demand for the domestic sizes of coal has been unusually good during the last few weeks. In consequence of the falling off of the demand for iron manufacture and steam, the sizes used for such purposes have been broken up at the mines, and a very much larger proportion of domestic sizes has been made than is usual, all of which has found a ready market. The stocks of coal at the various shipping ports in New York are not very large. At Port Richmond there are 158,000 tons on hand, but as this amount is much less than one week's business of the Philadelphia and Reading Railroad Company, and only about two week's business of the Port Richmond wharves, it is not so formidable a stock as those who are bears in the market would have purchasers to believe. The demand from iron and other manufacturers continues light, and in consequence of the refusal of the associated companies to sell coal at fixed prices during the year we hear that some bituminous coal has taken the place of anthracite. It is fortunate for the anthracite dealers that the increase of demand for domestic sizes has enabled them to sell so much more stove and chestnut coal than has heretofore been disposed of. As said above, from present appearances we look for an active trade in domestic coal during the greater part of the month of December, and the probability of a suspension of mining during several weeks of the winter and the opening of the trade in the spring under the same regulations that have heretofore been adopted by the associated companies.

Rapid Transit in New York.

The New York Elevated Railroad Company announce that on the reassembling of the General Term of the Supreme Court, on the first Monday of December, they will make formal application for the appointment of the Commissioners who are to decide on the question whether they can build the elevated roads on the routes designated by the Rapid Transit Commission. The company has made the canvass among the property owners along their routes, in order to procure the consent of those owning more than one half of the property in value, as the law provides, and report that more than half have refused to give their consent. The list of these property owners which is to be submitted to the Court as proof of their action in declining to consent forms a formidable volume of 273 pages of foolscap, and the total valuation of the property along their new routes exceeds $50,000,000. Upon examining the list it appears that but very few property owners have been public spirited enough to consent, and there is a list of about thirty who would only consent to a road in the centre of the avenue. Among those objecting are the well known names of William B. Astor and Cornelius Vanderbilt. The company however, desire to state, in justice to the latter, that he has aided them as far as he could, and has refused to countenance the opposition of the Third Avenue Railroad Company. If the Commissioners are promptly appointed by the Court and give a decision favorable to the company the masonry foundations will be immediately put in along the lower portion of the east side route but, as some legal delay is more than probable, the beginning of the work will in all likelihood be deferred until the extremely cold weather is over, possibly until March. Then, says Mr. Cowing, the company's secretary, the road will be pushed forward with the greatest vigor.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y. — J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

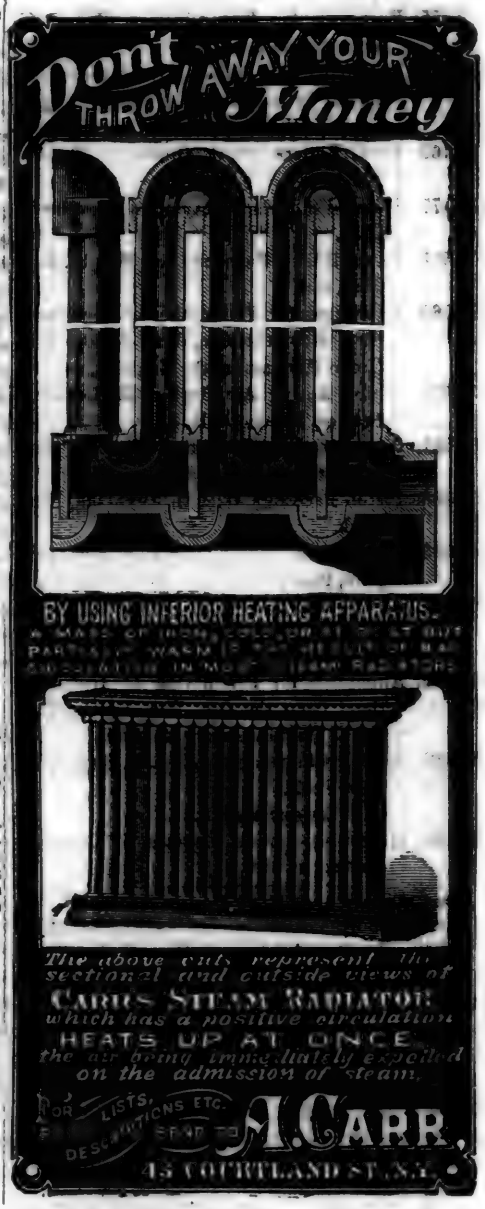
For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.



This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

The Dickson Manufacturing Co. of Scranton,

Washington and Ohio Railroad.

A correspondent of the Baltimore Sun, writing from Morefield, West Virginia, under date November 18, 1875, says :

The Washington and Ohio Railroad, which has been making some progress for several years, will, it is hoped, be yet pushed forward to completion to the Ohio river. It is known to have been lingering along under its present management for some years, whose efforts have not been successful in obtaining sufficient funds for its completion. The recent development, however, of the vast resources of West Virginia, in her immense beds of superior iron ores, coal and timber, has attracted such general attention among the capitalists of the States of Pennsylvania, New York, and other sections of the country who are interested in the coal and iron business, and carrying trade, as to induce a thorough examination of the State by the most experienced engineers and experts to ascertain with certainty the character of the coal, ores, timbers, &c., its quantity, and the general topography of the country in which it is found. During the past summer there has been a great number of gentlemen from the Eastern States making tours of inspection with these objects in view, and the result has been that Mr. Thos. A. Scott, the president of the Pennsylvania railroad, has issued a call and invited a conference with such gentlemen as will meet him for the purpose of mutual action in view of bringing the above resources into practical development by furnishing the country through which they are found with railroad facilities. This will be doubtless accomplished by a speedy extension of the Washington and Ohio railroad, which is now nearly up to the Blue Ridge, and has been located from thence through Clarke county, Va., towards Winchester, and can, under the guidance of Mr. Scott, be conducted to the coal and iron regions through the valley of the South Branch. In accordance with the invitation of Mr. Scott, a strong delegation of wealthy and influential gentlemen—farmers, merchants, bankers and others—have just left here on their way to Philadelphia, where the conference is to be held. The delegation consists of Hon. Thos. Maslin, Samuel A. McMechan, Wm. Mauzy Randolph, Angus M. Wood, Daniel R. McNiel and others. The result is looked for with much interest, and will be duly reported.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street,

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Union Pacific Railroad.

The decision of the United States Supreme Court in the case of the Union Pacific Railroad Company against the United States, delivered on the 29th ult. by Associate Justice Davis, is the unanimous expression of the Court. It opens with the statement of both sides to the case, which involves the retention or nonretention by the Government of half the compensation due the road for the transportation of mails and military and Indian supplies as reimbursements for interest paid on the bonds issued to the corporation to aid the construction of the railroad.

One of the grounds for the retention is the general right of set off. It is true, says the court, that this right, as a general principle, exists in the Government, and is commonly exercised when settling with those having claims against it, but manifestly the rules applicable to ordinary claims for services rendered to the United States do not apply to this controversy. The bonds in question were issued by the United States to aid the construction of a great national highway. In themselves they do not impute an obligation on the part of the corporation to pay them, and whether, when the Government has paid the interest on them, an obligation arises on the part of the corporation to refund it depends wholly on the conditions on which the bonds were delivered to the corporation and received by it.

The Court goes on to review the legislation of Congress, and the reasons which made imperative a national highway to the Pacific, which would bind together the widely separated parts of the common country, and furnish a cheap and expeditious mode of transportation for troops and supplies; and it was felt that the Government could not justly ignore the necessity of building this road. So strong and pervading was this opinion that it is by no means certain that the people would not have sanctioned the action of Congress had it charged the Government itself with the direct execution of the enterprise. Besides, there was a vast unpopulated territory lying between the Missouri and Sacramento rivers, practically worthless without the facilities afforded by a railroad for the transportation of persons and property. With its construction the agricultural and mineral resources of the territory could be developed, and settlements made where settlements were possible. Cheaper transportation was needed for the mails and for transporting supplies for the army and the Indians.

The building of the road was universally deemed a bold and hazardous undertaking. It is nothing to the purpose to say the difficulties disappeared in a measure and that the road was constructed at a less cost than was considered possible. No argument can be drawn from the wisdom that comes after the fact. The project was not conceived for private ends, and the prevalent opinion was that it could not be worked out by private capital alone. It was a national work, originating in national necessity and requiring national assistance.

The policy of the Government, to say nothing of the supposed want of power, stood in the way of the United States taking the work in its own hand. Even if that was not so reasons of economy suggested that it was better to enlist private capital and individual enterprise. True, the scheme contemplated profit to individuals, for without the reasonable expectation of that, capital could not have been obtained, nor the requisite skill and enterprise. But the Government sustained the enterprise to advance its own interests, and it endeavored to enlist private capital as the means of securing the building of the road to be used for governmental purposes.

Whatever obligation, therefore, rested on the company must depend upon the true meaning of the enactment itself, viewed in the light of contemporaneous history. The court goes on to construe the acts incorporating the company. Even the title to the original act of 1862, which seems to have been a subject of special consideration, declares the national character of the work. The body of the act contains the expression that its object is to promote the public interests and welfare, and to secure to the Government at all times, but particularly in time of war, the use and benefit of the same for postal, military and other purposes. If this bill had been equally explicit in relation to the bonds, there would have been no occasion for this suit, but in that particular there is no serious difficulty in getting at the true meaning of Congress. It proffered the inducement to build the road in the way of lands and interest bearing bonds of the United States.

There is no controversy about the terms on which the lands were granted, and the only point is the nature and extent of the obligations on the company to pay these bonds. It is not doubted that the Government is to be reimbursed, principal and interest, but the precise question for decision is whether the company is required to pay interest before the maturity of the principal; the solution depends upon the meaning of the 5th and 6th sections of the act of 1862 and the 6th section of the act of 1864.

The manifest purpose of the 5th section of the act of 1862 is to take a lien upon the property of the company for the ultimate redemption of the bonds, principal and interest, but the way and time are left to further provisions. That the Government was expected in the first instance to pay the interest is clear enough, for the mortgage was taken to secure the repayment of the bonds, together with all the interest thereon paid by the Government. When repayment is spoken of it is

understood that something advanced by the United States is to be paid back. Had it been the intention of Congress that the corporation itself should pay the interest on the bonds as it fell due, the phraseology appropriate to such a purpose would have been used, but when and how the reimbursement was to be made was to be in conformity with the terms prescribed in other portions of the act. There are three things, and three only, which the corporation is required to do, considering the bonds in the controversy:

First, to pay said bonds at maturity; second, to allow the Government to retain the compensation due to the corporation for services rendered, to apply the same to the payment of bonds and interest; third, to pay over to the Government, after the road has been completed, 5 per cent of the net earnings of the road, to be applied to the payment of bonds and interest.

It is sought to give to the word maturity a double signification, applying it to each payment of interest as it shall fall due, as well as to the principal; but this is extending the application of the word beyond its natural and obvious meaning, and is contrary to all legal rules. Courts cannot supply a deficiency in legislation nor afford relief because deficiencies are supposed to exist. The phrase, to pay the bonds at maturity, does not bear the sense sought to be attributed to it. It applies obviously to the obligation to pay both principal and interest, but it does not imply the obligation to pay the interests as they accrue and the principal when due. The failure to perform the conditions is declared a forfeiture, and if the natural meaning is adopted for the phrase "maturity" there can be no forfeiture until the bonds themselves mature. Besides this, when Congress imposed those conditions it well knew that the undertaking of the Government bound it to pay to the holders of any bond interest every six months, and principal at the time the bond matured.

The right to retain the amount due to the company for services rendered and to apply it toward the indebtedness of the company cannot be construed into a requirement that the company was to pay the interest from time to time and the principal when due. It is fair to infer that Congress supposed the service to be rendered by the road to the Government would equal the interest to be paid, and that was not an unreasonable expectation.

Congress did not act for the benefit of individuals, but for an object deemed essential to the security of the country as well as to its prosperity. There is enough in the scheme, in the act, in the purpose contemplated by it, to show that Congress never intended to impose on the company the obligation to pay current interest.

By the act of 1864, the grant of lands was doubled and the Government lien was made a second instead of a first mortgage, and a provision was inserted that only one-half of the amount due by the Government for transportation should be required to be applied to the payment of the bonds issued by the Government in aid of the construction of the road. The subsequent acts of Congress in relation to the bringing of suits in the Court of Claims are alluded to, and the Court finally concludes to affirm the judgment of the Court of Claims.

The Grand Trunk Railway of Canada and Eastern (Mass.) Railroad.

A correspondent of the Boston Journal, writing from Montreal, Canada, under date November 27, 1875, says that "within the past two or three days the railway centres of this city, the Corn Exchange and other resorts of the prominent capitalists and railway gentlemen have been rife with rumors to the effect that the Grand Trunk Railway Company of Canada, through its officials, was seeking to get control of the Eastern Railroad of Massachusetts and its connections between Portland and Boston. In fact these rumors have become extensively circulated, and have not as yet received any confirmation or denial on the part of the officials of the Grand Trunk Railway. Ever since the recent investigation into the financial condition of the Eastern Railroad by the investigating committee and the large debt of that corporation becoming known, and also the alleged fact that an agent of the Baring Brothers was inspecting the road for the purpose of reporting to the Messrs. Barings the real condition of its affairs, the daily quotations of its stock and bonds have received more than a casual glance from financial men here. It may safely be asserted that out of all these rumors there is most certainly some ground for the report, since the officials neither confirm nor deny them.

"It will be remembered that a little more than a year ago the gauge of the Grand Trunk Railway was altered from broad to narrow; the rolling stock of freight and passenger cars, together with many hundred engines, were altered to a corresponding gauge: and the expense of this enormous undertaking amounted to many millions of dollars. With this alteration the company has been enabled to send its cars in all directions without break of bulk in freight. And it is now asserted by persons well versed in railroad matters that one of the principal objects in view when this change was made was to seek tidewater at Boston, at some future day; and that the Grand Trunk officials foresaw what the Eastern Railroad would be compelled to do, and have been keeping their eyes upon every move made by the Eastern officials.

"The city of Portland now gives to this wealthy English Corporation an outlet at tide water, but should they get control of the Eastern Railroad and its connections, Boston would no doubt benefit from its consummation and have another route to the West via Portland and Montreal.

"Talking with a prominent financial and railway gentleman, he informed me that before any steps could be taken to consummate any such project as has been talked of for the past three days two questions naturally arose, and which would require considerable attention. In the first place, he said there are more than $3,000,000 of six per cent. gold bonds of the Eastern Railroad Company held by foreign capitalists, and by the recent statement of the investigating committee nearly twelve millions of the company's debts are held in the United States. Looking in a business like way at the proposed project, the question arises, would such an undertaking pay? Again, the through business to the West from Boston is largely over estimated. Its real value to day is scarcely enough to pay for the expense of carrying it on. The rates are not paying rates, and from actual figures shown me not a fortnight ago the entire freight and passenger business via the National Despatch, Central Vermont, Red, White, and Blue Lines, Merchants' Despatch, and all the other freight lines have for many months past scarcely paid expenses. These are two serious questions, and the Grand Trunk officials if they have any such idea of controlling the Eastern Railroad will most certainly take them into consideration."

Baltimore and Ohio Railroad.

At the annual meeting of the stockholders of the Baltimore and Ohio Railroad Company, held in Baltimore on the 15th ult., the following Report of the President and Directors for the year ending September 30, 1875, was read and accepted:

THE REVENUES.

The revenues of the main stem, including the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Washington County and the Metropolitan Branch Roads, and the Washington City and Point Lookout Railroad have been..... $10,514,178 97

Of the Washington Branch.....	343,169 65
Of the Parkersburg Branch.....	635,031 70
Of the Central Ohio Division.....	878,983 97
Of the Lake Erie Division.....	870,525 94
Of the Chicago Division.....	953,366 45
Of the Wheeling, Pittsburg and Baltimore (formerly Hempfield) Railroad.....	47,965 15
Of the Newark, Somerset and Straitsville Railroad.....	183,330 44
Total.....	$14,426,552 27
Showing a decrease, compared with 1874, of.....	$520,538 15
A decrease, compared with 1873, of	1,266,646 19
An increase, compared with 1872, of	799,874 96
An increase, compared with 1871, of	1,869,022 85
An increase, compared with 1870, of	3,586,181 79

OF THE MAIN STEM.

The expenses of working and keeping the roads and machinery in repair amounted to $6,181,972 50, being 58.79 per cent upon the earnings, showing an increase of 1.71 per cent compared with the previous year.

It is shown that the earnings in comparison with the fiscal year 1874 have decreased $1,179,776 58, and the working expenses $493 922 76, making a comparative decrease in the net profits of $685,853 82. Compared with the fiscal year 1873, the decrease of earnings being $1,738,664 81, and of working expenses $1,136,075 29, the decrease of net profits amounts to $602,598 52.

REDUCTION OF LOANS.

During the year the remainder of the first mortgage loan, redeemable in 1875, which was originally $1,128,500, viz., $840,250, has been paid. Of the next mortgage loan, which is redeemable in 1880, $120,500 have been anticipated, leaving $579,500 to be paid. Of the loan redeemable in 1885, which was originally for $2,500,000, $790,000 have been paid in anticipation, leaving to be paid of this loan $1,710,000. Of the bonds endorsed by the Baltimore and Ohio Railroad Company, under contract of July, 1864, of the Northwestern Virginia Railroad Company, due in 1885, the original amount having been $500,000, $360,000 have been anticipated, reducing the sum unpaid to $140,000.

SINKING FUND.

The sinking fund for the payment of the loan of the city of Baltimore, which was originally $5,000,000, increased during the year $99,220 22, making the payment in advance on account and in reduction of that loan $1,746,978 42.

The payments on account of the sinking funds for the redemption of the sterling loans due in 1895, 1902 and 1910, during the year amounted

to $405,760, which, at $4 84 per pound sterling, make £83,884.

The principles upon which the sinking funds of the Baltimore and Ohio Railroad Company are based will cause the entire indebtedness with which they are connected to be paid by the period of the maturity of the respective loans from the annual appropriations made for these funds together with the interest accruing from their accumulations.

DIVIDENDS AND PROFITS.

During the year $685,069 12 of the second series of preferred stock, bearing interest at six per cent per annum in currency, have been issued at par. Notwithstanding the protracted general depression of railway securities, it is gratifying to note that the bonds of the Baltimore and Ohio Company, bearing six per cent interest, continue to command large premiums both in this country and in Europe.

Semi-annual dividends of 5 per cent upon the capital stock were paid on the 1st of November, 1874, and on the 1st of May, 1875, respectively.

The profit and loss account shows an increase for the past year of $1,879,406 68.

The surplus fund of the company on the 30th September, 1875, was $34,023,566 83. The entire mortgage indebtedness in currency and sterling is $28,716,334 58. It is thus shown that the surplus fund, representing capital derived from net earning invested in its branch and connecting roads, and in the great improvements that have been continuously constructed on the main stem, which is not represented by either stock or bonds, exceeds the entire mortgage indebtedness of the company $5,307,232 25.

INCREASE OF TONNAGE.

It is shown by the report of the transportation department that there has been a continued expansion of tonnage of through merchandise east and west, viz., from 752,256 tons in the preceding year to 872,101 tons. For 1873 this traffic was 640,265 tons; for 1872, 557,669 tons, and for 1871, 435,260 tons. Nine hundred and twenty-nine thousand one hundred and forty barrels of flour and 7,342,920 bushels of grain were brought to Baltimore during the fiscal year. The traffic in live stock has been 93,709 tons, showing an increase of 4,437 tons over 1874, and of 6,049 tons over 1873.

THE COAL TRADE.

The coal trade shows an aggregate of 1,972,087 tons, which includes 452,198 tons for the company's supply. The quantity transported for the public is 1,519,889 tons, showing a decrease compared with 1874 of 258,739 tons, and compared with 1873 of 499,829 tons.

The prolonged and severe depression in manufacturing and steamship interests has again largely reduced the demand for coal, and resulted in the decrease of tonnage stated. In order to invite trade in this important article of transportation, the tariff was reduced on the 3d of March, 1875, 25 cents per ton, but the decreased consumption, from the cessation of operations by many important works, prevented its satisfactory development. A revival in the general business of the country will doubtless rapidly restore the demand for the superior coals bordering upon our lines, and lead to a great increase in this trade.

PASSENGER EARNINGS.

The passenger earnings exhibit an increase from $1,518,522 68 in the preceding year to $1,613,289 24.

This result is particularly satisfactory, as the rates during a large portion of the year were greatly reduced in connection with the railway conflict.

THE WASHINGTON BRANCH.

The earnings on this road were $343,169 65, showing a decrease of $30 153 66 compared with the previous year, of $97,605 89 compared with 1873, and of $137,475 89 compared with 1872.

The expenditures charged amount to $117,295 47, being for improvements and for repairs of railway, depots, water stations and bridges, and for pumping water.

During the year 349 tons of steel were substituted for iron rails, and 21,543 cross-ties were used.

As stated in former reports, the system was adopted by which the earnings were equitably divided upon a basis requiring all the expenses connected with transportation, the repair and use of machinery, and of the shops and stations of the company in Baltimore to be paid by the main stem, the expenses of the road department alone being charged to this road.

The partial expenditures charged, deducted from the revenue stated, make the sum of $225,874 18, showing a decrease of net earnings compared with the preceding year of $21,414 77, of $58,139 74 compared with 1873, and of $109 860 83 compared with 1872.

A dividend of five per cent was paid on the 21st of October, 1874, for the half year terminated September 30, 1874, and on the 17th of April, 1875, a similar dividend for the term ended March 31, 1875.

CAPITATION TAX QUESTION.

On May 3d of this year the Supreme Court of the United States delivered an opinion in what is called the "capitation tax case," sustaining the constitutionality of that provision of the act of 1822, chapter 175, which requires this company to pay the State one-fifth of the whole amount received for the transportation of passengers on the Washington Branch. The amount of the judgment thus affirmed, with interest, was $424,229 81, which sum was paid to the State treasurer after the receipt of the opinion of the court.

It will be remembered that the first decision of a judicial tribunal of this question of the validity of the capitation tax was that of the Superior Court of Baltimore city, which was adverse to the claim of the State. That court decided that the provision of the act of 1832 requiring the payment of one-fifth of the passenger receipts on this branch to the State was a tax on passengers, and came within the principle decided by the Supreme Court in what is known as the Nevada case—Crandall vs. Nevada—and was therefore repugnant to the provisions of the constitution of the United States.

THE STATE VS. THE WASHINGTON BRANCH.

As soon as this opinion was announced, on December 10, 1870, the company at once reduced all fares one-fifth between Baltimore and Washington, and between all intermediate points on the Washington Branch, thus giving the traveling public, mainly citizens of Maryland, the benefit of this decision exempting the company from the payment of the tax. The suit in which a judgment against the company was affirmed, as stated, covered the one-fifth of all passage money received to January 1, 1870. There are still pending five suits of the State against the company, brought to recover the one-fifth of the gross sum for passengers that has been received since that date.

REASON FOR NOT PAYING DIVIDENDS.

As the company reduced its fares from the date stated, by deducting from them this twenty per cent. tax, if the State should still press its claim for one fifth of the fares thus reduced, and the courts should sustain the validity of the claim, it will be beyond the power of the Washington Branch to earn any dividends for its stockholders, while competing with a road which is free from any such imposition. It must be clear that the right of the State to demand one fifth of the passenger fares was based upon the condition, fully implied, that the company's franchise of transporting passengers by rail between Washington and Baltimore was an exclusive one. As soon, then, as the State gave a similar franchise to another company for practically a parallel road, the implied consideration of the obligation to pay one fifth of the passenger fares ceased, and it is but just that the obligation itself should therefore cease.

It cannot be supposed that the Legislature intended that this company should pay to the State twenty per cent. of its gross earnings for passenger transportation, which would be equivalent to forty per cent. of its net earnings from this source, and at the same time retain the right to give the same franchise to another corporation, no part of whose earnings was to go to the State.

It is believed that the Legislature of the State will take this equitable view of the subject, and will not insist upon taking one fifth of the gross earnings for the transportation of passengers on a road and one third of the stock of which is owned by the State, while a competing line, the Baltimore and Potomac railroad, constructed under the authority of the State, is entirely free from such a burden.

It cannot be for the interest of the State to do this, and as it is so manifestly inequitable it cannot be supposed that the State will insist upon it. We may consequently expect a fair and equitable arrangement by which the Legislature will relieve the company from the payment of this one fifth of the passenger fares received on the Washington Branch.

That the Legislature could not have intended to reserve the right to authorize the construction of another road and still continue this imposition on this company is manifest from the language used in the eighth section of the act of 1831, which was a supplement to the first act authorizing the construction of the Washington Branch. That language is as follows:

"And if said company shall not complete the said road with at least one set of tracks, so as to be used and traveled from the commencement of it, as authorized by this act, to the line of the District of Columbia within three years after the commencement of the actual construction, the Legislature hereby reserve the right to incorporate another company, or to authorize any other persons, in their discretion, to lay out and make a railroad on and over any ground and in any direction between the city of Baltimore and the District of Columbia, anything in this act or in any act to which it is a supplement to the contrary notwithstanding."

This express reservation of right, in a certain contingency, implies strongly and clearly that there is no right except in that contingency. The company fully complied with the condition named—non compliance with which, alone, authorized the Legislature to give authority to construct the competing road. This most important question has not been submitted to or adjudicated by the courts, but the palpable justice of the position must commend it to the Legislature.

But while the Court of Appeals and the Supreme Court of the United States have upheld the legal right of the State to demand this tax, yet the same high tribunals have sustained the position of the company in what is known as the "gold case." The principle affirmed in that case was that the six per cent. guaranteed dividend on the State's preferred stock was payable in currency, and not in coin. Upon the principle thus conclusively decided the company based its counter claim against the State for $289,529 65 for moneys advanced by the company to pay in London the interest due by the State on the State's sterling loan. That sum is the difference between the six per cent. currency dividend, to which alone the State was entitled, and the amount of money advanced by the company to pay interest for the State in sterling exchange.

The several sums which make up the amount named of course bear interest from the dates of their respective payments. This interest on the sterling loan of the State was advanced by the company, at the request of the State authorities, during the war, and at times when the treasury of the State much needed these funds, and as the principle upon which the company's claim is founded has been established by the highest judicial tribunals of both the State and the United States, it is reasonable to expect that the Legislature will promptly, at its next session, authorize its adjustment.

THE PARKERSBURG BRANCH RAILROAD.

The earnings of this road for the fiscal year were $635,031 70, and the working expenses $766,217 87. The earnings were $167,034 83 less than in the previous year, whilst the expenses decreased $176 035 11, showing a comparative net result of $9,000 28 in the deficit less than in 1874. The unremunerative rates for transportation of much of the large through traffic upon this road, combined with the necessity for continued heavy expenditures for the improvement of the line, (among which was the use of 2 634 tons of steel and iron rails,) have again resulted in a large loss on the business of the year.

GENERAL RESULTS.

The aggregate earnings, working expenses, and net results of the main stem, including the Winchester and Strasburg, the Strasburg and Harrisonburg, the Washington County and the Metropolitan Branch roads, and the Washington City and Point Lookout Railroad, the Washington Branch and the Parkersburg Branch Railroads, of the Central Ohio, Lake Erie and Chicago divisions, the Wheeling, Pittsburg and Baltimore and the Newark, Somerset and Straitsville Railroads, were viz :

	Earnings.	Expenses.	Net Ear'gs.
Main Stem, e'c....	$10,514,178 97	$6,181,972 50	$4,332 206 47
Washington Br....	343,169 65	117,295 47	225,874 18
Parkersburg Br...	635,031 70	766,217 87	†131,186 17
Central Ohio Div..	878,983 97	889,118 67	†10,134 70
Lake Erie Division	870,525 94	667,676 01	202,849 93
Chicago Division..	953,366 45	1,109,408 21	†156,041 76
Wheeling, Pittsb'g & Baltimore R.R.	47,965 15	47,347 46	617 69
Newark, Somerset and Straitsville Railroad	183,330 44	157,507 48	25,822 96
	$14,426,552 27	$9,936,543 67	$4,787,671 23
†Deduct deficits on Parkersburg Branch and Central Ohio and Chicago Divisions.....			297,662 63
			$4,490 008 60

The net revenue of the main stem and branches, including the Central Ohio, Lake Erie and Chicago divisions, the Wheeling, Pittsburg and Baltimore and the Newark, Somerset and Straitsville Railroads, is $4,490,008 60. The aggregate working expenses of the main stem with all branches and divisions, are 68.87 per cent of the whole gross revenues, being 5.88 per cent more than the preceding year.

EFFECTS OF BUSINESS DEPRESSION.

In view of the protracted and extraordinary inactivity of every branch of business, and the universal depression of the manufacturing industries of the country, these results will be regarded with satisfaction. When further considered in combination with the united and prolonged attacks of the great trunk lines upon the business and interests of the Baltimore and Ohio Company, during which time rates entirely unremunerative were established for the transportation of freight, particularly between the seaboard and Western cities, the results are not only satisfactory, but gratifying.

The Pennsylvania Railroad Company offered rates from Baltimore for long periods which were so low as necessarily to involve large losses. This company, therefore, declined much business that was tendered to it in Baltimore and elsewhere, on which the actual cost of transportation would have materially exceeded the gross revenue that could have been earned therefrom.

IMPORTANT CONNECTIONS.

The Baltimore and Ohio Company, with its powerful connections with Cincinnati, Chicago, St. Louis, Louisville, Columbus and Sandusky, and with Pittsburg, Wheeling and Parkersburg, on the Ohio river, and Staunton and Danville, in the South, has proven its ability, under its exceptionally strong and prudent financial system, to maintain its positions, vindicate its rights, and to accomplish good results for its shareholders.

IMPROVEMENTS MADE DURING THE YEAR.

During the year 267,939 new cross ties, 4,677 tons of iron, and 295,526 tons of steel rails were used for repairs and the construction of different tracks on the main line. The iron rails were made by the company at its rolling mill at Cumberland. During the year 9 engines, 25 palace and passenger cars, and 189 cars for general tonnage were purchased and built at the company's works. The cost of this new and additional equipment, $358,257 44, has been charged to rolling power.

It is shown by the particulars furnished in the report of the master of machinery that the equipment upon the main stem and branches consists of 558 locomotives, 341 passenger and baggage cars, and 12,058 house, stock and other cars.

It will be seen that 5,526 tons of steel rails have been used during the past year upon the main stem; 5,851 miles of track are now laid with this durable and safe material. The increased cost of the large quantity of steel thus used in substitution for iron rails has been charged to the repair account. The economy and advantage of the substitution of steel for iron rails so generally upon the line are shown by the important reduction stated by the road department in the cost of the "repairs of railway" at $305,899 26.

During the year 22 miles and 553 feet of second, third and fourth tracks, and tracks connected with stations, have been constructed, costing $540,576 02. Embraced in these tracks are expensive and difficult, but most valuable improvements upon the mountain grades.

THE "WAR"—WISER POLICY.

It is believed that the enormous losses thrown upon the roadways of the country by the injudicious assaults made upon the Baltimore and Ohio Company will cause a wiser policy to be generally adopted and maintained in the future.

Such extreme irregularities and rates so unremunerative as were needlessly made have imperilled such vast interests and injured seriously so much railway property that lessons of the past year should not fail to secure hereafter a judicious and conservative policy.

With the numerous improved and important connections recently constructed and secured, a large increase of traffic may be reasonably expected upon the restoration of the business of the country to its normal condition. With this prospect, combined with the economical advantages arising from the comparatively low price of labor and material, it has been deemed judicious to continue to enlarge the facilities and works of the company. Preparations have been thus made by which a greatly increased business can hereafter be effectively and economically done.

IMPROVEMENTS AT LOCUST POINT.

At Locust Point a warehouse especially adapted for storage and handling of coffee has been made. This structure is 267 feet and 11 inches in length by 77 feet and 4 inches in width, is two stories high, and is divided by solid brick fire walls, carried through and above the roof, into four distinct warehouses. It is protected on the exterior by solid iron doors and window shutters. It is built upon stone and pile foundations in water of 25 feet depth, and is provided with wharves of 40 feet in width on the north and west sides, and 14 feet on the east side, and is so arranged that three vessels can discharge rapidly at one time. This improvement is designed to furnish important additional facilities for the handling and shipment of the present large and rapidly increasing importations of coffee at the port of Baltimore.

STEAMSHIP ACCOMMODATIONS.

To meet the large requirements for the new lines of steamships running to Baltimore an additional steamship pier is being constructed at Locust Point. This pier is located sixty feet from the eastern line of the company's property, allowing thereby a dock 120 feet in width in connection with that adjoining. It is 750 feet long and 100 feet wide, having a warehouse 88 feet in width, with a platform on each side 6 feet wide. It is built upon piles placed in rows five feet apart from centre to centre, and requires in its construction 3,800 piles. The roof and sides of the pier are of corrugated iron. Two railroad tracks will run through the warehouse, thus providing the most economical facilities for receiving and delivering freights. A part of this structure will form a bonded warehouse, and it will also be provided with all the offices and appointments desirable and necessary to accommodate, in the fullest manner the requirements of shippers, and to promote the comfort and convenience of passengers. The facilities of track room for delivering and receiving freight at this pier will be of the most complete character. A carriageway will also be provided by which communication between Fort avenue and the pier, will be made without crossing at grade any of the tracks at Locust Point.

IMPROVEMENTS NEAR BALTIMORE.

At Riverside, near the marine terminus, Locust Point, a superior circular engine house, with all modern improvements, has been constructed. The building is three hundred and five feet in diameter, and contains forty four stalls, with a turn table of sixty feet diameter. The walls of the outer circle are of brick, and the inner circle is of iron, supported by iron columns, which form the sides of the doorways and sustain the iron trusses of the roof. The roof is of slate and the cornice of galvanized iron. Connected with this round house a machine shop, with the best modern improvements and conveniences, 100 by 163 feet, is being constructed. At Bailey's one half mile south of Camden Station, a first class engine house, 228 feet 7 inches in diameter, for twenty four engines, with machine shop, boiler house, blacksmith shop and oil house, has been constructed and is now in use.

At Camden Junction 48 coal chutes, holding 6 tons each, 200 feet long by 38 feet in width, and 31½ feet high, with descending tressel work of 950 feet, are nearly completed and will be used within a brief period, thus effecting an important economy.

In order to increase facilities and conveniences in the vicinity of the great coal regions, the company acquired at Keyser, 5¼ miles east of Piedmont, 75 acres of land, on which it has constructed excellent and valuable improvements. It has built an engine house of brick and iron, with stone foundations of the best character, 305 feet in diameter, with 44 stalls for engines, and with a 60 feet turn table. A machine shop, dimensions 103 feet by 164 feet, is rapidly approaching completion. It contains seven tracks, with pits for engines, and is lighted by a ridge skylight 16 feet wide, covered with hammered plate glass, and provided with side ventilators. A substantial building, with accommodations for passengers, the requisite offices, etc., have been erected. A freight warehouse built of brick and covered with slate, 45 by 104 feet, has been completed. New and extensive stock yards have been completed. These accommodations embrace one bay and sheep house, 80 by 130 feet, capacity 100 tons of hay and 5,000 sheep; a barn for horses, 80 by 130 feet; six hog houses, capacity 1,800 hogs, and yard and sheds for 2,000 cattle. Forty eight coal shutes, holding six tons each, with storage capacity for 888 tons, have been completed at this point.

MAIN STEM IMPROVEMENTS.

Between Piedmont and Keyser two tracks have been added, making four tracks, thus increasing greatly the facilities and economies of making up and dispatching trains.

Other important improvements have been made at Locust Point, Camden Station, Mt. Clare, Frederick, Martinsburg, Little Cacapon, Patterson's creek, Cumberland, Deer Park, Newberg, Grafton and Barton, particulars of which are furnished in the report of the master of road.

The investments in new and additional works under the charge of the road department for the fiscal year amounted to $1,017,245 22.

PURCHASE OF BALTIMORE'S INTEREST IN CONNELLSVILLE ROAD.

On the 17th of June, 1875, the Baltimore and

Ohio Company purchased from the city of Baltimore its interest in the Pittsburg and Connellsville Railroad Company for $1,000,000, being the sum originally loaned by the city of Baltimore to that company. The purchase money is to be paid as follows: Forty thousand dollars on the 1st day of July in each year after the year 1875, until the 1st day of July, 1900, and in the meantime interest is to be paid semi annually on the 1st day of July and January on so much of the amount as may remain unpaid.

In order to make this road, so valuable and important to the cities of Baltimore and Pittsburg, effective, much work proved to be requisite to prevent financial embarrassments; and to aid in rapidly perfecting the work, this company has advanced in cash for the Pittsburg and Connellsville Company $5 685,923 38. The business of that line is now being established upon a permanent basis, and arrangements are being perfected for more intimate connections and the closest relations in working with the main stem. Under the proposed organization largely improved results may be reasonably anticipated.

TRANS-OHIO DIVISIONS.

The annual report of Mr. W. C. Quincy, the general manager of the trans Ohio divisions, is appended. It will be seen from the particulars furnished that many important improvements have been made upon the Newark, Somerset and Straitsville, the Central Ohio and Lake Erie divisions. These roads have not only been fully maintained, but many expensive and permanent additions have been made for the purpose of giving increased facilities for the transaction of the large business which is expected in the future.

THE BALTIMORE, PITTSBURG AND CHICAGO RAILWAY.

In the last annual report it was stated that it was then expected that the entire road would be opened in November following. The tracklaying on this line, which was commenced at Fostoria, July 22, 1873, was completed from Chicago Junction to Baltimore Junction, a distance of 263 miles, on November 15, 1874. In order to insure safety in operating much additional work was done, and the opening of the line for traffic from Deshler to Chicago, a distance of 200 miles, was deferred until December 23. The winter proved to be of unusual severity in that region; the thermometer for frequent and protracted periods ranged from zero to twenty three degrees below.

Notwithstanding this extraordinary condition of the weather and the recent construction of the road, the very satisfactory result was shown that there was not a single case of personal injury or an accident upon the line. In order to perfect the road and supply all needed facilities for prompt and economical shipments and transportation large forces have been employed throughout the year to complete the ballasting, to slope and widen the cuts and embankments, to lay additional and second track, and to erect shops, depot structures, water stations and elevators.

Forty acres of ground were purchased at Chicago Junction; fifty six acres were donated at Garrett City, and forty acres at Kingston for depot grounds, machine shops, engine houses, etc. At Chicago an engine house for sixteen engines, a machine and blacksmith shop, 70 by 150 feet, are being erected. At Garrett City an engine house for thirty two engines, 264 feet in diameter; a machine shop, 264 by 104 feet; a blacksmith shop, 264 by 80 feet; a power house, 80 by 50 feet, and other requisite buildings are being rapidly constructed, and will be ready for use prior to January next.

At Kingston, an engine house for sixteen engines; a machine shop 150 by 70 feet, two stories in height; a power house 28 by 42 feet, and a blacksmith shop 100 by 70 feet, have been completed. These buildings have all been constructed in the most permanent manner of brick, with slate roofs, and embrace all desirable improvements.

In order to insure the rapid and economical coaling of engines, chutes with pockets for storage of coal have been erected at Deshler, Walkerton and Kingston, and are under construction at Chicago Junction and Garrett City. At Chicago Junction a brick structure, embracing requisite conveniences for dining and waiting rooms, with sleeping apartments for guests desiring to lie over, is nearly completed. Fourteen grain elevators, with a capacity of from 10,000 to 24,000 bushels each have been built at the following points: Attica, Republic, New Baltimore, Holgate, Hicksville, St. Joe, Auburn, Avilla, Albion, Cromwell, Syracuse, Milford Junction, Union Mills and Cobourgh. Passenger stations have been erected at Chicago Junction, Republic, Tiffin, Fostoria, Bloomdale, Bairdstown, New Baltimore, Hoyt's Corner, Deshler, Defiance, Hicksville, St. Joe, Auburn, Albion, Cromwell, Syracuse, Milford Junction, Locke, Bremen, Walkerton, Union Mills, Sumner and South Chicago.

At Defiance, where the Chicago division connects with the Toledo, Wabash and Western railroad, and at Auburn, where it connects with the Detroit and Eel River and Fort Wayne and Jackson and Saginaw railroads, joint station buildings have been erected for the interchange and transfer of passengers and freight with those important lines. At Deshler the connection with the Dayton and Michigan railroad is being perfected by the construction of a joint freight building and a joint passenger station. An ice house has been built at Syracuse lake, with capacity to supply the passenger coaches of the entire line.

In the city of Chicago a first class brick freight warehouse, 600 feet in length by 55 feet in width, with slate roof, has been erected. Two hundred and fifty five miles of fencing and 240 cattle yards have been built upon the line. A stock yard, with loading pens, has been built at Defiance, and many other stations upon the line have been supplied with similar conveniences. At Chicago connections have been made with the great stock yards, and ample preparations for an extensive traffic in live stock have been completed. Eighty one tool and hand car houses have been built. Nineteen frost proof water stations, each with a capacity of 56,000 gallons, each with brick power house, and all supplied with pumping engines, have been erected. Reservoirs have been built at Chicago Junction, Attica, New Baltimore, Deshler and Hamler, with an estimated capacity of 10,740,000 gallons. A second track has been completed from Kingston to Baltimore Junction, seventeen and a half miles of side tracks have been laid, and junction tracks built for the transfer of loaded cars with the following railway companies, viz:

At Tiffin, with the Cincinnati, Sandusky and Cleveland, and with the Toledo, Tiffin and Eastern railroads; at Fostoria, with the Lake Erie and Louisville; at Deshler, with the Dayton and Michigan; at Defiance, with the Toledo, Wabash and Western; at Auburn Junction, with the Detroit, Eel River and Indiana, and the Fort Wayne, Jackson and Saginaw; at Avilla, with the Grand Rapids and Indiana; at Milford, with the Cincinnati, Wabash and Michigan; at Walkerton, with the Indianapolis, Pern and Chicago; at Union Mills, with the Chicago and Lake Huron; at New Albany Crossing, with the Louisville and Chicago, and at South Chicago, with the Chicago, Rock Island and Pacific railroads.

The amount expended for construction during the fiscal year in providing the additional facilities described, and in perfecting this line was $1,356,014 60.

In order to organize an independent line of telegraph and thus instead of having the telegraph service a source of large and constant expenditure, to make it a source of revenue, a first class line, with two wires of the best galvanized iron, has been built upon the entire line between the Lake Erie division and the city of Chicago.

Arrangements will be made by which improved facilities will thus be furnished to the public, and it is believed an important economy will result to the company, through the establishment of the line upon principles different from those under which the telegraph business of the Baltimore and Ohio Company has heretofore been done.

The successful management of the business of the company requires the acknowledgement of the board to the officers and employees generally for their faithful and effective services. By order of the board.

JOHN W. GARRETT, President.

ELECTION OF DIRECTORS.

After the reading of the report, no other business being presented, the stockholders' meeting entered into the election of directors to serve for the ensuing twelve months. Messrs. Miles White, Wm. J. Albert and Wm. F. Burns acted as judges. On counting the ballots the following gentlemen were found to be unanimously elected by a vote of 42,179 shares, viz: Messrs. Galloway Cheston, Samuel W. Smith, Francis Burns, John Spear Nicholas, John Gregg, Francis T. King, C. Oliver O'Donnell, James Harvey, Wm. W. Taylor, Samuel Kirby, John King, Jr., and G. A. Von Lingen.

The Coal Trade.

The anthracite tonnage for the week ending on the 20th ult. is stated at 562,788 tons, and for the year at 18,580,774 tons, against 18,608,212 tons to corresponding date last year, a decrease of 27,438 tons. The bituminous tonnage for the week was 87,751 tons, and for the year 4,030,686 tons, making a total of all kinds for the week of 650,534 tons, and for the year 22,611,460 tons, against 21,847,257 to corresponding date last year, an increase of 764,203 tons. At Port Richmond for the week ending the 27th ult. there were receipts of 63,500 tons of coal and shipments of 55,500 tons, leaving 165,500 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 104 058 tons, and for the year 3,859,027 tons, of which 3,158,153 was coal and 613,680 coke. This embraces all the coal carried both east and west. The receipts of coal at Perth Amboy for the week ending on the 22d ult. were 19,810 tons; total received during the season, 318,178 tons; shipments for the week, 15,721 tons; total shipments for the season, 282,077 tons; leaving on hand 40,577 tons.

Virginia State Debt.

From the report of the Second Auditor of Virginia it appears that the State debt on the 30th of September, 1875, exclusive of the bonds and certificates held by the literary and sinking funds, was $29,514,426 48. The debt, as reported October 1st, 1874, was $29,957,010 75. The debt is divided as follows:

Amount of tax paying coupons issued to date	$18,881,500 05
Amount of registered bonds and fractional certificates which may be converted at the option into such bonds	1,365,515 80
Making the amount of the consolidated debt	$20,237,015 85
Amount of debt funded and to be funded in bonds not convertible into consols	9,277,410 58
Making the debt proper	$29,514,426 43
Of which the West Virginia portion is	15,239,370 74

The public debt is held as follows: By citizens and corporations in Virginia about $8,000,000, (of which probably $6,000,000 is in consols) in other States of the Union $13,000,000, and in foreign countries $8,500,000.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

All entries (—) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, December 4, 1875.

Financial and Commercial Affairs.

As usual on the eve of the assembling of Congress reports and rumors, more or less exciting, have been circulated quite industriously and with obvious intent to influence the course of values, especially in the financial line. Relations with Spain have been made the basis of the most disturbing rumors of the past week; and these rumors have been quite influential at the Gold and Stock Boards. The United States Supreme Court ruling in the Union Pacific Railroad Company case as against the Government, and in favor of the Railway corporation, has also been of decided weight in the dealings in Stocks, particularly in the obligations, stocks and bonds, of the Company, which, with frequent variations, have advanced sharply. Money has been more actively sought after, chiefly for speculative purposes, and has been quoted somewhat firmer as to price, with call loans closing generally at 4@5, and best discounts at 6@7 per cent per annum. The drain of currency to the interior for crop moving purposes has been continued, but has not been of great magnitude. The severely cold weather toward the close of the week under review was regarded as having practically closed river and canal navigation for the season. The City Banks last week reduced their reserve of legal tender notes $948,400, and their deposit item $828,400, while increasing their specie average $550,500. They report a decrease of $787,200 in the loans and discounts, and an increase of $62,700 in their circulation. The U. S. Sub Treasury in this city

closed the week with a currency balance of $43,496,608 against $44,524,362, the preceding week; and a coin hoard of $42,546,225 against $42,925,391, on the previous return. The City bank exchanges in currency reached $327,395,239, or a daily average of $65,479,049. The customs revenue of the port, during the week, was $1,680,000. The City banks reported their average of gold last week at $16,262,500, and their greenback average, at $47,088,900. Their deposits stood at $215,808,400. The loan item was $271,910,200. The circulation was $18,512,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,319,300.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $415,361,899. The outstanding amount of legal tender notes is $373,005,780. The National bank circulation is now $344,753,821, including $2,191,850 of national gold bank notes.

The specie shipments from San Francisco, January 1, to November 18, were $41,420,399, against $27,198,481 same time in 1874.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,558,139; special deposit of legal tenders for the redemption of certificates of deposit, $42,130,000; Coin, $70,127,823; Coin certificates $19,739,000.

The week's import entries of Foreign Merchandise at New York were $2,983 749, including $491,308 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 49 millions; and from Customs, 67½ millions.

The U. S. Sub Treasury receipts from all sources in November were $68,387,072, including $7,608,527 from customs; payments on all accounts, same time, $76,460,282, including $4,348,465 of coin interest.

On Tuesday, the Secretary of the Treasury directed the retirement of $764,472 of outstanding legal tenders, being 80 per cent. of the amount of national bank circulation issued during the month of November.

Gold has been quite active and much stronger as to price, especially toward the close, chiefly on the increased activity in the speculative dealings, growing out of the warlike rumors relative to the Spanish Cuban question, and the announcement that Government had decided to suspend sales of Gold for the present. The extremes of the price during the week have been 114⅛@115⅝, closing on Wednesday at 115¼ as against 114⅛, on Wednesday of the preceding week. The specie outflow last week was $706,564 against $397,500 the previous week. The imports of specie at this port since Jan. 1, have been $11,451,234, against $5,619,794 same time last year. The customs demand for gold last week averaged $336,000 per day. Foreign Exchange has been quite moderately dealt in and quoted weaker toward the close. Bankers' sixty day bills on London closed on Wednesday at $4 83@$4 83⅛; sight bills on London at $4 86⅛@$4 87 to the £ stering. The week's exports of Domestic Produce have been o the currency value of $5,549,352. The week's imports of Dry Goods and general merchandise were to the specie value of $2,983,749, as against $4,718,735 the corresponding week of last year.

Government Securities have been quite active, considering the meagre offerings of bonds at the current quotations, which show a firmer market. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $365,829,912.

U. S sixes of 1881 closed on Wednesday of this week at 123⅞@124⅛; U. S. Five-Twenties of 1864, at 115¾@116; U. S. Five-Twenties of 1865, 116⅛@116¾; U. S. Five-Twenties of 1865, consolidated, 120¾@121; U. S. Five-Twenties of 1867, 122⅞@123; U. S. Five-Twenties of 1868, 122¾@123; U. S. Ten-forties at 118@118¼; U. S. Fives of 1881, (Funding Loan) 117½@117¾; Six per cent. currency Sixes, 125@125½.

State and Railway bonds have been in good request, mainly for permanent investment, at generally firmer prices, closing, as a rule, quite buoyantly. And in the line of Railway and Miscellaneous share property, business has been more animated with values, unusually variable, but in most instances, closing decidedly stronger.

General business has been fair for the season in the leading kinds of Produce and Merchandise, with values of Breadstuffs, Provisions, Cotton, Naval Stores and Petroleum, Wool, and Tobacco fairly supported. Groceries stronger and at the close quite buoyant, in the instance of Coffee and Sugar. Metals rather more active, but with American Pig Iron quoted weaker. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock, $32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $22; Forge, $17@$20; English Rails (in bond) $35@$36 gold; American Rails, at works, $46@$50; Old Rails, $22 50@$23 50. Wrought Scrap, $30. Ocean freights have been more active at advanced rates, with room for Grain, Flour, Cotton, Provisions, Petroleum, and Tobacco more sought after.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

The Miller Improvements Again!

The Davenport, Iowa, *Democrat*, of the 27th ult., recounts what it is pleased to call a "terrible railroad accident" on the Chicago, Rock Island and Pacific Railroad at Homestead Summit, but which it afterwards qualifies as "the most miraculous railroad incident in all railroad history." The facts are: the company had been grading at the Summit, cutting down the track on one side about fifteen feet. While this work was in progress the day trains used the old or high track, so that the dirt trains might not be interfered with in the cut. During the night the dirt cars were set upon the high track, and the trains were run through the cut. Now comes the "incident." It is night. The switch is set for the lower track. A train from the west, consisting of a locomotive, tender, five coaches and two baggage cars, approaches at a twenty-five mile rate. The locomotive and tender take the track through the cut, while the cars, owing to the shifting of the switch, had glided along upon the upper track. The cause of the diversion was the breaking of the target pin. The result was: that while the locomotive was all right below, the cars had encountered the dirt train above. The forward baggage car struck the rear dirt car, and being set higher up passed along upon it, crunching up things until the trucks met: then the train stopped. Not a wheel had left the track, not a jar had been felt by the passengers. The sleepers slept on undisturbed. The bending of the king-bolt was the principal damage. The train was reconnected, run back to Homestead station, and the damaged car switched out, when the train resumed its journey and reached its destination only an hour behind time. The preservation of the train from a general smash-up is attributed to the Miller platform and coupling. But for that it was conceded by all hands the train must have pitched into a heap of ruins.

Washington City, Virginia Midland and Gt. Southern Railroad.

At the annual meeting of the stockholders of this company, held at Danville, Va., on the 25th ult., the president, Mr. John S. Barbour, submitted the annual report, showing the total receipts and income of the road for the past fiscal year to be $1,033,980 57, and net earnings (after paying expenses including $41,144 44, trackage charges to Chesapeake and Ohio Railroad for use of track between Gordonsville and Charlotteville, and to the Alexandria and Fredericksburg and Baltimore and Potomac Railroads north of Alexandria,) to be $401,612 72. The report also shows the mortgage debt of the company to be $6,667,454; floating debt secured, $966,047 54; do. unsecured $582,092 64; total debt $8,225,594 48.

The report further expresses regret that the financial condition of the company is not more satisfactory, and states that means had been adopted to lessen the expenses and bring the necessary outlay within the limits of its income, which proved to be of only temporary relief owing to the lack of business consequent on the depressed condition of the country. It also attributed the smallness of the receipts to the low rates of tonnage and passenger travel, necessitated by the competition of other lines. The report also urges the construction of an independent line between Charlotteville and Gordonsville to avoid heavy charges now imposed by the use of another line.

Mr. John S. Barbour was unanimously reelected president, with the following directors: W. G. Cazenove, C. F. Suttle, E. C. Marshall, S. A. Coffman, I. F. Slaughter, W. D. Hart, R. A. Coghill, C. M. Blackford, T. C. S. Ferguson, W. E. Sims, G. T. Pace, and C. G. Holland.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

Martin Lewis,

Room 3. 43 PINE ST., N. Y.

DEALER IN

Securities of Solvent and Defaulted Railroad Companies, also State, City and County Bonds.

TIME LOANS NEGOTIATED.

Refers by permission to Messrs. M. K. Jesup, Paton & Co., New York; Messrs. Soutter & Co., New York; Jos. S. Norris, Esq., President First National Bank, Baltimore; Robert Mickle, Esq., Cashier Union National Bank, Baltimore.

INVENTORS.

If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

☞ The exports from Basle, Switzerland, to the United States for the year ending Sept. 30, aggregated in value $4,244 012, a decrease from last year of $818,605. The principal goods exported were silk ribbons, silk tissues, straw and hair goods, watches, cheese and Albumen.

☞ Another one of Stephenson's one horse cars reached Sacramento on the 23d ult., and two more were expected in a day or two.

☞ The last boat for the season of the Delaware and Hudson Canal Company was loaded at Honesdale on the 27th ult.

☞ The Wisconsin Valley Railroad will be extended to Jenny in the spring.

Finances of Ohio.

We give below in full the Semi-Annual Report of the Commissioners of the Sinking Fund to the Governor :

SINKING FUND.

The payments into the State Treasury to the credit of the sinking fund, and the disbursements from said funds, for the period covered by this report, six months ending November 15, 1875, were :

Receipts :

Balance subject to draft, May 16, 1875	$669,576 56
Taxes	572,266 68
School lands, section 16	24,162 08
School lands, section 29	442 88
School lands, Virginia Military	200 00
Surplus revenue	858 09
Canal lands	4,000 05
Agricultural and Mechanical College fund	1,207 50
S. S. Rickly's assets	1,471 80
General revenue fund, repayment	130,000 00
Returned from New York	3,350 60
	$1,407,036 24

Disbursements :

Principal of funded debt	$18,019 58	
Interest on funded debt	254,880 17	
Interest on irreducible debt	10,000 00	
Expenses	1,107 85	
		283,957 60
Balance subject to draft, Nov. 15, 1875		$1,123,078 64

The sum of $2,500 was on deposit with the American Exchange National Bank, New York city, for the redemption of the loan of 1868, still outstanding though not bearing interest; and the true balance of the sinking fund, therefore, was $1,125,578 64.

PUBLIC FUNDED DEBT.

Owing to the inability of the Commissioners to make purchases of Ohio State stocks at reasonable rates, no material change has been made in the amount of the funded debt of the State since our last report; nor, we may add, was it reduced any great extent during the entire fiscal year. The reductions for the year amount to only $38,285 18, of which all but the sum of $5,270 should be credited to the last six months. The changes since the 15th of May last were as follows :

The amount of the outstanding funded debt of the State on the 15th of May, 1875, was		$7,982,935 30
The redemptions were :		
Loan of 1870	$15,000 00	
Loan of 1875	18,015 18	
		33,015 18
Outstanding Nov. 15, 1875		$7,949,920 12

This sum consists of the following loans :

Foreign debt—payable at New York :	
Loan payable July 1, 1868, not bearing interest	$2,500 00
Loan payable after December 31, 1875, bearing 6 per cent interest.	1,473,114 82
Loan payable after June 30, 1881, bearing 6 per cent interest.	4,072,640 80
Loan payable after December 31, 1886, bearing 6 per cent interest.	2,400,000 00
Total foreign debt	$7,948,255 12
Domestic debt—payable at Columbus :	
Canal loan, not bearing interest	1,665 00
Total funded debt	$7,949,920 12

It will be observed that the sum of $1,473,114 82 of the funded debt becomes payable at the pleasure of the State after Dec. 31, 1875, though in financial it is regarded as maturing on the 1st day of January next, and will then cease to be called at the New York Stock Exchange. The condition of the sinking fund will not be such as to enable the Commissioners to redeem all of the loan in question at that time, and, in consequence of that fact, they have notified the holders of only $868,230 47 thereof to present their certificates to the American Exchange National Bank, New York city, for payment on that day, when interest thereon will terminate. An extension of three months in which to pay the remainder of the loan, $604,884 35, has been very promptly and cheerfully granted by its holders, and through the receipts from taxes and the repayment of the $450,000 temporarily transferred to the Asylum fund two years ago, it is expected that the Commissioners will be in possession of funds to retire the uncalled for balance within the period stated.

NEW YORK AGENT.

The American Exchange National Bank still acts as the disbursing agent of the Commissioners at New York city, and the readiness, promptness and fidelity that continue to characterize its discharge of the duties connected with that position without cost to the State, merit at least a recognition of the services so rendered.

Respectfully submitted,

JAMES WILLIAMS,
Auditor of State,
WILLIAM BELL, JR.,
Secretary of State,
JOHN LITTLE,
Attorney General,
Commissioners of the Sinking Fund.

United States Mint.

Dr. Linderman, Director of the Mint, has made his report to the Secretary of the Treasury. It shows the operations of the Mint and Assay offices for the fiscal year ended June 30, 1875, from which it appears that the amount of gold and silver deposits and purchases, coins struck and bars manufactured were as follows :

Gold deposits	$43,152,584 50
Silver deposits and purchases	18,304,406 07
Total amount received and operated upon	$61,456,990 57

Deducting redeposits, bars made and issued by one institution and deposited at another the deposits were :

Gold	$38,556,293 90
Silver	16,070,626 54
Total	$54,626,920 44

COINAGE.

	Pieces.	Value.
Gold	1,739,062	$33,553,965
Silver	22,823,216	10,070,368
Minor	14,629,500	230,375
Total	39,191,778	$43,854,708

The total gold and silver bullion deposited and purchased, including redeposits, was as follows :

Mint at Philadelphia	$9,804,788 23
Mint at San Francisco	31,489,397 90
Mint at Carson City	5,570 968 32
Mint at Denver	902,119 49
Assay Office, New York	13,475,247 12
Assay Office, Boise City, Idaho T.	117,779 48
Assay Office, Charlotte, N. C.	6,690 03

The coinage at the different mints was as follows :

Mint at Philadelphia—Gold coinage 278,258 pieces, value $5,162,870; silver trade dollars 476,800 pieces, value $476,800; silver subsidiary coin 11,010,400 pieces, value $3,168,710; minor do. 14,629,500 pieces, value $230,375; total 26,394,958 pieces, value $9,038,755.

Mint at San Francisco—Gold coinage 1,330,000 pieces, value $26,200,000; silver trade dollars 3,379,000 pieces, value $3,379,000; silver subsidiary coin 4,895,000 pieces, value $948,000; total 9,604,000 pieces, value $30,527,000.

Mint at Carson—Gold coinage 130,804 pieces, value $2,191,095; silver trade dollars 1,841,700 pieces, value $1,841,700; subsidiary coin 1,220,316 pieces, value $256,158; total 3,192,820 pieces, value $4,288,953.

Total coinage 39,191,778 pieces, value $43,854,708.

Wisconsin Central Railroad.

The Milwaukee *Wisconsin* says that nearly ten miles of this road have been graded and the iron track laid south of Stevens Point on its extension towards Portage City. Mr. Phillips, the General Manager, expresses the conviction that eighteen or twenty miles more of the track will be laid before the close of the winter work. The season, so far, has been very favorable. It may not continue so, and therefore it is uncertain how many miles of track will be laid down before the first of February. But the general outlook now promises that the road will be in complete running order from Stevens Point to Portage City, 70 miles, by the 4th of July, 1876.

169,863. Machines for Making Pipe Elbows, Andreas Syverson, Chicago, Ill.

169,878. Manufacture of Metal Tubing, Stephen W. Wood, Cornwall, N. Y.

☞ John C. Holland has been elected President, H. H. Graue Treasurer, and W. W. Orndorff Secretary of the Baltimore, Catonsville and Ellicott's Mills Railroad Company. During the past year 241,269 passengers were carried, against 251,072 the previous year, a decrease of 9,808. The ordinary running expenses of the company were also reduced, but extraordinary expenses had been incurred in renewing a portion of the track. During the year a dividend of eight per cent was declared on the stock.

☞ The Executive Committee of the Connecticut Valley Railroad Company have leased the new Connecticut Central Railroad at an annual rental of $25,000. This includes that part of the road in Connecticut extending from East Hartford to the Massachusetts State line, a distance of 21 miles. The remaining 7 miles to Springfield are under negotiation. The new road will be opened to travel by about the middle of December, and will give to the Valley road 79 miles, from tide water at Saybrook to Springfield, where there are important connections opening up large freighting facilities.

☞ The first regular train over the New York and Canada Railroad from Montreal arrived at Whitehall on the 29th ult., making the run in eight hours. The road is now open for traffic.

HUDSON RIVER

CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER

CEMENT COMPANY.

MANUFACTURERS OF HIGH FALLS

ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.

W. G. JAMES, Treasurer.

41 Dey Street, New York.

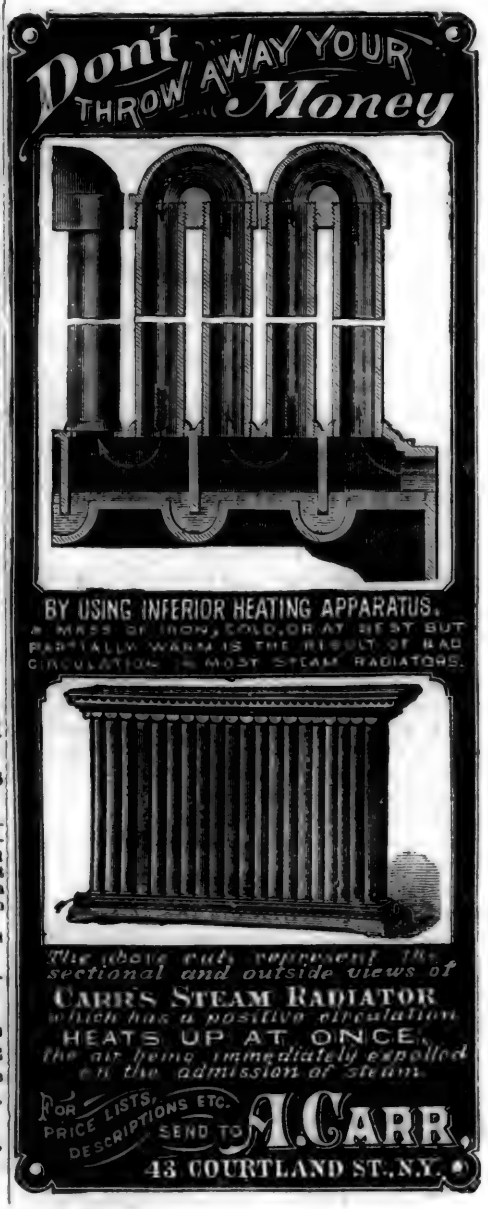
LAWRENCEVILLE

CEMENT COMPANY.

ROSENDALE

HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.



This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

Chesapeake and Ohio Railroad.

In the United States Circuit Court of Richmond, Va., on the 27th ult., Hon. Wm. M. Evarts, of New York, counsel for the Chesapeake and Ohio Railroad Co., made a motion for the dismissal of proceedings, appointing a receiver for the road, and looking to an early sale of the same. He contended that the jurisdiction in the matter belonged to the State and not to federal courts. He cited numerous decisions of the United States Supreme Court bearing on the question to establish possession. Judge Thompson, of New York, counsel for the plaintiff, stated that after examining authorities he was satisfied that this court had no jurisdiction. Judge Bond after stating that the court was not ready to hear such motion by request of counsel fixed the 20th of December as the time, and Alexandria as the place for the next hearing of the case. It is expected that the effect of this will be that Mr. Henry Tyson, of Baltimore, the receiver appointed by Judge Bond, will still hold on until the 20th of December, and that the old officers of the road will take charge again, and the old management will be reinstated until such time as the creditors may choose to proceed in the State courts. The trustees in two of the mortgages reside in New York, and from the interests they represent they must be defendants. Therefore no argument can be made which will give the United States courts jurisdiction, and the result must be the dismissal of the present proceedings. It is expected that Chief Justice Waite, by request of Mr. Evarts, will sit with Judge Bond at Alexandria, on the 20th of December, when a decision will be rendered on the above motion.

☞ The completion of the Emmittsburg Branch Railroad seven miles long, from Emmittsburg, Md., to Rocky Ridge station, on the Western Maryland railroad, was celebrated on the 27th ult. by an excursion to Baltimore.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

The Erie's Guarantee of Bonds.

On the 30th ult. the General Term of the Supreme Court at Albany handed nown a decision involving the validity of the guarantee of the Erie Railway Company of the bonds of the Boston, Hartford and Erie Railroad Company, issued in March 1865. A series of 20,000 of these bonds, for $1,000 each, payable on Jan. 1, 1900, with interest at the rate of seven per cent. per annum, was issued by the company; and on October 8, 1867, the Erie Railway Company, by Horatio N. Otis, its Secretary, guaranteed the payment of the interest on the bonds. In January, 1870, Mr. John Arnot, a holder of 320 of the bonds in question, presented the interest warrants of his bonds, falling due upon that day, at the office of the Boston, Hartford, and Erie Company in New York, where they were payable, and demanded payment, which was refused. He afterward presented his interest warrants for the bonds, maturing half yearly, on the proper days during the years 1870, 1871, 1872, and on Jan. 1, 1873, and was also refused payment. He then brought suit against the Erie Railway Company in the following February, in the Supreme Court, in Chemung County, for the recovery of the amount of interest due, together with interest due on the unpaid amounts of interest from the time they fell due, respectively. In 1874 decision and judgment were entered in favor of the plaintiff, who having died during the prosecution of the suit was represented by his executrix, Harriet Arnot, in the sum of $96,693 69, damages and costs. In August 1874, the Erie Railway Company appealed to the General Term of the Supreme Court from the above, and on the 30th ult. judgment was affirmed upon the opinion of Judge James. The plaintiff was represented by Hon. John Murdoch, of Elmira, and the defendant by Messrs. Barlow, Shipman, Larocque, and MacFarland, of this City. The case was argued at the Schenectady General Term.

Cincinnati 7 3-10 Bonds.

Messrs. Kuhn, Loeb & Co., who marketed the 7 3-10 bonds of the City of Cincinnati have issued a circular so the bondholders in relation to a recent decision of the Supreme Court of Ohio, from which we quote:

"These bonds were not issued, as many supposed, in aid of any railroad enterprise, but are city bonds, for the construction of an improvement owned by the city, and the decision of the Supreme Court of Ohio just made, is that no special tax levy for the payment of the interest on them need be made, but that the general tax levy must include the amount necessary for the payment of interest on all bonds, including these, alike; the court thus reaffirming the validity of the bonds in question, placing them on an entirely equal footing with the other bonded indebtedness of the city."

Pittsburg and Northwestern Railroad.

The Pittsburg Chronicle says that the restrictions imposed by the Allegheny City Councils upon the new outlet to the West, has resulted in the securing, by the Pittsburg and Northwestern Railroad management, of a route which makes it altogether independent of Allegheny and her rulers, and then adds:

Last week the purchase of the Evergreen Hamlet Narrow Gauge Railroad was effected. This road is in operation for three miles up Girty's Run. Three miles more up this run its route would intersect that of the Pittsburg and Northwestern at Goode's Summit, where work on the latter road has been begun by contractor Weiss. The securing of this route gives the purchasers a route to this city two miles shorter than that selected via Bellevue, Woods Run, &c., and saves the sum of $75,000 or $100,000 in grading, bridging and trestlework. At all events, the purchase has been made, we are assured, by those fully competent to know.

Alabama State Debt.

The commissioners appointed to adjust and liquidate the debt of the State of Alabama have adopted a plan, which they have submitted by circular to the creditors of the State, inviting an early response. The proposition is the issue of a new thirty years' currency bond, principal and interest payable in New York, as follows: For the first five years at the rate of two per cent. per annum; for the next succeeding five years at the rate of three per cent. per annum; for the next succeeding ten years at the rate of four per cent. per annum, and for the remaining ten years at the rate of five per cent. per annum, the new bonds to be exchanged for the old bonds at their face, all past due coupons and such as will mature on or before the 1st of July, 1876, to be surrendered with the bond to which they belong, without being computed as part of the amount to be exchanged for new bonds. All coupons must be surrendered. There are now in circulation $1,000,000 of State obligations.

Hannibal and St. Joseph Railroad.

In the United States Court at Topeka, Kansas, on the 5th inst., a bill on the part of certain stockholders of the Hannibal and St. Joseph Railroad Company, asking for an injunction to restrain collecting along the line of said road, and from levying upon, seizing and selling personal property to pay taxes assessed against property of the company, and also to enjoin certain counties from prosecuting certain suits in the State courts of Missouri for the collection of taxes, was argued before Judge Dillon by James Cun, attorney for the stockholders, and by Attorney General Hockaday, of Missouri, for the State and counties.

The case involves over $500,000.

The Judge took the matter under advisement till January next, and requested the State Auditor and Attorney General to instruct collectors not to levy or make any seizures of property until he has time to consider the case and deliver his opinion, which they agreed to do.

Narrow Gauge Railroad in Tennessee.

A new narrow gauge railroad has been projected, which is to extend from Pulaski, seventy five miles south of Nashville, in Tennessee, to Memphis, and the people living along the proposed line are subscribing so liberally for the work that no doubt is entertained in regard to raising the money for the undertaking. The distance between the two points named is 190 miles, and the estimated cost of the road $1,900,000. At Henderson station, on the Mobile and Ohio Railroad, eighty six miles from Memphis, an arm is to be thrown out to the Tennessee River, in the direction of Nashville. A portion of the road has been graded, and the managers of the enterprise expect to have the whole line under contract next year. This will afford railroad communication to an extensive country, portions of which are rich in mineral resources that only require facilities for cheap transportation to insure their development.

Cincinnati, Sandusky and Cleveland R. R.

The earnings of this road for the years ending June 30, 1874 and 1875, were:

Rental of Columbus, Springfield and Cincinnati Railroad	80,000 00	
		274,692 00
Balance, surplus for the year		$21,227 98

Compared with the previous year the gross earnings show an increase of $57,344 80, with an increase in expenses of $28,595 85—making an increase in net earnings of $28,748 45, being a gain of something over seven per cent on the gross and ten per cent on the net earnings of that year. The President in his report says:

This result, although not equal to the expectations formed at the commencement of the year, is nevertheless very gratifying, in view of the extreme depression that has existed in the general business of the country all through the year, and the favorable showing of our business and earnings when compared with those of other western roads, and as demonstrating the capacity and ability of the road to do an enlarged business, with profit (as we trust) to the stockholders, as soon as the improved business of the country, and the returning good sense of the managers of the great East and West lines of railway will admit a return to reasonably enhanced rates of freight.

At the time of the date of our last annual report, the opinion was confidently expressed by the leading business men of the country, that the worst effects of the financial crisis of September and October, 1873, had been realized, and that a steady improvement in the business and industries of the nation might safely be relied upon to take place at a very early day. Such, however, has not proved to be the fact, nor has the experience of the past year, in any sense, justified the prediction. Certain it is, that never in the history of railroads, have they ever experienced so disastrous a year for business as the one just passed. It is now freely conceded, on every hand, that altogether too superficial a view of the "situation" was taken at that time, and that a much longer period will be required to restore and place business again in a healthy position.

The accompanying tables show that our road has transported during the year, 204,620 tons of way, and 187,744 tons of through freight, a total of 392,264 tons, as against a total of 321,346 tons the previous year, being a gain of 70,918 tons, or 22 per cent in the volume of our freight business.

Had not the rates of freight been so ruinously low, for reasons already adverted to in this, this large increase in the volume of freight would have added materially to our net earnings; even as it is, this large increase is a good basis for hope in the future of the road, when the general business of the country revives.

We have purchased and laid, during the year, 211 tons of steel, and 704 tons of iron rails, and 57,000 ties, and have on hand 4,000 ties and 300 tons of old rails; we have also purchased during the year three new locomotives, and have had built for us two first-class parlor cars—these last specially intended to accommodate the summer pleasure travel between Cincinnati and the islands of "Put-in-Bay," Lake Erie. The road bed, superstructure, and equipment are all now in good order and condition for business.

The burning of our round house at Springfield caused us a good deal of inconvenience for a while, until rebuilt; with the exception of this, and the loss of the locomotives and tenders therein, and the explosion of a locomotive boiler near Sandusky, the road has been remarkably exempt from casualty during the year.

The company have 32 locomotives: 6 burning wood, and 26 burning coal. The mileage of locomotives is as follows: passenger trains, 332,271; freight trains, 481,074; construction and wood trains, 34,671—total, 848,016. Coal burners have run 498,315 miles. Wood burners have run 349,701 miles. The number and classification of cars is as follows: 17 passenger, 2 parlor, 4 smoking and 3 sleeping coaches, 1 baggage and passenger, 2 mail, 2 drovers', 10 baggage, 333 box, 66 stock, 164 flat, 337 coal, and 56 hand and push cars. During the year 2.2 miles of main track have been laid with steel and 7.5 miles with iron rails.

The number of passengers carried over the road during the year was 304,992. Mileage of do., 7,721,502.

Transportation Convention.

The call for the third annual convention of the American Board of Transportation and Commerce (formerly the Cheap Transportation Association,) to take place at Chicago on the 15th inst., says:

Within a few years steam and electricity have greatly extended the boundaries of commerce, and the question of transportation has become all important. The producer, the manufacturer, the merchant, and the consumer are all interested to a greater extent than is generally realized. How important, then, that our transportation system should be thoroughly understood and equitably adjusted. The bringing together of trained minds from every department of commerce and agriculture for the consideration of this great question cannot but result in good. Indeed, the previous conventions which have been held, although considering the question in its preliminary stages, and necessarily in a crude and elementary manner, have inaugurated a work which in its educational features alone is of inestimable value. As it is a subject which particularly interests the producing, commercial, and consuming classes, it is hoped that all organizations representing those interests will be fully represented, and also that each State will send an official representative.

Erie Railway Suits in England.

Application was recently made to Judge Donohue in Supreme Court, Chambers, by Mr. Hugh J. Jewett, receiver of the Erie Railway Company, for an order directing him to transmit $10,000 to England to enable proceedings to be instituted upon claims in which the company is interested. It was set forth in the application that the majority of the bonds under the mortgage of the Erie Railway now being foreclosed are held in Great Britain; that an association has been formed of the bondholders under these mortgages and of unsecured bondholders in England; that he has been already authorized to recognize them and to pay a moderate amount toward the association's expenses; and further, that that association is now pressing on him to make efforts to collect two claims, one against James McHenry and the other against the London Banking Asso-

ciation, both exceeding $1,000,000. It was asked that the $10,000 be transmitted to John Morris, to enable him to commence proceedings on the two claims referred to. The order asked for was promptly granted by Judge Donohue.

Memphis City Bonds.

In the case of the bondholders vs. the City of Memphis, the Supreme Court of Tennessee has decided that $1,000,000 of the bonds issued by Mayor Leftwick in 1868 were legal, but the excess of $135,000 were illegal, as he was only authorized to issue $1,000,000; secondly, that though the bonds had been sold at a greater discount than 6 per cent, the transaction was neither illegal nor usurious, and the city can neither plead usury nor scale the bonds; thirdly, that the city is compelled to levy taxes necessary to pay interest on the bonds issued prior to 1875, notwithstanding the new charter limits the amount to be levied.

Totals	$64,623,512 00	$1,615,587 80

Interest paid by United States, $28,202,807 70; interest repaid by transportation of mails, &c., $6,575,854 15; balance of interest paid by United States, $21,626,963 55.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, November 30, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Union Pacific Railroad.

The decision of the United States Supreme Court in the case of the Union Pacific Railroad Company against the United States was delivered on the 29th ult. by Associate Justice Davis, as follows:

This is an appeal from the Court of Claims. The Union Pacific Railroad Company, conceding the right of the Government to retain one-half of the compensation due it for the transportation of the mails and military and Indian supplies, and to apply the same to reimburse the Government for interest paid by it on the bonds issued to the corporation to aid in the construction of a railroad and telegraph line, seeks to establish by this suit its right to the other moiety. The United States, on the other hand, having paid interest on these bonds in excess of the sums credited to the company for services rendered by it, insists on its right to withhold payment altogether. The ground on which the right of retention is sought to be maintained is the general right of set-off. It is true this right, as a general principle, exists in the Government, and is commonly exercised by it when settling with those having claims against it. But manifestly the rules applicable to ordinary claims for services rendered to the United States do not apply to this controversy. The bonds in question were issued by the United States in pursuance of a scheme to aid in the construction of a great national highway. In themselves, they do not impute any obligation on the part of the corporation to pay them; and whether, when the United States has paid interest on them, an obligation arises on the part of the corporation to refund it, depends wholly on the condition on which the bonds were delivered to the corporation and received by it. These conditions are embodied in the legislation of Congress on the subject, and if on a fair interpretation of this legislation the corporation is found to be now debtor to the United States the deduction of interest paid on bonds can be lawfully made; but if the converse proposition is ascertained to be true, the Government cannot rightfully withhold from the corporation half of its earnings. In construing an act of Congress we are not at liberty to recur to the views of individual members in debate, nor the consideration of the motives which influenced them to vote for or against its passage. The act itself speaks the will of Congress, and this is to be ascertained from the language used. But courts may, with propriety, in construing a statute, recur to the incidents of the time when it was passed, and this is frequently necessary in order to ascertain the reason as well as the meaning of particular provisions in it. Many of the provisions in the original act of 1862 are outside of the usual course of legislative action concerning grants to railroads, and cannot properly be construed without reference to the circumstances which surrounded Congress when the act was passed.

The war of the rebellion was in progress, and the country had become alarmed for the safety of the Pacific States, owing to complications with England. In case these complications resulted in open rupture, the loss of our Pacific possessions was feared. But even if this fear was groundless, it was quite apparent that we were quite unable to furnish that degree of protection to the people inhabiting them which every Government owes to its citizens. It is true the threatened danger was happily averted, but there still remained the necessity of making suitable provision for the future, which could be done in no better way than by the construction of a railroad across the continent. Such a road would bind together the widely separated parts of our common country, and furnish a cheap and expeditious mode of transportation for troops and supplies, and if it did nothing more than afford the requisite protection to the Pacific States it was felt that the Government, in the execution of its plain duty, could not justly ignore the necessity of building this road. So strong and pervading was this opinion that it was by no means certain that the people would not have sanctioned the action by Congress if it had departed from the traditional policy of the country regarding works of internal improvement, and had charged the Government itself with the direct execution of the enterprise. This enterprise was viewed as a national undertaking for national purposes, and the public mind was directed to the end to be accomplished, rather than to the particular means employed for the purpose.

Although this road was a military necessity, there were other reasons, active at the time, in favor of its completion, besides the protection of an exposed frontier. There was a vast unpopulated territory, lying between the Missouri and the Sacramento Rivers, which was practically worthless without the facilities afforded by a railroad for the transportation of persons and property. With its construction the agricultural and mineral resources of the territory could be developed, settlements made where settlements were possible, and

thereby the wealth and power of the United States essentially increased. There was also a pressing need, in time of peace even, for an improved and cheaper method of transportation of the mails and supplies for the Army and Indians. It was in the presence of these facts that Congress undertook to deal with the subject of this railway. The difficulties in the way of building it were great, and were by many intelligent persons considered insurmountable, although a free people, when it resolves on a course of action, can accomplish great results. The scheme of building a railroad 2,000 miles in length over deserts, across mountains, and through a country inhabited by Indians jealous of intrusion on their rights, was universally esteemed at the time to be a bold and hazardous undertaking. It is nothing to the purpose to say that the difficulties in the way of the undertaking disappeared in a great measure after trial, and that the road was constructed at less cost of time and money than was considered possible. No argument can be drawn from wisdom which comes after the fact. Congress acted with reference to a state of things supposed to exist at the time, and no idea can be derived in the construction of legislation from the consideration that the theory on which it proceeded turned out not to be correct. The project for building the road was not conceived for private ends, and the prevalent opinion was that it could not be worked out by private capital alone. It was a national work, originating in a national necessity and requiring national assistance. The policy of the Government, to say nothing of the supposed want of power, stood in the way of the United States taking the work into its own hands. Even if that was not so, reasons of economy suggested that it was better to enlist private capital and individual enterprise. This Congress undertook to do, and it was believed that the inducements held out were such as would secure the necessary capital and enterprise; but the purpose was to promote the operation of the work, which was deemed essential to the security of great public interests. It is true the scheme contemplated profit to individuals; for without a reasonable expectation of that, capital could not be obtained, nor the requisite skill and enterprise. But this consideration does not in itself change the relation of the parties to this suit. This might have been so if the Government had incorporated a company to advance private interests, and had agreed to aid it on account of supposed incidental advantages, which would accrue to the public from the completion of the enterprise; but the Government proceeded on a wholly different theory; it sustained the enterprise to advance its own interests, and it endeavored to enlist private capital as a means to the end of securing the building of a road which was to be used for Governmental purposes.

Whatever obligation, therefore, rested on our company must depend upon the true meaning of the enactment itself viewed in the light of contemporaneous history. It has been observed by this court that the title of an act, especially in Congressional legislation, furnishes little aid in the construction of it, because the body of an act in so many cases has no reference to the matter specified in the title. This is true, and we have no disposition to depart from that rule. But the title even in the original act of 1862, incorporating the company, seems to have been a subject of especial consideration by Congress, and in terms declares the general purposes of the act. It is "an act to aid in the construction of a railroad and telegraph line from the Missouri River to the Pacific ocean; and to secure to the Government the use of the same for postal, military and other purposes." That there should, however, be no doubt of the national character of the work which Congress proposed to aid, the body of the act contains the expression that its object is to promote the public interests and welfare, and to secure to the Government at all times, but particularly in time of war, the use and benefit of the same for postal, military, and other purposes.

Indeed, the whole act contains unmistakable evidence that if Congress was put to the necessity of accomplishing this great public enterprise through the instrumentality of private corporations, it took care that there should be no misunderstanding either as to the objects to be accomplished or as to the motives which influenced its course in the matter. If this bill had been equally explicit in relation to the bonds, there would have been no occasion for this suit. But even in that particular, looking at the motives which led to the act, we do not think there is any serious difficulty in getting at the true meaning of Congress. The act itself was an experiment, and should be considered in the nature of a proposal for inducing men to engage in the work, for there was no certainty that the capital, with the untried obstacles in the way, could be enlisted. If enlisted at all, it could be only on conditions which would insure, in case of success, remuneration proportioned to the risk incurred. It proffered that inducement in the way of lands and interest-bearing bonds of the United States. There is no controversy about the terms on which the lands were granted, and the only point on which there is any, relates to the nature and extent of the obligations imposed on the company to pay these bonds. It is not doubted the Government is to be reimbursed, both principal and interest, but the precise question for decision is whether the company is required to pay the interest before the maturity of the principal. The solution of the question depends upon the meaning of the fifth and sixth sections of the original act of 1862, and of the sixth section of the amendatory act of 1864. The fifth section of the original act contains the undertaking on the part of the Government, and the sixth section defines the objects of the company, [quoting the fifth section.] The manifest purpose of the fifth section is to take a lien of the property of the company for the ultimate redemption of the bonds, principal and interest, but the way and time are left to further provisions. That the Government was expected in the first instance to pay the interest is clear enough, for the mortgage was taken to secure the repayment of the loans, together with all the interest thereon paid by the United States, and this phrase implies a prior payment by the United States, whatever might be the duty of the corporation in regard to its repayment.

Besides this, when repayment is spoken of, it is understood that something advanced by the United States is to be paid back.

Apart from that, had it been the intention of Congress that the corporation itself should pay interest on the bonds as it fell due, phraseology appropriate to such a purpose would have been used; but when and how the reimbursement was to be made was to be in conformity with the terms prescribed in another portion of the act. In the latter part of the fifth section, the Secretary of the Treasury is empowered to declare a forfeiture and to take possession of the road on the failure of the corporation to redeem said bonds. The obligations imposed on the company, as assumed by it in reference to the repayment of the bonds, are set forth entire in the sixth section, (quoting it at length.) Leaving out of consideration the parts of the section which do not pertain to the present inquiry, there are three things, and three only, which the corporation is required to do concerning the bonds in controversy: First, to pay said bonds at maturity; second, to allow the Government to retain the compensation due to the corporation for services rendered, and to apply the same to the payment of the bonds and interest; and third, to pay over to the Government after the road has been completed five per cent. of the net earnings of the road, to be applied to the payment of bonds and interest.

If we take the language used in its natural and obvious sense there can be no difficulty in arriving at the meaning of the condition "to pay said bonds at maturity." As commonly understood, the word "maturity," in its application to bonds and other similar instruments, applies to the time fixed for payment, which is the termination of the time they have to run. The bonds in question were bonds of the United States. This obligation the Government was requested to perform, and as the bonds were issued and delivered the corporation to be sold for the purpose of raising money to carry on the work, it is insisted that Congress must have intended to impose a corresponding obligation on the corporation.

In support of that construction it is sought to give to the word "maturity" a double signification, applying it to each payment of interest as it falls due, as well as to the principal; but this is extending the application of the word beyond its natural and obvious meaning, and it is contrary to all legal rules. Courts cannot supply deficiencies in legislation, nor afford relief because deficiencies are supposed. (On this point Justice Davis quotes from Lord Chief Baron Ireland, to the effect that, as a general rule, respecting interpretation of deeds, all latitude of construction must be restricted merely to the interpretation of the words, and that, if courts step beyond that, they no longer construe men's deeds, but make deeds for them.) This rule is as applicable to the language of a statute as it is to the language of a deed. The phrase "to pay bonds at maturity," does not bear the sense sought to be attributed to it. It applies obviously to the obligation to pay both principal and interest, but it does not imply the obligation to pay the interests as they accrue, and the principal when due. It is one thing to be required to pay principal and interest when the bonds attain maturity, and it is quite another thing to pay the interest every six months, and the principal at the end of thirty years. The obligations are so different that they could not both grow directly out of the words employed, and it is necessary to superadd other words in order to extend the condition so as to include the payment of semi annual interest as it falls due. Neither in principle nor in form is such a plain departure from the express letter of the statute warranted, and especially so when the construction leads to so great an extension of the conditions as would defeat the grant. The failure to perform the conditions is declared a forfeiture, and if the natural meaning is adopted for the phrase "maturity," there can be no forfeiture until the bonds themselves mature. On the contrary, if the construction sought for on the part of the United States be allowed, it subjects the company to forfeiture on every occasion when six months' interest falls due and is not paid. Besides this, when Congress imposed those conditions it well knew that the undertaking of the Government bound it to pay to the holder of any bond the interest every six months, and the principal at the time the bond matured. With that knowledge, dealing as it did with the relations which the company must bear to the Government, if it had intended to exact from the company the payment of the interest before the maturity of the bonds, Congress would have declared its purpose in language, about which there could be no misunderstanding, but, if the words "to pay said bonds at maturity" did not give notice that that exaction was intended, neither do the other pro-

visions of the sixth section. They create no obligations to keep down the interest, nor were they so intended. The right to retain the amount due to the company for services rendered, and to apply it to toward the indebtedness of the company cannot be construed into a requirement that the company was to pay the interest from time to time, and the principal when due. It was within the discretion of Congress to make this requirement, and then, as collateral, provide a special fund or funds out of which the principal of the obligations could be discharged. But Congress did not choose to do it, but remained satisfied with the property of the company for the ultimate payment. The company, for obvious reasons, might be very willing to accept the bonds of the Government on these terms and might be very unwilling to come under absolute promise to pay the current interest as it accrued. If the company was obliged to raise money every six months to pay interest when all its available means were necessary for the prosecution of the work, the burden might be very heavy. Congress did not see fit to impose this burden and to put the company in a position to risk the forfeiture of all its grants. Besides it is fair to infer that Congress supposed that the service to be rendered by the road to the Government would equal the interest to be paid, and that this was not an unreasonable expectation the published statistics of the vast cost of transporting military and naval stores to the Pacific by the ancient method abundantly shows. Local business as a source of profit could not be expected, and whether, when considered as an investment, it would prove valuable, was a question for time to determine. But vast as the work was, the growing wants of the country, as well as the existing military necessity of the Government, demanded that it should be completed. Under the stimulus of these considerations Congress acted. It did not act for the benefit of private persons, but for an object deemed essential to the security, as well as to the prosperity, of the country, compelled as it was to incorporate a private company to accomplish the object. It proffered the terms on which it would lend its aid, which, if deemed too liberal now, were then considered, with the lights before it, not too liberal for the purpose of engaging the attention of enterprising men, who, if not themselves capitalists, were in a position to command the use of capital. These terms looked to ultimate security rather than to immediate reimbursement, and for the obvious reason that the corporation would require all its available means for construction, and that to exact an obligation to keep down the interest would tend to cripple the enterprise at a time when the primary object of Congress was to advance it. In addition to all that has been said, there is enough in the scheme of the act and in the purpose contemplated by it to show that Congress never intended to impose on the company the obligation to pay current interest.

The act was passed in the midst of war, when the public mind was alive to the necessity of binding the Pacific States to those of the Atlantic. Confessedly the undertaking was outside of the ability of private capital, and only by the helping hand of Congress could the problem, difficult of solution under the most favorable circumstances, be worked out. Notwithstanding the favorable terms offered, the road languished, and the effect of that was the amendatory act of 1864. By that the grant of land was doubled, the Government lien was made a second instead of a first mortgage, and a provision was inserted that only one half of the amount due by the Government for transportation should be required to be applied to the payment of the bonds issued by the Government in aid of the construction of the road. This amendment was without doubt intended merely to modify the provisions of the original act so as to allow the Government to retain only one half of the compensation due for services rendered, instead of all of it, though the provision is that the compensation shall be applied to the payment of bonds, while in the former act it applies it to bonds and interest. Yet it cannot be supposed that Congress intended to relinquish the right of the Government in the former act. The change was a very material one and intended as a favor, but on the principle contended for in behalf of the Government, it would be of no value Of what possible advantage could it be to this company to receive payment of one half of the compensation due to it for services to the Government, if it were subjected to a suit to recover it back as soon as it was paid; and yet this is the effect of the provision, on the theory that the company was debtor to the Government on every semi-annual payment. In view of the circumstances under which the act of 1862 was passed and of the purpose to be accomplished by it, appearing as they do in the title as well as in the body of the act, and constituting as they do the public history of this legislation, this question seems to present fairly in its scope and effect views that are inconsistant with the position asserted by the appellants. If the Government consents to the diminution of its security, so that this half of the earnings should be applied to the payment of the bonds, what is to become of the other half? There is no implication that the Government is to retain it, and if not, who is to get it? It is very clear that the Congress of 1864 did not suppose that, in making this concession, it would be barren of results. But it is unnecessary to pursue the subject further. The practice of the Government, for a series of years, was in conformity with the views we have taken, until the Secretary of the Treasury arrested the payment of the money and directed it to be withheld.

This action of the Secretary brought the subject to the attention of Congress, and the act of March 3, 1871, was passed, directing that one half of the money due to the Pacific roads for services rendered, either heretofore or hereafter, be paid, leaving out of the question the ultimate rate, for legal decision. After that another act was passed by virtue of which this suit was instituted by the appellants in the Court of Claims. It is contended that the purpose of that act is to replace the present charter of the Union Pacific Railroad Company concerning the provisions we have discussed, but manifestly the purpose was very different. It authorized suit to be brought, and in such suit the rights of the company are to be determined, and also the rights of the United States. This means nothing more nor less than the remission to the judicial tribunals of the country of the question whether this company, and others similarly instanced, have the right to recover from the Government half of what they earned by transportation, which question is to be determined on its merits. The merits of such a question are necessarily determined when the effect of the charter is determined. It is hardly necessary to say that it would be idle to authorize suit to be brought if it was the intention of Congress to repeal the provisions on which the suit could alone be probated. We cannot go into an argument on the consequences which follow our decision. Consequences are not an argument to be considered in the determination of questions. Whether an act of incorporation is less beneficial to the Government than was supposed, or whether an act of Congress is more or less politic and wise, it is not our province to determine when we have declared the meaning of it. If there be no power to pass it, our duty in connection with it is ended.

The judgment of the Court of Claims is affirmed.

☞ Articles of association of the Brazil, Worthington and Bloomfield Railway Company have been filed at Indianapolis. The length of the contemplated line of road is 45 miles; capital stock, $1,000,000. The company propose to construct a narrow gauge coal road from Indianapolis to the Clay County coal fields.

☞ In eight months from the present time it is stated Los Angeles will be connected by rail with San Francisco.

The Coal Trade.

The anthracite coal trade for the week ending on the 27th ult., from all sources, is stated by the Philadelphia *Ledger* at 591,566 tons, and for the year at 22,605,768 tons, against 22,380,250 tons to corresponding date last year, a increase of 225,518 tons. The bituminous tonnage for the week was 90 083 tons, and for the year 8,621,-020 tons, making a total of all kinds for the week of 681,619 tons, and for the year 26,226,-788 tons, against 25,762,221 to corresponding date last year, an increase of 464,567 tons. At Port Richmond for the week ending the 4th instant there were receipts of 60,500 tons of coal and shipments of 45,500 tons, leaving 178,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 102,386 tons, and for the year 3,961,413 tons, of which 3,247,827 was coal and 626,392 coke. This embraces all the coal carried both east and west. The receipts of coal at Perth Amboy for the week ending on the 29th ultimo were 17,476 tons; total received during the season, 335,654 tons; shipments for the week, 11,-086 tons; total shipments for the season, 293,-168 tons; leaving on hand 46,966 tons.

☞ At a consultation of the municipal authorities of Providence, R. I., on the 3d inst. concerning the payment of the Hartford, Providence and Fishkill Railroad bonds secured by mortgage, it appeared that two parties claimed the right to pay the bonds and redeem the mortgage, namely, the New York and New England Railroad Company and the old stockholders of the Hartford, Providence and Fishkill Railroad, who deny the validity of the transfer of the road to the New England Co. No decision was reached. The feeling there is averse to the surrender of the mortgage until the title is judicially settled.

☞ Messrs. Shanly and Plunkett, of Montreal, Ca., have made arrangements with the Directors of the Western Counties Railway of Nova Scotia, (whose line connects Yarmouth with Annapolis) for the completion of this road, which will bring Halifax in communication with other parts of the Province. The contractors have taken hold of the work vigorously, and intend to complete the line as early as possible.

☞ Mr. N. G. White, President of the Boston and Maine Railroad Company, has filed at the office of the Secretary of State of Massachusetts, a petition asking for the passage of an act authorizing the Boston and Maine Railroad Company to purchase the railroad and franchise of the Danvers Railroad Company, and also of the Newburyport Railroad Company.

☞ A certificate of incorporation of the Railway Speed Recording Company, of Kent, capital stock $250,000, in shares of $100 each, by J. B. Miller and others, was filed on the 29th ult. with the Secretary of State of Ohio.

☞ Contractors have commenced work all along the line of the Springfield, Jackson, and Pomeroy Railroad from Waverly to Jackson, Ohio, a distance of twenty four miles.

☞ The extension of the James River and Kanawha canal to Clifton Forge is urged by the Governor of Virginia in his recent message.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, December 11, 1875.

Financial and Commercial Affairs.

The increased activity at the Stock and Gold Boards, and the preparations in progress for the January interest and dividend disbursements, served to strengthen the Money market, and to stimulate the demand for accommodation, especially in a temporary form. Call loans have been as high as the full legal rate of 7 per cent; but the bulk of the business has been within the range of 3½@5 per cent per annum. Toward the close, the course of loan and discount rates was more favorable for the leading borrowers, whose wants were less urgent. The best mercantile credits were quoted at from 5½@7 per cent per annum. The inquiry from commercial sources has been comparatively moderate and been met with promptness, in most instances, at the ruling figures. The City Bank averages show a general decrease—the deposits having fallen off $5,145,100; legal tender reserve, $1,858,700; and specie, $1,105,000. The local and discount item was reduced $903,700. The circulation was enlarged $288,500. The decrease in the specie average was due to the Syndicate payments in settlement of the call of Dec. 1, and the customs drain. The U. S. Sub Treasury disbursements at this point were in excess of the receipts of the office, and the cash balances at the close of the week indicated a reduction, most important in the currency reserve, which was cut down $2,812,659. The customs yielded about a quarter of a million a day, or $1,558,000 for the week. The U. S. Sub Treasury in this city closed the week with

a currency balance of $41,188,949 against $43,496,608, the preceding week; and a coin board of $42 524,780 against $42,546,225, on the previous return. The City bank exchanges in currency reached $460,564,564, or a daily average of $76,760,761. The customs revenue of the port, during the week, was $1,558,000. The City banks reported their average of gold last week at $15,157,500, and their greenback average, at $45,680,200. Their deposits stood at $210,663,800. The loan item was $271,006,500. The circulation was $18,750,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $8,174,875.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $415,361,899. The outstanding amount of legal tender notes is $372,471, 72. The National bank circulation is now $345.166,596, including $2,191,850 of national gold bank notes.

The specie shipments from San Francisco, January 1, to November 25, were $41,511,953, against $27,802,780 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,927,922; special deposit of legal tenders for the redemption of certificates of deposit, $43,460,000; Coin, $58,583,930; Coin certificates $21,121,900.

The week's import entries of Foreign Merchandise at New York were $8,447,126, including $1,446,661 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 51 millions; and from Customs, 71 millions.

Gold has been less active, and though opening buoyantly, it closed much weaker, under a less confident speculative movement, a smaller drain for customs, and a reduced export business. The extremes of the price during the week have been 118⅜@115¼, closing on Wednesday at 114¼ as against 115¼, on Wednesday of the preceding week. The specie outflow last week was only $351,696 against $706,564 the previous week. The imports of specie at this port last week were $808.230 (of which were $457,040 in silver coin from Vera Cruz, and $332,000 in gold coin from Havana) and since Jan. 1, have been $12,259,464, against $5,998,691 same time last year. The customs demand for gold last week averaged $259,667 per day. Foreign Exchange has been in rather better request and held with more firmness toward the close. Bankers' sixty day bills on London closed on Wednesday at $4 83⅛@$4 84; sight bills on London at $4 87⅛@$4 88 to the £ stering. The week's exports of Domestic Produce have been to the currency value of $5,166,801. The week's imports of Dry Goods and general merchandise were to the specie value of $8,447,126, as against $5,517,736 the corresponding week of last year.

Government Securities have been less freely dealt in, and have been quoted a shade easier in price; influenced in part by the decline of 1 per cent in Gold. The offerings, however, of most issues have been on a restricted scale at the ruling figures. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $365,631,412.

U. S sixes of 1881 closed on Wednesday of this week at 123⅝@123⅞; U. S. Five-Twenties of 1864, at 114¾@115; U. S. Five-Twenties of 865, 115¾@116; U. S. Five-Twenties of 1865, consolidated, 120¼@120½; U. S. Five-Twenties of 1867, 122⅜@122⅝; U. S. Five-Twenties of 1868, 122⅜@122⅝; U. S. Ten-forties at 117¾@118; U. S. Fives of 1881, (Funding Loan) 117¼@117½; Six per cent. currency Sixes, 122¼@122½.

State and Railway bonds have been in fair demand for investment purposes, at generally stronger prices, closing firmly. And in the line of Railway and Miscellaneous share property, business has been fairly active with values, however, quoted quite variable, closing more steadily, and rather buoyantly.

The last public debt statement indicated a further liquidation of $480,079 in November, bringing the aggregate indebtedness, less the cash in the Treasury, on Dec. 1, down to $2,117,717,133, as against $2,118,397,211 on the 1st of November 1875.

General business has shown more animation in the line of domestic produce, particularly in Flour, Wheat, Corn, Barley, Oats and Cotton, which closed more firmly, as a rule. The export purchases of Flour, Wheat and Cotton have been more liberal. Petroleum, Naval Stores, Provisions, Tobacco, Wool, Leather and Lumber have been moderately sought after at irregular prices. Hardware, Boots and Shoes, Dry Goods and Earthenware have been inactive at about late quotations for staple goods. Metals have been moderately dealt in, as a rule. American Pig Iron has shown most animation, but at low prices. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $15@$19; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails, $22 50@$23 50. Wrought Scrap, $30@$31. Ocean freights have been quite brisk at firmer rates, with room for Grain, Flour, Cotton, Provisions, Petroleum, and Tobacco in generally very good request. Accommodation for early use offered much less freely.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Railroad Companies Liable for Damages by Sparks from Locomotives.

The Supreme Court of Iowa recently rendered a decision which is of importance to railroad companies as well as to individuals. In 1873, Andrew Rodemacher, a farmer in Floyd County, owned a farm situated near the line of the Milwaukee and St. Paul Railway. From the sparks from the locomotive of a passenger train going West the grass along the track took fire. The flames spread across the prairie nearly a mile, and Rodemacher's fence was destroyed. He brought an action against the railroad company for damages, and obtained judgment in the court below for $125. The company appealed to the Supreme Court and set up the unconstitutionality of the law under which the action was brought, section 1,289 of the code of 1873, in that it impairs the contract existing between the State and corporation under which its charter is conferred. The Supreme Court, however, Judge Cole dissenting, affirmed the decision of the court below, holding the law under which suit was brought to be constitutional. All railroads are, therefore, liable for damages by sparks from locomotives in that State.

☞ At the annual meeting of the stockholders of the Providence and Springfield Railroad Company in Providence, R. I., on the 6th inst., the following gentlemen were elected directors for the ensuing year: William Tinkham, Albert L. Sayles, Edward Pearce, Amos N. Beckwith, Moses B. J. Goddard, Horace A. Kimball, James O. Inman, Sidney Dillon and John L. Ross. The road is 23 miles in length, extending from Providence to Pascoag. The income the past year was $87,952, and the operating expenses $42,886.

☞ The annual meeting of the stockholders of the Richmond and Petersburg Railroad Company was held in Richmond on the 30th ult. The gross receipts for the year ending September 30 were shown to have been $164,935 34, and the expenses $86,684 31, leaving a net income of $78,251 03; a net increase of $25,000 over last year.

☞ Mr. George MacLeod, an engineer of experience and a well known railroad man, has been appointed receiver of the Louisville, Cincinnati and Lexington Short Line Railroad, to succeed Mr. Samuel Gill, who is now suffering mental aberation caused by brain fever.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

☞ The shipments of Cumberland coal for the week ending November 27 amounted to 49,119 tons 15 cwt., an increase compared with the corresponding week of last year of 8,378 tons 19 cwt. For the year to that date 2,154,277 tons 9 cwt. were shipped, showing a decrease of 62,338 tons 4 cwt., compared with the like period of 1874. Of the shipments to above date 1,149,772 tons 6 cwt. were by Baltimore and Ohio Railroad; 858,934 tons 12 cwt. by Chesapeake and Ohio Canal, and 145,520 tons 11 cwt. by Pennsylvania Railroad.

☞ The town of Marlborough, N. H., has voted a gratuity of two per cent. of valuation, amounting to about ten thousand dollars, to the Manchester and Keene Railroad. The building of the road is under contract, and work will be immediately begun.

☞ The citizens of North Brookfield, Mass., at a town meeting recently held, voted to instruct the Selectmen to lease the North Brookfield Railroad to the Boston and Albany Railroad Company on the best possible terms, for a period of ten years.

☞ The Buffalo Express says that a corps of engineers have begun the work of surveying the proposed route of a railroad between Alton and Wilcox, which is destined to connect the Buffalo and Jamestown Railway with other lines in a

direct route to the Reynoldsville coal district. The new road referred to will be twenty and one half miles in length.

Finances of the United States.

EXTRACT FROM THE REPORT OF THE SECRETARY OF THE TREASURY.

The moneys received and covered into the Treasury by warrants during the fiscal year ending June 30, 1875, were as follows.

From Customs	$157,167,722 35
From internal revenue	110,007,493 58
From sales of public lands	1,413,640 17
From tax on circulation and deposits of national banks	7,268,379 16
From repayment of interest by Pacific Railway Companies	882,274 91
From customs' fines, penalties, &c	228,870 23
From labor, drayage, storage, &c	1,112,500 53
From sales of Indian trust lands	243,671 66
From fees—Consular, letters patent and land	1,818,884 29
From proceeds of sales of Government property	1,278,693 87
From Marine Hospital tax	338,898 78
From steam boat fee	260,944 75
From profits on coinage, &c	452 657 40
From tax on seal skins	317,494 75
From miscellaneous sources	1,228,649 98
Total ordinary receipts	$284 020,771 41
Premium on sales of coin	3,979,279 69
Total net receipts, exclusive of loans	$288,000,051 10
Balance in Treasury June 30,1874, including deposits of coin and United States notes represented by certificates outstanding	150,731,694 63
Total available cash	$438,731,745 73

The net expenditures by warrants during the same period were:

For civil expenses	$17,346,929 58
For foreign intercourse	1,265,418 23
For Indians	8,384,656 82
For pensions	29,456,216 22
For military establishment, including fortifications, river and harbor improvements and arsenals	41,120,645 98
For naval establishment including vessels, and machinery and improvements at navy yards	21,497,626 27
For miscellaneous, including public buildings, light houses, and collecting the revenues	50,528,536 22
For interest on the public debt, including interest on bonds issued to Pacific Railway Companies	103,093,544 57
For payment of award to British claimants	1,929,819 00
Total net expenditures	$274,623,392 84
Redemption of the public debt	19,405,936 48
Total net disbursements	$294,029,329 32
Balance in Treasury June 30, 1875	144,702,416 41
Total	$438,731,745 73
This statement shows that the net revenues for the fiscal year were	$288,000,051 10
And the ordinary expenses, (including the award to British claimants, $1,929,819)	274 623,392 84
Leaving a surplus revenue, exclusive of provision for the sinking fund	$13,376,658 26

By reference to the last annual report, page 6, it will be observed that the estimate then made was that the revenues for this fiscal year would reach the sum of $284,318,285 99, and that the expenditures would amount to $275,315,489 42.

RECEIPTS AND EXPENDITURES FOR THE FISCAL YEAR ENDING JUNE 30, 1876.

The receipts during the first quarter were:

From Customs	$44,233,626 25
From internal revenue	28,199,723 50
From sales of public lands	308,641 73
From tax on circulation, &c., of national banks	3,626,033 83
From repayment of interest by Pacific Railways	262 212 87
From Customs' fines, &c	18,521 75
From consular, patent, and other fees	510,427 19
From proceeds of sales of Government property	104,273 65
From miscellaneous sources	1,722,408 90
Net ordinary receipts	$78,995 869 67
Premiums on sales of coin	2,160,275 47
Total net ordinary receipts	$81,156,145 14
Balance in Treasury June 30, 1875	144,702,416 41
Total available	$225,858,561 55

The expenditures during the same period were:

For civil and miscellaneous expenses, including public buildings, light houses, and collecting the revenues	$18,673,072 68
For Indians	2 680,474 38
For pensions	8,845,927 64
For military establishment, including fortifications, river and harbor improvements, and arsenals	11,391,476 26
For naval establishment, including vessels and machinery and improvements at naval yards	7,959,087 99
For interest on the public debt, including Pacific Railway bonds	34,517,554 81
Total ordinary expenditures	$84 047 543 76
Redemption of the public debt	6,838,999 66
Balance in Treasury Sept. 30,1875	134,972,018 13
Total	$225 858,561 55

For the remaining three quarters it is estimated that the receipts will be:

From Customs	$112,000,000 00
From internal revenue	92,000,000 00
From sales of public lands	1,100,000 00
From tax on national banks	3,650,000 00
From reimbursement by Pacific Railways	350,000 00
From Customs' fines, penalties, and forfeitures	100,000 00
From consular, patent, and other fees	1,300,000 00
From proceeds of sales of public property	600,000 00
From miscellaneous sources, including premium on coin	5,200,000 00
Total net receipts	$216,300,000 00

For the same period it is estimated that the expenditures will be:

For civil miscellaneous, including public buildings	$49,500,000 00
For Indians	4 400,000 00
For pensions	21,000 000 00
For military establishment	30,000,000 00
For naval establishment	12,000,000 00
For interest on the public debt	67,500,000 00
Total ordinary expenditures	$184,400,000 00

From the foregoing statement of actual receipts and expenditures for the first quarter of the current fiscal year, and the estimates of the same for the remaining three quarters, based upon appropriations already made, and also on the assumption that Congress will not increase the expenditures by deficiency or other appropriations, it will be seen that, in the judgment of the department the revenue will reach the sum of $297,456,145 14, and that the ordinary expenditures will amount to $268,447,543 76. This exhibit gives a surplus revenue of $29,008,601 38. Under existing laws it is estimated that $32,293,692 32 will be required to be provided for the sinking fund for this year. If the statement, as here submitted, shall prove to be approximately correct, the revenues will fall short by the amount of $3,285,090 94 of providing for the appropriations made by Congress.

It is estimated that the receipts for the fiscal year ending June 30, 1877, will be:

From Customs	$165,000 000
From internal revenue	120 000,000
From sales of public lands	1,500,000
From tax on circulation of national banks	7,200,000
From reimbursement of interest by Pacific Railway Companies	500,000
From Customs' fines, penalties, and forfeitures	100,000
From consular, letters patent, and other fees	1,900,000
From proceeds of sales of Government property	800,000
From miscellaneous sources	7,000,000
Total ordinary receipts	$304,000,000

It is estimated that the ordinary expenditures for the same period will be:

For civil expenses	$17,500,000
For foreign intercourse	1,358,000
For Indians	7,000,000
For pensions	29,534,000
For military establishment, including fortifications, river and harbor improvements, and arsenals	40,000,000
For naval establishment, including vessels and machinery and improvements at navy-yards	21,000,000
For civil miscellaneous, including public buildings and light-houses, collecting revenues, mail steam-ship service, deficiency in postal revenues, public printing, etc	52,000,000
For interest on public debt	97,000,000
For interest on Pacific Railway bonds	3,878,000
Total estimated expenditures, exclusive of the sinking fund account and principal of the public debt	$269,265,000

It is expected that for this fiscal year the surplus revenues of the Government will amount to $34,735,000. The estimated amount to be provided for the sinking fund is $34,063,377 40. There is reason to hope, therefore, that the income of the Government for this year will amply provide for all its obligations, including the sinking fund.

The estimates received from the several Executive Departments are as follows:

Legislative establishment		$2 865,378 50
Executive establishment		18,717,045 40
Judicial establishment		3,403,450 00
Foreign intercourse		1 352 485 00
Military establishment		33,697,178 50
Naval establishment		20,871,666 40
Indian affairs		5,787,795 64
Pensions		29,583,500 00
Public works:		
Treasury Depart.	$6,152 846 86	
War Department	19 888,238 44	
Navy Department	1,725.000 00	
Interior Depart	800,500 00	
Department of Agriculture	21,825 00	
Department of Justice	3,000 00	
		28 591,410 30
Postal service		9 281 602 19
Miscellaneous		13,881,185 79
Permanent appropriations, (including $34,063,377 40 for sinking fund)		146,629 910 76
Total		$314,612,608 48

REDUCTION OF THE PUBLIC DEBT.

By the monthly statement of the public debt issued June 30, 1875, the reduction of the debt

during the year was shown to be $14,899,514 84, viz:

Principal of the debt July 1, 1874	$2,251,690,468 43
Interest due and unpaid, and accrued interest to date	38,939,087 47
Total debt	$2,290,627,555 90
Cash in the Treasury	147,541,314 74
Debt, less cash in the Treasury	$2,143,088,241 16
Principal of debt July 1, 1875	$2,232,284,531 95
Interest due and unpaid, and accrued interest to date	38,647,556 19
Total debt	$2,260,932,088 14
Cash in the Treasury	142,243,361 82
Debt, less cash in the Treasury	$2,128,688,726 32
Showing a reduction, as above stated, of	$14,899,514 84

It will be observed that the surplus revenues, exclusive of provisions for the sinking fund, as shown in the statement of receipts and expenditures for the fiscal year, were $18,876,658 26, or $1,022,856 58 less than the amount of the reduction of the debt as shown by the monthly statement of the same.

The difference between these two statements arises from the difference of dates at which they are made up, as will be seen by a comparison of them as regards the cash in the Treasury at the commencement and close of the fiscal year, and of the item of "interest due and unpaid, and accrued interest to date," which, in the monthly debt statement, is treated as a liability of the Government, precisely as is the principal of the debt, but which is not so considered in the statement of receipts and expenditures.

The cash in the Treasury July 1, 1874, as shown by the monthly debt statement of that date, and which embraced only the moneys officially reported to the department at the time of its issue, was	$147,541,314 74
The cash in the Treasury July 1, 1874, as shown by the account of receipts and expenditures, (the books from which it is prepared usually being kept open for a period of forty-five days so as to include at the date of closing the account all the revenues deposited at the different places of deposit throughout the country within the period covered by the same, and which are unascertained at the time of the issue of the monthly statement,) was	150,731,694 63
Showing a difference of	$3,190,379 89
The cash in the Treasury July 1, 1875, as shown by the monthly debt statement of that date, was	$142,243,361 82
And as shown by the statement of the receipts and expenditures of same date	144,702,416 41
Showing a difference of	$2,459,054 59
The difference in these two statements of cash reported to the Treasury, as appears by the monthly statement, and as ascertained by the statement of receipts and expenditures at the commencement and close of the fiscal year, it will be seen, is	$781,325 30
which add the reduction in the item of "Interest due and unpaid, and accrued interest to date"	291,531 28
Making the sum of	$1,022,856 58

It will, therefore, be perceived that no difference exists in these two accounts, other than that which grows out of the manner of their preparation.

☞ The Junction Railroad, connecting the Savannah and Charleston Railroad with the Atlantic and Gulf Railroad, was completed on the 1st inst., and trains passed over it. The completion of this line gives a through rail line connection from the North to Florida and Southern Georgia, via Savannah, and also another rail line to Atlanta, via Augusta.

☞ The route for a railroad to Berkeley Springs from Hancock Station, Baltimore and Ohio railroad, has been surveyed within the past two months, and it is said that the road will be built next year. The distance is six miles, with very heavy grade.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

P. McBrigham, KINGSTON, N. Y
J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

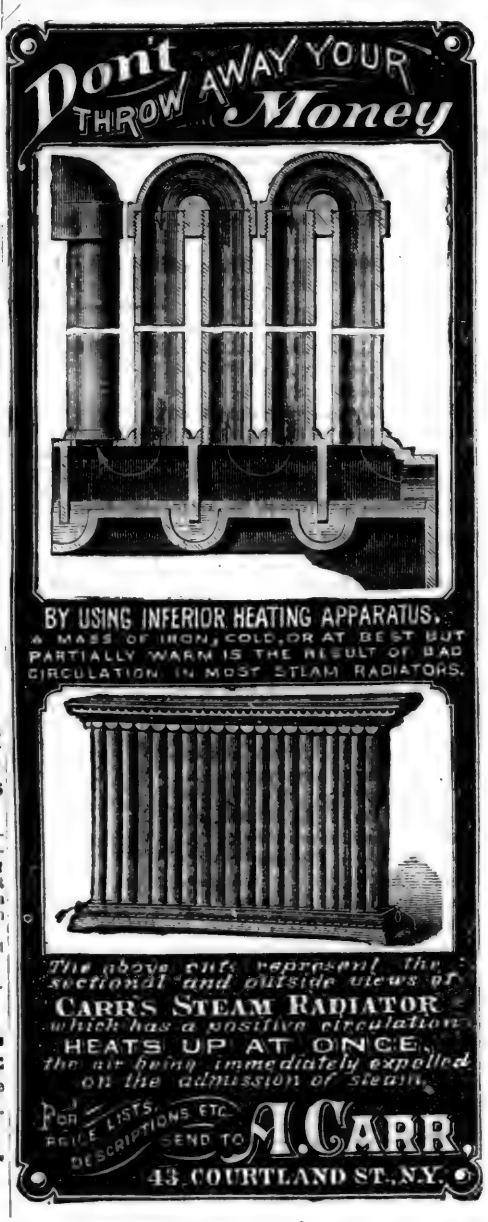
WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.



LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, December 18, 1875.

New York and New England Railroad.

The annual meeting of the stockholders of the New York and New England Railroad Company was held in Boston on the 7th inst. The President, William T. Hart, of Boston, occupied the chair. After the reading and approval of the records of the previous meeting the President made a verbal statement on behalf of the Directors. He said that the Directors congratulated the stockholders on meeting for the first time in possession of their own property. The delay, he said, in bringing this about, has been long, owing to the reluctance with which parties took up the notes of the corporation which were authorized at the last meeting. On the 31st of July the trustees made a deed of all the property which they received under the mortgage, to the new company. The Board of Directors did not consider it necessary to make a report of their doings for the four months since they obtained possession of the road; but the trustees felt that it was only due to the stockholders that some statement should be made of the result of the business since they came into possession of the property. The earnings for the year ending Sept. 30, 1872, were $841,391; operating expenses, $637,454; net income, $203,937. In the year ending Sept. 30, 1873, the earnings were $857,114; the operating expenses, $728,000; net income, $128,000. In the following year the receipts were $915,290; operating expenses, $790,000; net income, $197,000. In the twelve months ending September 30, 1875, the receipts were $915,880; operating expenses, $766,000; net income, $149,000.

Mr. Hart spoke of the depression of business, and the competition, which have reduced very much the earnings of the road. Then there is difficulty in deciding what items should be charged to operating expenses, and what to construction expenses. The road originally was poorly constructed and a great deal of expense has been incurred in making the necessary repairs. The Directors feel able to encourage the owners of the road by assuring them that they will before long realize what they have a right to expect. The nub of the whole matter is the necessity of providing the means for taking up the underlying debt. The underlying loans amount in round numbers to about $4,000,000, with interest. It is supposed that $2,000,000 is a liberal estimate for the completion of the unfinished portion of the road, to the Hudson river. Therefore, to pay off the underlying loans and complete the road, the sum of $6,000,000 is required, the interest on which, at seven per cent., would be $420,000. The earnings of this road and the Hartford, Providence and Fishkill Rail road amount in round numbers to $2,000,000 a year. Assuming that the expenses are 75 per cent. there would be a surplus of $500,000, which would pay the interest on $7,000,000. Assuming that there will be no increased business when the road is extended to the Hudson River, that the earnings will not be taken to make extraordinary repairs, you will see that the interest will be secured by the earnings of $2,000,000. There is every inducement for those who now own the property to come forward and take the bonds. The new bonds are almost ready and the mortgage has been made. The best way is for the owners to rely on themselves. The subscription by those who now own this property, at 20 per cent, on the present capital stock of $20,000,000 would pay the debt; and a contribution of 30 per cent would pay the debt and finish the road.

Mr. James Sturgis addressed the meeting on the importance of obtaining complete possession of the Hartford, Providence and Fishkill road. There would be two great advantages—the saving of the salaries of the officers of the road, and the control of through freight. If the $2,000,000 mortgage on the road were taken up on the first of January, and in the interest of this corporation, the gain would be very great.

In reply to a question from Mr. Wentworth the President stated that the net earnings of the two roads for four years have been expended on the roads; and he added that more would have been spent if it had been available.

A ballot for directors was taken. There were 40,158 votes cast, and the following named gentlemen received almost a unanimous vote:

George W. Baldwin of Boston, A. W. Beard of Boston, LeGraud B. Cannon of New York, Charles H. Dalton of Boston, Charles Dana of New York, Thomas Dickson of New York, R. Suydam Grant of Providence, William T. Hart of Boston, Edward W. Kinsley of Boston, Frederick J. Kingsbury of Waterbury, Conn., Earl P. Mason of Boston, George M. Rice of Worcester, John F. Slater of Norwich, James Y. Smith of Providence, James Sturgis of Boston.

An inquiry was made as to the right of the company to take up the mortgage of the Hartford, Providence and Fishkill road.

Mr. Cannon said that there can be doubt about the legal right of the company to secure the road in question. Speaking in a general way, Mr. Cannon said that this road, at the rates at which its stocks and bonds are selling, is the cheapest piece of property in this country. He said that when the road is completed to the Hudson River, the income from coal carrying alone will be $1,500,000. With the business which would come to the road, it would be able to pay the interest on its bonds and four or five per cent. on its capital stock.

Mr. Hart made a statement somewhat in detail of the ways in which the net income of the road for four years had been expended in equipment, etc.

It was voted "That the form of mortgage to secure an issue of bonds to the amount not exceeding $10,000,000, which has been prepared in pursuance of votes of the stockholders at the last annual meeting, and which has been submitted to this meeting by the President, be and the same hereby is ratified and approved; and that the action of the directors with respect to said mortgage, and the bonds to be issued thereunder, be likewise ratified and approved."

It was voted that the directors make an effort to introduce the stock of the New York and New England Railroad into the New York stock market.

☞ The El Dorado Canyon Coal Company has under consideration the project of a narrow gauge railroad from their mine to Carson, Nevada.

Western Union Telegraph.

At the regular quarterly meeting of the General Committee of the Western Union Telegrah Company, held at the office of the company on the 8th inst., President Orton presented the following report:

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, Dec. 8, 1875.

TO THE DIRECTORS:

The Executive Committee submit the following statement concerning the operations of the company for the current six months:—

The gross receipts for the quarter ended September 30 were		$2,671,805 93
Expenses		1,762,652 45
Net profits		$909,153 48
The gross receipts for the current quarter ending December 31 inst. (estimating the December business) are	$2,538,160 26	
Expenses	1,694,531 84	
Net profits		843,628 42
Total profits for the half year		$1,752,781 90
The amount required for two quarterly dividends of two per cent each, is		1,351,200 00
Deducting which from the profits for the half year leaves a balance of.		401,581 90
Deduct for six months' interest on the bonded debt and for Sinking Fund accruing during the same period		275,000 00
Leaves a net balance of.		$126,581 90
The excess of net profits for the current half year over the same period for 1874 is		94,451 48

In view of the foregoing statements, the Executive Committee recommend the adoption by the Board of Directors of the following:

Resolved, That a dividend of two per cent from the net earnings of the three months ending December 31 be and the same is hereby declared payable on the 15th of January next.

Resolved, That for the purpose of such dividend the stock books be closed at three o'clock on the afternoon of the 20th inst., and be reopened on the morning of the 17th of January.

The committee also report that a further reduction of the expenses of the company is to be effected by carrying out a plan recommended by the President, whereby the compensation payable to all officers and employes of the company, in excess of the rate of $600 per annum, is to be reduced, on and after the first day of January next, on a sliding scale, from twenty five to five per cent.

WILLIAM ORTON, President.

Valley (Va.) Railroad.

The suit of McMahon & Green and T. K. Menifee, contractors, against the Valley Railroad Company, was decided in the Circuit Court of Augusta county Va., on the 4th inst., by a verdict in favor of the railroad company. The plaintiffs were a portion of the syndicate having the contract for the construction of the road between Harrisonburg and Salem, the other members being A. W. Harman, C. R. Mason and Dennis Shannahan. The latter arrived at a satisfactory settlement of their accounts with the company upon the basis of the estimate furnished by the chief engineer of the road. But the plaintiffs in the case, McMahon & Green, and T. K. Menifee, refused to accept the engineer's estimate as a basis of settlement, and brought suit to recover about $40,000 above the figures for work which they claimed to have executed. The verdict is now against them.

Chesapeake and Ohio Railroad.

Several of the principal holders of first mortgage six per cent bonds of the Chesapeake and Ohio Railroad Company, who have been for some time deliberating on the subject, have issued a circular containing a plan for the purchase and reorganization of the road. A foreclosure suit is now pending against the company, and the bondholders propose to buy in the road.

The following are the present liabilities of the company:

Mortgage bonds of the Virginia Central Railroad Company, secured on portions of the road between Richmond and Covington	$1,818,000
Past due and unpaid interest thereon, say	100,000
Other bonds of the Virginia Central Railroad Company secured by charter	187,578
Past due and unpaid interest thereon, say	23,000
Chesapeake and Ohio six per cent first mortgage bonds, including those hypothecated as collateral to loans	15,000,000
Past due and unpaid interest thereon to November 1, 1875	2,250,000
Chesapeake and Ohio seven per cent mortgage bonds outstanding, including those hypothecated as collateral to loans	12,131,000
Past due and unpaid interest thereon to July 1, 1875	1,698,340
Coupon falling due thereon January 1, 1876	424,585
Unsecured floating debt, about	2,000,000
Capital stock issued	15,900,000

After buying in the road new first and second mortgage bonds will be issued and first and second preferred stock. The latter are to be used to pay the interest on the present six per cent first mortgage bonds. Those bondholders who refuse to join are to be settled with according to special arrangements after the road is purchased.

The following are the terms of proposed change of stock with the present holders: Each holder of the present six per cent first mortgage bonds to receive in exchange therefor ninety per cent of principal of the bonds held by him in the new first mortgage bonds, ten per cent in the new second mortgage bonds, and for the past due and unpaid interest from May 1, 1873, to the date at which the new bonds will commence to draw interest first preferred stock. Each holder of the present seven per cent mortgage bonds to receive in exchange therefor twelve and one half per cent in the new first mortgage bonds, seventy and five sixths per cent in the new second mortgage bonds the remaining sixteen and two thirds per cent in second preferred stock, and for the past due and unpaid interest from July 1, 1873, to the date at which the new bonds will commence to draw interest second preferred stock.

Pittsburg and Connellsville Railroad.

A meeting of the stockholders of the Pittsburg and Connellsville Railroad was held at Pittsburg on the 12th inst., to consider the proposed consolidated mortgage and lease of the road to the Baltimore and Ohio Railroad Company. After a discussion of several hours, the lease was adopted by a vote of 28,574 shares for, to five shares against. Some dissatisfied stockholders, who represented in the aggregate about 800 shares protested against the lease, and, with one exception, retired before the vote was taken. The proposed mortgage was approved and adopted unanimously. The old board were re elected on the 6th inst., and are as follows: John King, Jr., William Keyser, Mendes Cohen, W. H. Perkins, H. G Vickery, Hugh Sission, Charles Webb and John Donnell, of Baltimore; G. L. B. Fetterman, William Baldwin and William S. Bissell, of Pittsburg; George R. Dennis, of Frederick, Md. John King, Jr., was elected President, J. B. Washington Secretary, and Charles Donnelly Treasurer.

Baltimore and Ohio Railroad.

The regular monthly meeting of the board of directors of the Baltimore and Ohio Railroad Company took place yesterday at Camden Station. The gentlemen who were unanimously re elected directors by the stockholders at their annual meeting last month took their seats. After the reading of the minutes of the last meeting the secretary announced that the next business in order was the election of the president. Hon. J. Carroll Walsh was then called to the chair, and Mr. Garrett withdrew.

On motion the board proceeded to the election of the president, when Mr. Galloway Cheston nominated Mr. John W. Garrett. On motion of Mr. Wm. W. Taylor, Mr. Cheston was requested to cast the unanimous vote of the board for Mr. Garrett as president for the ensuing year, which motion was adopted. The chair then appointed Messrs. Francis T. King, Robt. T. Banks and John Gregg a committee to inform Mr. Garrett of his election. The committee waited upon Mr. Garrett, and after a short absence returned, accompanied by the presidents.

Upon taking the chair Mr. Garrett said that he had been informed by their committee that the board had again by a unanimous vote called him to the presidency of the company. It was proper to state that, in accepting the office, he must again do so subject to the limitation, heretofore named as to confining his duties to aiding in the management of the general policy and the finances of the company, leaving the administrative services and the general working of the road and its branches to the vice president.

Mr. Garrett stated that he fully appreciated the high honor of the election to this distinguished position for the eighteenth year by the unanimous action of the representatives of the State of Maryland, the city of Baltimore and of the individual shareholders of the company. The uniform exhibition of the confidence of the board for so many years was certainly gratifying. He desired especially to acknowledge their unwavering, cordial and unanimous support during the extraordinary and protracted conflicts and difficulties of the past year.

The power and position of the Baltimore and Ohio road, and its numerous and important connections, are thoroughly established. Its rights are now so respected that the prospect may be regarded as favorable for it to command, notwithstanding the depressed condition of business, a large traffic, which cannot fail to produce advantageous results upon the commerce and prosperity of Baltimore, of Maryland, and of the regions traversed by its lines, and at the same time to protect and advance the interests of the proprietors of its capital.—*Balt. Sun, Dec. 9.*

Quebec Railways and Finance.

In his Budget Speech Mr. Robertson, Provincial Treasurer, stated the policy of the Government with respect to railways. It is proposed to construct the following railways under the supervision of Commissioners and at the expense of the Government: North Shore Railway, 158 miles, with steel rails and four iron bridges, and the Piles branch, 27 miles, estimated to cost together $4,782,387; the Montreal, Ottawa and Western, 123½ miles, with steel rails and iron bridges, and branch to St. Jerome, 14 miles, to cost $3,601,649 95; line from Aylmer to Portage du Fort, 60 miles, without rolling stock, at $20,000 per mile, $1,000,

000, making a total for these lines of $9,334,036 95. Adding to this the previous grants of the Province to railways, $3,354,820, there is a grand total in the shape of grants to railways for which the Province is liable of $13,155,558 78.

Against this the subscriptions of the municipalities in aid of these lines is to be handed over to the Government, which bonds the contractors take at par: Quebec and Montreal $2,000,000, Three Rivers, $100,000, St. Sauveur $25,000, St. Therese $25,000, St. Jerome $34,000, Lachute $25,000, St. Scholastique, $10,000, County of Ottawa, $200,000—making in all $4,190,000, or less 15 per cent discount, $3,561,500. To this the Treasurer adds the net receipts for his late loan in England, $3,607,083 33, making together $6,053,233 33. Deducting this sum from the cost of railways given above ($13,155,558 78) leaves $7,102,325 42. It is intended to sell bonds on the railways constructed to the extent of one third of their cost, or say 371 miles of railway, at $8,000 a mile, $3,000,000. This leaves the sum of $4,102,325 42 which the Province has to raise by way of loan. When this sum is borrowed the total indebtedness of the Province will be about $8,000,000.

Richmond and Danville Railroad.

The annual meeting of this company was held in Richmond, Va., on the 8th inst. The annual report which was presented shows the gross earnings for the year ending September 30, 1875, to have been $923,057 85, the expenses $599,610 22, and the net receipts $323,547 63. The report suggests that legislative authority to construct and operate another and independent line between Richmond and Washington would correct what is alleged to be an evil because of a want of co-operation on the part of the Richmond, Fredericksburg and Potomac Railroad Company in its refusal to allow the transit of through cars on certain schedules. A resolution was adopted that the president and directors of the company be requested to petition the General Assembly of the State of Virginia now in session, to grant a charter for building a rail road from Richmond to Quantico or Washington, D. C. A resolution was also adopted providing for the appointment of a committee to examine into the affairs of the company. A. S. Buford was re elected president; A. G. Stokes, W. T. Sutherlin, W. L. Owen, Isaac Davenport, Jr., J. N. DuBarry, Strickland Kansas, A. J. Cassatt and John Bardsley, directors.

☞ Wilmington, Vt., has voted to bond the town for eight times its grand list in aid of the proposed Green Mountain Narrow Gauge Railroad, extending through from Turner's Falls, Mass., to the Canada line at Sherburne. Other towns along the route have already taken similar steps, and it is confidently expected that the road will be begun early in the Spring.

☞ T. H. Cooper, recently Assistant Superintendent of the Grand Trunk Railroad of the Eastern District, has accepted the appointment of General Agent of the Company, with headquarters in Boston. He will be succeeded by James Stevenson formerly Superintendent of the Quebec division.

☞ The Los Angeles and Independence Railroad was formally opened between Los Angeles and the seaport of Santa Monica on the 1st inst.

Eastern (Mass.) Railroad.

ANNUAL REPORT TO THE RAILROAD COMMISSIONERS.

The following is the complete statistical return made by the directors of the Eastern Railroad Company to the Board of Railroad Commissioners:

CAPITAL STOCK.

Capital stock authorized by charter.	$8,310,000 00
Capital stock authorized by votes of company	8,310,000 00
Capital stock issued (number of shares 49,976) amount paid in	4,997,600 00
Capital stock total amount paid in as per books of the company	4,997,600 00
Number of stockholders	2912
Amount of stock held in Massachusetts	4,176,400 00
Number of stockholders in Massachusetts	2203

DEBT.

Funded Debt as follows:

1st mortgage bonds Essex Railroad due 1876, rate of interest 6 per cent	$194,400 00
Bonds due at various dates, rate of interest 6 per cent	11,173,548 00
Total amount of funded debt	11,367,948 00
* Unfunded Debt, incurred for construction, equipment or purchase of property	1,822,986 11
Unfunded debt incurred for any other special purpose	978,538 89
Other debts—current credit balances, etc.	664,027 17
Total debt liabilities	14,333,500 17
Amount of debt liabilities after deducting cash, sinking funds in hands of trustees, and such securities and debt balances as do not represent permanent investments.	14,239,598 18
Contingent liabilities as guarantor of bonds or debts of other corporations, specifying same	Nothing.
G. F. and C. bonds	1,000,000 00
Portsmouth and Dover Railroad notes	63,000 00

* This item is not to include balances due other roads, unclaimed dividends, or anything connected with the ordinary operations of the road. It refers only to debts incurred for permanent investments.

COST OF ROAD, EQUIPMENT AND PROPERTY.

Grading and masonry	$1,736,992 04
Bridging	1,473,038 97
Superstructure, including rails	3,041,335 73
Land, land damages and fences	2,938,690 60
Passenger and freight stations, wood sheds and water stations	1,629,844 23
Engine houses, car sheds and turn tables	316,585 51
Machine shops	331,445 92
Interest paid during construction, discount, etc.	639,033 47
Engineering, agencies, salaries and other expenses during construction	255,150 37
Total expended for construction	$12,362,111 84
Average cost of construction per mile of road built by company	$96,979 82
Same per mile of single track built by company, not including sidings	60,548 25
Proportion of cost of construction for Massachusetts	11,443,619 34

EQUIPMENT.

Locomotives, number 95	$982,666 92
Snow-plows on wheels, number 27.	16,049 13
Passenger, mail and baggage cars, number 179	702,392 02
Freight and other cars, number 1234	651,566 65
Total for equipment	$2,362,674 72
Average cost of equipment per mile of road operated by company	$8 378 28
Proportion for Massachusetts	988,636 94

OTHER PROPERTY.

Stock of Portsmouth, Great Falls and Conway Railroad	$551,800 00
Stock of Wolfboro' Railroad	337,900 00
Stock of Eastern (N. H.) Railroad.	512 50
Stock of Maine Central Railroad	559,895 81
Pullman Palace Car Company	39,000 00
Bonds Portsmouth, Great Falls and Conway Railroad	486,000 00
Lands in Massachusetts	1,586,959 90
Advances to Portsmouth, Great Falls and Conway Railroad	12,226 12
Advances to Wolfboro' Railroad	4 50
New work	38,889 94
Total	$3,912,688 77
Property in Massachusetts (including proportion of equipment)	$2,575,596 84
Whole amount of permanent investments	18,637,475 33
Proportion for Massachusetts	17,717,148 65
Total property and assets of the company	19,558,510 15

EXPENDITURES CHARGED TO PROPERTY ACCOUNT DURING THE YEAR.

Main line, extension or alteration of road	$80,196 66
Branches, extension or alteration of road	5,275 91
Land	964,158 79
Passenger and freight stations, wood sheds and water stations	57,514 06
Engine houses, car sheds and turn tables	18,015 40
New locomotives	18,058 41
New passenger cars	411 70
New freight cars	1,140 34
Machine shops, machinery and tools	520 56
Advances to other roads and new work	51,120 56
Other expenditures charged to property account: $388,100 P., G. F. and C. Railroad, $337,900 Wolfboro' R. R. (discount, sterling, loan, sinking fund and ten year notes)	474,116 52
Stock in Maine Central and Eastern, New Hampshire	860,408 31
Total	$2,530,937 22
Property sold and credited property account during the year: $99,885 51 P., G. F. and C. Railroad bonds, $32,000 Portsmouth Bridge stock, $730,264 69 Land, net addition to property account for the year	2,530,937 22

REVENUE FOR THE YEAR.

Receipts from local passengers on roads operated by this company	$1,464,993 18
Receipts from passengers from and to other roads over roads operated by this company	197,082 22
Receipts for express and extra baggage	64,184 88
Receipts for mails	39,019 76
Total receipts from passenger department	1,765,280 04
Receipts from local freight on roads operated by this company	717,018 49
Receipts from freight from and to other roads over roads operated by this company	264,371 97
Receipts from freight over other roads as tolls, or for use of cars of this company	11,686 94
Total receipts from freight department	983,077 40
Receipts as rents for use of road and equipment, when leased	8,000 00
Total earnings	2,766,357 44
Income from rent of property other	

than road and equipment	56,253 30
Income from Pullman Palace Car Co	4 680 00
Total income	2,827,290 74
Percentage of same to capital stock and debt, 20.16.	
Percentage of means applied to construction, equipment, etc., 23.97.	

EXPENSES OF OPERATING THE ROAD FOR THE YEAR.

Repairs of road exclusive of bridges and new rails	$233,988 06
New iron rails, deducting old rails sold	109,304 96
Repairs of bridges	59,603 38
Repairs of buildings and fixtures (stations)	46,414 41
Repairs of, and additions to, machine shops and machinery	7,552 89
Repairs of fences, road crossings and signs	8,400 61
Total	465,264 31
Proportion of same to passenger department	297,769 15
Proportion of same to freight department	167,495 16

GENERAL TRAFFIC EXPENSES.

Taxes, State and local	42,018 05
General salaries, office expenses and miscellaneous, not embraced in classes 3 and 4	94,823 40
Insurance premiums and losses by fire, and damages for fires set by engines	4 974 66
Repairs of locomotives	150,172 60
Repairs of snow plows	613 38
Removing ice and snow	8,945 51
Fuel for locomotives and cars: 10,440 cords of wood cost $53,616 71; 23,745 tons coal cost $234,609 72	288,226 43
Fuel for stations and shops	5,131 22
Oil and waste	24,731 47
Switchmen, watchmen, flag and signal men	92,016 60
Telegraph expenses	21,745 68
Total	$733,398 40
Proportion belonging to passenger department	$469,374 98
Proportion belonging to freight department	264,023 42

PASSENGER TRAIN EXPENSES.

Repairs of passenger, mail and baggage cars	$113,179 41
Damages and gratuities, passenger	13,896 86
Salaries, wages and incidentals of passenger department	410,553 13
Total	$537,629 40

FREIGHT TRAIN EXPENSES.

Repairs of freight cars	$82,209 19
Damages and gratuities, freight	19,268 37
Salaries, wages and incidentals of freight department	232,101 94
Total	$333,579 50
Total expenses of operating the road	2,069,871 61
Per mile of the road operated	7,339 97
Per mile of single track operated, not including sidings	6,550 22
Per train mile	99 38
Proportion for Massachusetts	816,471 27
Percentage of expenses to income	73 56

NET INCOMES, DIVIDENDS, ETC.

Total net income above operating expenses	$757,419 13
Amount paid other companies as rent for use of road	200,916 00
Net income above operating expenses and amount paid for rent of road	556,603 13
Paid for interest and interest accrued	892 362 39
Date of last dividend declared	July 1, 1873
Balance for the year, deficit	335,859 26

RECEIPTS, EXPENSES, NET EARNINGS, ETC., OF PASSENGER DEPARTMENT.

DESCRIPTION OF ROAD.

	Miles.
Length of main line of road, from Boston to State Line, N. H.	41.390
Length of main line of road in Massachusetts	41.390
Length of double track on main line	27.800
Total length of branches owned by company	76.596
Total length of branches owned by company in Massachusetts	76.596
Length of double track on branches	6.396
Total length of road belonging to this company	117.986
Aggregate length of sidings and other tracks not above enumerated	36.740
Same in Massachusetts	36.740
Aggregate length of tracks belonging to this company computed as single track	188.922
Same in Massachusetts	188.922
Total length of steel rails in tracks belonging to this company (weights per yard 63 lbs)	68 000
Number of spans of bridges of 25 feet and upwards	30
Number of iron bridges (aggregate length, 524 feet)	17
Number of wooden bridges (aggregate length, 7512 feet)	55
Number of crossings of highways at grade	193
" " " over railroad	64
" " " under "	5
Number of highway bridges 18 feet above track	7
Number of highway bridges less than 18 feet above track	50
Number of crossings at which gates or flagmen are maintained	145
Number of crossings at which there are neither gates nor flagmen	48
Number of railroad crossings at grade, specifying each	8

Number of railroad crossings under other railroads, specifying each	1

ROADS BELONGING TO OTHER COMPANIES, OPERATED BY THIS COMPANY UNDER LEASE OR CONTRACT.

Name, description and length of each:	Miles.
Eastern Railroad, New Hampshire, length	15.910
Portsmouth and Dover, length	10 880
Newburyport City Railroad, length	2.800
Portland, Saco and Portsmouth Railroad, length	51 000
Portsmouth, Great Falls and Conway Railroad, length	71.370
Wolfboro' Railroad, length	12.030
Total length of above roads	163.980
Total length of above roads in Massachusetts	2.800
Total length of above roads in New Hampshire	107.630
Total length of above roads in Maine	53.550
Total miles of road operated by this company	281.966
Total miles of road operated by this company in Massachusetts	120.786
Number of stations on all roads operated by this company	128
Same in Massachusetts	75
Miles of telegraph on line of road operated by this company	752.000
Miles of telegraph owned by this company	157.790
Number of telegraph offices in company's stations	44
Number of telegraph stations operated by this company	39
Number of telegraph stations operated jointly by Railroad and Telegraph Company	5

ROLLING STOCK.

	Total No.	Value.
Locomotives	95	$982,666 92
Snow-plows	27	16,049 18
Passenger cars	143	643,223 61
Mail and baggage cars	36	59,168 41
8-wheel box freight cars	550	661,566 65
4-wheel box freight cars	81	
8-wheel platform cars	371	
Other cars (coal, gravel, &c.)	232	
Total value		$2,362,674 72
Total freight cars, including coal, etc., on a basis of 8 wheels	1123	
Number of locomotives equipped with train brakes, Westinghouse	55	
Number of cars equipped with train brakes, Westinghouse	179	
Number of passenger cars with Miller Platform and Buffer	179	

MILEAGE, TRAFFIC, ETC.

Miles run by passenger trains	1,065,092
Rate of speed of express passenger trains, including stops, per hour	28 miles.
Rate of speed of accommodation trains, including stops, per hour	20 miles.
Miles run by freight trains	575,390
Rate of speed of express freight trains, including stops, per hour	15 miles.
Rate of speed of accommodation freight trains, including stops, per hour	10 miles
Miles run by other trains, for switching	442,250
Total train miles run	2,082,732
Number of through passengers (whole length of road)	156,221
Number of local passengers (over part of road)	5,229,817
Total number of passengers carried	5,386,038
Total passenger mileage, or passengers carried one mile	75,201,867
Passenger mileage to and from other roads	14,101,884
Number of tons carried	661,886
Total freight mileage, or tons carried one mile	35,687,833
Freight mileage to and from other roads	13,738,948
Highest rate of fare per mile for any distance	7 cts.
Lowest rate of fare per mile for any distance, (single fare)	4½ do
Average rate of fare per mile (not including season tickets) received from passengers on roads operated by this company	2.47 do
Average rate of fare per mile received from passengers to and from other roads	1.44 do
Average rate of fare per mile for season ticket passengers, reckoning one round trip per day to each ticket	.88 do
Average rate of fare per mile for all passengers	2.21 do
Highest rate of freight per ton per mile, for any distance	1.00 do
Lowest rate of freight per ton per mile for any distance	.003 do
Average rate of freight per ton per mile on roads operated by this company	.801 do
Average rate of freight per ton per mile to and from other roads	1 92 do
Average number of cars in passenger trains, including baggage cars	7
Average number of cars in freight trains (basis of 8 wheels)	22
Average weight of passenger trains, including locomotive and tender in working order, exclusive of passengers	288,939 lbs.
Average weight of freight trains, including locomotive and tender in working order, exclusive of freight	438,939 lbs.
Number of persons regularly employed by company, including officials	2,087

CLASSIFICATION OF BUSINESS.

PASSENGERS.

Passengers coming from other States	153,460
Passengers going to other States	101,216
Passengers traveling only within this State	4,781,681
Total season ticket passengers (round trip)	558.281
Passengers from Boston (including season)	2,413,398
Season ticket passengers to and from Boston (one round trip daily)	443,310

FREIGHT IN TONS.

Brought from other States	179,606
Carried to other States	121,112
Carried within this State only	299 320
Taken from Boston	225,282
Carried to Boston	179,287

SAMUEL C. LAWRENCE, HENRY L WILLIAMS, FRANK JONES, J. WOOLDRIDGE, J. W. JOHNSON, B. E. BATES, F. HAVEN, } Directors of the Eastern R. R. Company.

COMMONWEALTH OF MASSACHUSETTS.

SUFFOLK ss., Nov. 30, 1875. Then personally appeared Samuel C. Lawrence, Henry L. Williams, Frank Jones, John Wooldridge, J. W. Johnson, B. E. Bates and F. Haven, and severally made oath to the truth of the foregoing statement by them subscribed, according to their best knowledge and belief.

JOHN B. PARKER,
Justice of the Peace.

☞ The Milwaukee, Lake Shore and Western Railroad, running from Milwaukee to Two Rivers, was sold on the 10th inst. for $2,509,478 20 to Messrs. Adam Norrie, Lawrence Wells, Morris K. Jesup, Samuel S. Sands, and W. H. Guion, of New York, the bondholders. The Milwaukee, Manitowoc and Green Bay Railroad, with the right of way from Appleton to New London, was sold, under mortgage foreclosure, to the same parties for $1,222,988 70.

Oakland, Berkley and Contra Costa R. R.

Articles of incorporation of the Oakland, Berkley and Contra Costa Railroad Company were filed with the Secretary of State of California on the 2d inst. The object of this company is to construct and maintain a broad gauge railroad from the water front of Oakland to the village of Walnut Creek, an estimated distance of twenty miles. Capital, $1,000,000, in shares of $100 each. Directors, W. W. Cameron, Mack Webber, F. Chappelette, A. J. Snyder, J. M. Walker, S. N. Putnam, Joseph Becht, L. W. Kennedy, John P. Jones, Thomas H. Williams and H. B. Berryman. The principal place of business will be in Oakland. Besides the above, the contemplation is that branch roads will soon be extended from Walnut Creek to Clayton by way of Pacheco and Concord (which would bring it within one mile of the Mount Diablo coal mines), passing through the richest agricultural country; and also a branch to Amador valley, passing through Alamo, Danville and Limerick, which would run through and tap the prolific valleys of San Raymon, Green, Sycamore and Tassajerro.

☞ At a meeting of the City Council of Evansville, Indiana, on the 2d inst., a contract between the trustees of the city bonds and the Lake Erie, Evansville and Southwestern Railway Company was approved and ratified. This contract obligates the company to extend the road from Booneville, in Warrick county, to Huntingburg, in Dubois county, by the first of October next, in consideration of which the company is to receive the proceeds of $150,000 of city bonds in railroad iron. It is thought this contract will insure the completion of the road to its junction with the Louisville and St. Louis Air Line Railroad.

☞ The stockholders of the Queen Anne's and Kent County Railroad met at Centreville, Md., on the 8th inst, and elected the following officers: Benjamin T. Biggs, president; John B. Boyle, John Keaveny, Edward Ingersoll, C. W. Leavitt, Joseph Bringhurst and J. E. Taylor, directors; and P. H. Irwin, treasurer. The report of the president showed the earnings of the road last year to be $31,589, expenses $27,279, net earnings $4,310. The board declared a dividend of 1¼ per cent. on the whole amount of stock, which is $315,000.

☞ At a meeting of the stockholders of the Washington County Branch Railroad Co., held at Hagerstown on the 11th inst., the following gentlemen were elected directors: William Keyser, Galloway Cheston, David Fowler, Edward M. Mealey, Robert Miller, W. S. Kennedy and P. B. Small. At a meeting of the board Mr. William Keyser was elected president and P. B. Small secretary.

☞ A narrow gauge railway from St. Clairsville, Belmont County, Ohio, to Neff's Siding, on the Baltimore and Ohio Railroad, in the same county, is proposed and likely to be built.

☞ The Ohio State Journal says it now seems certain that the Massillon and Coshocton railway will be completed. Twenty miles of the road south of Beach City is ready for the ties.

☞ The Governor of Ohio has appointed L. G. Delano, of Ross county, Commissioner of Railroads and Telegraphs, vice Thompson, resigned.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (–) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, December 18, 1875.

Financial and Commercial Affairs.

Money has been quite buoyant in price most of the week, under a livelier inquiry for accommodation, stimulated in good part by the preparations now progressing for the 1st of January settlements and disbursements. Call loans have been quoted at from 4@7, and best discounts at from 5½@8 per cent per annum. The banks have been rather less liberal of aid. Private lenders have been meeting the requirements of responsible borrowers, especially on call, with comparative promptness at the advanced figures. The outflow of currency to the South and Southwest has been on a moderate scale, and has made but little impression on the City reserves adverse to the comfortable working of the Money market. The U. S. Sub Treasury at this point has made a further slight reduction of its cash balances. The foreign advices have been of an unimportant character, and have been without decided influence on our local markets. The general trade interests are closing up the year tamely, with but little prospect of a revival of activity before the close of January or beginning of February. The export movements in domestic produce are now very moderate, and the latest cable reports are not deemed encouraging to shippers, particularly of Breadstuffs, Provisions, Petroleum, Tobacco and Naval Stores. The supply of room, on berth and charter, here, in the ocean freight, is comparatively limited, and this circumstance is also against free outward movements. The City Bank averages show a further decrease—in the deposits of

$3,696,400; and in the legal tender reserve, of $2,359,300. The specie average has been augmented $1,381,900. The loan and discount item was reduced $2,616,100. The circulation was enlarged $367,700. The U. S. Sub Treasury in this city closed the week with a currency balance of $41,523,017 against $41,183,940, the preceding week; and a coin hoard of $42,222 707 against $42 524,780, on the previous return. The City bank exchanges in currency reached $423, 140,849, or a daily average of $70,523,475. The customs revenue of the port, during the week, was $1,749,000. The City banks reported their average of gold last week at $16,539,400, and their greenback average, at $43,320,900. Their deposits stood at $206,966,900. The loan item was $268,390,400. The circulation was $19,118, 800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $8,118, 575.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $415,-361,899. The outstanding amount of legal tender notes is $372,471,772. The National bank circulation is now $344,481,903, including $2,127,750 of national gold bank notes.

The specie shipments from San Francisco, January 1, to Dec. 2, were $41,578,208, against $28,-083,757 same time in 1874.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,740,697; special deposit of legal tenders for the redemption of certificates of deposit, $44,495,000; Coin, $69,345,464; Coin certificates $21,326,500.

The week's import entries of Foreign Merchandise at New York were $4,901 418, including $1,024,670 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 53 millions; and from Customs, 73½ millions.

Gold has been less variable as to price, on a less active speculative business. A moderate inquiry has been noted for coin for Custom House purposes. The export movement has been light. The extremes of the price during the week have been 114@114⅜, closing on Wednesday at 114⅜ as against 114¼, on Wednesday of the preceding week. The specie outflow last week was only $320,900 against $351,696 the previous week. The imports of specie at this port last week were $261,475 (of which were $240,000 in gold coin from Havana) and since Jan. 1, have been $12,620,939,against $6,170,744 same time last year. The customs demand for gold last week averaged $291,500 per day. Foreign Exchange has been in fair request and toward the close held more firmly. Bankers' sixty day bills on London closed on Wednesday at $4 85@$4 85½; sight bills on London at $4 89@$4 89½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,540,980. The week's imports of Dry Goods and general merchandise were to the specie value of $4,901, 418, as against $5,531,538 the corresponding week of last year.

Government Securities have been in much better request for investment purposes, and have been quoted stronger in price, closing with an upward tendency. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $365,317,412.

U. S sixes of 1881 closed on Wednesday of this week at 124⅞@125¼; U. S. Five-Twenties of 1864, at 115@115½; U. S. Five-Twenties of 1865, 116@116¼; U. S. Five-Twenties of 1865, consolidated, 120⅝@120⅞; U. S. Five-Twenties of 1867, 122⅞@123½; U. S. Five-Twenties of 1868, 122⅞@123⅛; U. S. Ten-forties at 117⅞@118⅛; U. S. Fives of 1881, (Funding Loan) 117¼@117½; Six per cent. currency Sixes, 122½@123.

State and Railway bonds have been more freely sought after, mainly on investment account at generally firmer prices. And in the line of Railway and Miscellaneous share property, business has shown less animation, with values quoted less variable in most instances.

General business has been comparatively moderate in both produce and merchandise, and values as a rule have been without important alterations. The Metal trade has been fairly active. Iron has favored buyers steadily. Tin has been held more confidently. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $15@$19; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $22 50@$23 50. Wrought Scrap, $30@$31. Ocean freights have been less active, with room for Grain, Flour, Cotton and Petroleum, in most request. Accommodation for early use offered with reserve, and rates fairly supported.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The Richmond (Va.) Enquirer, of December 9th, says: "The project for the completion of the James River and Kanawha Canal to Clifton Forge is constantly growing in popularity, and as the General Assembly has set earnestly about devising the necessary means and measures, it will not be long before the work is again under way, and then we trust it will not be stopped until it is in perfect boating order from Richmond to Clifton Forge."

☞ Hon. John Young gives notice in the official Gazette that an application will be made at the next session of Parliament for an act of incorporation to construct the Royal Albert bridge across the St. Lawrence at or near St. Helen's Island, to connect the eastern, western and northern railways on the south side of the river. The bridge will also be adapted to the running of city cars and for ordinary foot travel.

☞ A meeting of the corporators of the Green Mountain Narrow Gauge Railroad Company was held at Rochester, Vt., on the 2d inst. A board of directors was elected as follows: John Sprague, of Greenfield, Mass.; Samuel Wells, of Montpelier; Chas. Morgan, of Rochester; M. C. Edmunds, of Weston, and O. C. Fits, of Wardsboro'.

☞ The Baltimore City Passenger Railway Co. have decided to pay a dividend of $1 per share or four per cent. to the stockholders on and after the 6th of January. This dividend amounts to $40,000, that being the number of shares of stock. A dividend of $1 per share was paid last July, thus making $2 per share, or eight per cent. for the year 1875.

☞ A certificate of incorporation was filed with the Secretary of State of Ohio on the 9th inst. of the Waynesville, Port Williams and Jeffersonville Railroad company, passing through Warren, Green and Fayette counties; capital stock $200,000, by J. C. Ellis and others.

☞ Judge Donohue, of New York, has rendered a decision continuing the injunction obtained against the Panama Railroad Company by stockholders, restraining it from running lines of ocean steamers.

☞ The Coshocton Iron and Steel Works, which suffered a complete collapse from the panic of 1873, are now running again at full capacity. The pay roll of the establishment to workmen alone amounts to from $2,000 to $3,000 per month.

☞ District of Columbia 3-65 bonds, up to and including No. 26,300, were declared a good delivery by the Committee on Securities of the New York Stock Exchange on the 6th inst.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

Martin Lewis,

Room 3. **43 PINE ST., N. Y.**

DEALER IN

Securities of Solvent and Defaulted Railroad Companies, also State, City and County Bonds.

TIME LOANS NEGOTIATED.

Refers by permission to Messrs. M. K. Jesup, Paton & Co., New York; Messrs. Soutter & Co., New York; Jos. S. Norris, Esq., President First National Bank, Baltimore; Robert Mickle, Esq., Cashier Union National Bank, Baltimore.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ The transfer of the Lawrenceville and Evergreen Railroad to the Pittsburgh and Northwestern company was formally made on the 11th inst. Work is already in progress on its extension to the proposed Pittsburgh and Northwestern route.

☞ A preliminary survey for the proposed extension of the Wisconsin Valley Railroad to La Crosse was begun on the 2d inst. The old route known as the Roberts' survey, to Sparta, has been chosen as a test line, and is now being explored.

☞ The section of the New Brunswick and Canada Railroad from Woodstock, N. B., to Fort Fairfield, Me., was formally opened on the 30th ult.

☞ The track of the Scioto Valley Railroad is now being laid between Columbus and Chillicothe, Ohio, and it is expected that the cars will be running before Christmas.

☞ The first passenger train over the Fall River and New Bedford Railroad was run on the 9th inst.

Official List of Patents Issued by the United States Patent-Office.

[FOR THE WEEK ENDING DECEMBER 10, 1875]

MECHANICAL AND RAILROAD.

170,150. Process of Manufacturing Steel, Fidel Berchtold, Cleveland, Ohio.

170,151. Machines for Making Bolts, Rivets, etc., J. R. Blakeslee, Brooklyn, Ohio.

170,162. Apparatus for Superheating Air for Marine Boiler Furnaces, W. C. Ford, Brooklyn, N. Y.

170,166. Machines for Testing Files and Steel, J. Garland, Pawtucket, R. I.

170,226. Car Couplings, Jacob Brinkerhoff, Dubuque, Iowa.

170,248. Steam Engine Frames, Wm. S. Finney, Harrisburg, Penn.

170,299. Injectors for Steam Boilers, Wm. Randall, Salem, Mass.

170,338. Car Axle Boxes, Louis Brauer, Philadelphia, Penn.

170,347. Car Starters, August Dahlers, New York.

170,365. Rotary Engines, Wm. Haven, Clymer, N. Y.

170,379. Car Brakes, Paul Klunzinger, Bellinzona, Switzerland.

178,384. Railroad joints, Richard Long, Pittsburg, Penn.

170,409. Car Brake Shoes, Henry Steutz, Harrisburg, Penn.

170,415. Car Platforms, Emil Tilp, Vienna, Austria.

170,420. Refining Cast Iron, Arthur Warner, Westbourn Crescent, Hyde Park, Eng.

170,427. Devices for Converting Motion, M. Crossman, Marshall, Mich.

MINING.

170,249. Mining Drills, J. S. Fleming, Steubenville, Ohio.

170,289. Methods of Concentrating Tailings, from Quartz Mills, F. E. Mills, Virginia City, Nevada.

170,312. Ore Separators, Albert B. Stanberrie, Philadelphia, Penn.

170,329. Amalgamators, J. W. Bancroft, Philadelphia, Penn.

170,350. Coal Shelling Drills, P. O. Donohoe, Peru, Ill.

170,422. Methods and Apparatus for Classifying Ores, R. M. Wingler, Freibery, Saxony.

170,425. Submarine Rock Chisels, A. J. Whitney, Sandusky, Iowa.

SHEET METAL.

170,300. Machines for Bending Metallic Tubes, J. M. Reid, Montreal, Canada.

Turning Chilled Wheels.

At the recent meeting of the Car Builders' Association, held in this city, an interesting statement was made by Mr. W. W. Lobdell, Secretary of the Lobdell Car Wheel Company, of Wilmington, Del. He said that a pair of chilled cast iron truck wheels had been in use on the Baltimore Central Railroad, Pennsylvania, for nearly a year, and had run from 13,000 to 14,000 miles, when one of them developed a "spot," which made it necessary to remove it. It then occurred to him to try the experiment of turning off the pair of wheels, as the manufacture and turning of chilled rolls has for a long time been a part of his firm's business, and Mr. Hodgeman, master mechanic of the railroad, agreed to put them under an engine. They were 26 inches in diameter, and about three-sixteenths of an inch was turned off, so that their diameters were reduced about three-eighths of an inch. The tool used was a sort of scraper the full width of the tread of the wheel and was made of ordinary tool steel hardened by a patented process. The engine has now run about 11,000 miles with these wheels, and they have worn perfectly smooth, with hardly any apparent wear. In turning them the "spot" referred to was not entirely turned out, and he had watched carefully to see whether it had increased in size, and found that it had not; but the marks which remained after being turned had almost entirely disappeared. The cost of turning a chilled wheel, including a fair charge for the use of machinery and tools, was about $7 50. As his appliances were somewhat imperfect for this purpose, he thought that with the right kind of a lathe it could be done at a much lower cost.

BOOK NOTICE.

THE ELEMENTS OF GRAPHICAL STATICS AND THEIR APPLICATION TO FRAMED STRUCTURES: with numerous practical examples of Cranes, Bridge, Roof and Suspension Trusses, Braced and Stone Arches, Pivot and Draw Spans, Continuous Girders, etc., together with the Best Methods of Calculation, and containing also New and Practical Formulæ for the Pivot or Draw Spans, Braced Arch, Continuous Girder, etc.—By A. Jay Du Bois, C. E., Ph. D., Prof. of Civil and Mechanical Engineering in Lehigh University. 8°. pp. 455, with an Atlas of 32 Plates. John Wiley & Son, New York, 1875.

We have quoted in full the title page of the work before us, and an examination of the contents shows that its title is more than justified. The first 24 pages are devoted to an interesting preface and a full analytical table of contents, then follow 27 pages of Introduction containing a translation of Weyranch's admirable historical and critical Review of the Graphical Statics with a full list of the extensive European literature upon the subject. The book proper is divided into four parts; the first of 83 pages presents the fundamental principles of Graphical Statics and its application to the determination of Centre of Gravity and Moment of Inertia; the second of 168 pages treats of simple and continuous Bridges; the third of 98 pages is devoted to the Stone Arch, the braced iron Arch with ends both hinged and fixed, and the inverted Arch or suspension system; and the fourth is an Appendix of 60 pages which takes up more in detail particular problems relating to each of the other parts, among which we may particularly mention an investigation of the stability of the St. Louis steel arch.

Although this is a work upon Graphical Statics, the author has nowhere left out of view Analytical processes. In calculating the strains in a simple truss bridge, for instance, the engineer who uses this book, may employ three distinct and independent processes, the graphical method of resolution of forces by the force polygon, (sometimes called Maxwell's method,) the graphical method of moments by the equilibrium polygon of Collmann, and the algebraic method of moments, each of which is clearly explained and fully illustrated by numerous examples. Also in designing a draw bridge or a suspension truss each of these three methods may be used and each serve as a check upon the other. In his treatment of all these cases, the author has discarded entirely the tedious English methods of systems of loading, and developed the whole subject of maximum strains from the single fundamental idea of concentrated apex weights. Even in the discussion of the braced arch, the same process of considering only single loads leads to a ready determination of the maximum stresses.

In the preparation of this work German engineering literature has been freely consulted and used, and as a result we have here rendered accessible to the American Engineer for the first time, the full graphical determination of moment of inertia and strains in continuous girders, as also the complete analytical development of the properties of the braced iron arch, a subject we believe never before correctly treated in the English language except in the now very rare Report of Capt. Eads on the St. Louis Bridge.

In Germany, France and Italy the new science of Graphical Statics forms a regular part of polytechnic instruction and is in extensive use among the engineering profession. The work of Dr. Du Bois, containing as it does the first systematic presentation of the subject in the English language, will undoubtedly do much to spread among bridge engineers those elegant graphical methods which are so well known abroad. It has already, we may say, been adopted as a text book by such educators as Prof. Wood, of the Stevens' Institute of Technology, and Prof. Norton, of the Sheffield Scientific School, and will immediately be placed before their students.

In point of typography, the book is neat and a credit to the enterprising publishers. The lithographs of the volume of plates are also clear and well done: a different arrangement of headings would, however, be more convenient for the reader.

The Coal Trade.

The anthracite coal trade for the week ending on the 4th inst. foots up from all sources, 261,994 tons, and for the year according to the figures of the Miners' Journal, to 19,268 977 tons, against 19,217,590 tons to corresponding date last year, a increase of 51,387 tons. The bituminous tonnage for the week was 81 469 tons, and for the year 3,702,713 tons, making a total of all kinds for the week of 343,440 tons, and for the year 22,971,690 tons, against 22 610,809 to corresponding date last year, an increase of 360,881 tons. At Port Richmond for the week ending the 11th instant there were receipts of 80,500 tons of coal and shipments of 36,500 tons, leaving 172,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 90,563 tons, and for the year 4,052,066 tons, of which 3,326,996 was coal and 637,876 coke. This embraces all the coal carried both east and west. The receipts of coal at Perth Amboy for the week ending on the 7th instant were 8957 tons; total received during the season, 8957 tons; shipments for the week, 6457 tons: total shipments for the season, 6457 tons; leaving on hand 53,487 tons. The tonnage of the Schuylkill Canal for the fiscal year was 734,694 tons, against 717,507 tons in 1874, an increase of 17,187 tons. The coal tonnage of the Philadelphia and Reading Railroad for the

year ending November 30, 1875, was, of all kinds, 5,505,454 tons, which, compared with last year, shows a falling off of 843,857 tons. The quantity of paying freight was only 810,795 tons less, and the quantity consumed by the company was 32,593 tons less than in 1874. The tonnage of coal on the Lehigh Valley Railroad for the year was 2,417,800 tons, against 3 016,636 for the year 1874, a decrease of 598,836 tons.

☞ At Easton, Md., on the 8th inst., the stock holders of the Maryland and Delaware Railroad Company held a meeting and elected the following officers: C. W. Huntington, president; John W. Scott, Secretary; and G. W. Goldsborough, E. M. Hardcastle, J. P. Manlove, John W. Knotts, John A. W. Powell, Alex. Hardcastle and Wm. Slaughter directors. The State directors are Samuel Hambleton, Edward Lloyd and William C. Satterfield, and the county director, Henry P. Hopkins. At a subsequent meeting of the directors, J. L. Caldwell was appointed superintendent, and measures taken to secure the prompt completion of the pier at Oxford.

☞ Preparations are being made for the opening for through travel of the new extension of the Utica, Ithaca and Elmira Railroad, completing the Syracuse and Elmira route.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

Atlantic and Gt. Western Railroad.

Judge McClure, of the Summit County (Ohio) Court of Common Pleas, delivered an opinion at Akron on the 4th inst., in a case in which the Atlantic and Great Western Railroad interests are involved. The Cleveland Herald thus describes it:

The moneyed interests in the case are large, involving a claim of $600,000 upon the railroad company by the Bischoffsheim party, and a counter claim of $2,500,000 by the railroad company upon Bischoffsheim. The decision was not upon the merits of the case itself, but upon important preliminary points. It touches upon points new to Ohio courts, being the right of a defendant against whom a cross petition has been filed by a defendant to interpose as a defense thereto matters of set off and counter claim. The effect of the decision is that the claim and counter claim will go before the court together, and that as a consequence the railroad company can sue Bischoffsheim here instead of having to bring suit against him in London. Some delay will necessarily occur, owing to the necessity of sending to London for papers and proof. It is probable the trial will take place before ex Judge Reuben Hitchcock, of Painesville, as Referee. The questions before Judge McClure were argued at length by Mr. Choate, of the firm of Evarts, Southmayd & Choate, of New York City, and James Mason, of Cleveland, for Henri Louis Bischoffsheim, of London, England, and J. M. Adams, of Otis, Adams & Russell, of Cleveland, and Hon. W. H. Upson, of Akron, for the railroad company and the plaintiffs.

☞ The Arkansas Legislature has passed a bill donating all the State lands lying in the counties in the northwestern part of the State for the building of a railroad from some point on the Atlantic and Pacific Railroad in Missouri, via Fayetteville, in Arkansas, to a point on the Little Rock and Fort Smith Railroad, at or near Ozark.

☞ A certificate of incorporation of the Bellaire and St. Clairsville Narrow Gauge railroad, capital stock $50,000, was filed with the Secretary of State of Ohio on the 11th inst.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, December 25, 1875.

The Condition of American Railroads at the Close of 1875.

The year 1875 has not been, on the whole, a very prosperous year for railroad companies; but at the same time it is an improvement upon 1874. So far as actual traffic is concerned, it may be noted that the chief lack has been in the carriage of minerals, metals, lumber and merchandise. Of the products of the soil and meats there have been nearly the usual quantities, though the competition for this traffic has cut down the rates to close upon the cost of movement. In products of the forest and mine there has been a noticeable deficiency; and until by a general revival of trade and confidence our saw mills, furnaces and forges are set in motion, we may not expect much improvement in this direction. Over a large part of the further west the field crops were injured by the ravages of insect-pests also; so that it has been a poor year for all but a few favored roads. The motive-power and rolling-stock heretofore used in supplying the demands for heavy transportation have either lain idle, or have sought employment at unprofitable rates. The only compensation for this state of things has been the possibility of a reduction of the working force, and a reduction of the pay of the laborers themselves. But even this is unfortunate; for the less money paid out in wages, the less is kept in the channels of trade, less consumption, and consequently less transportation to be done. There is a limit to the economy reached in this direction, and some of our great companies seem to have set that limit in very low wages. Whether they profit by so doing remains to be seen.

Turning to the finances of American railroads it is a cheering fact that not many new defaults are to be chronicled in 1875 as compared with 1874. The breakdown of the Erie Company is among the most noticeable. But while all or nearly all of those who withstood the pressure of 1874, have so far managed to pay interest on their mortgage debts, it is no secret that many of them have only been enabled to do so by fresh borrowing. This is only to be mentioned as their misfortune, not their fault. Railroads in good standing are still the safest customers to which our banks can lend their surplus; and the banks can do no better with their idle funds than to lend to railroads doing a legitimate carrying business, until trade takes a new start. As there are but few companies putting down new roads there has been but little selling of new bonds. London still continues to advance to the great corporations who have had her esteem; but Germany and Holland are at present very shy of American investments. The break down of Spanish, Turkish and Austrian credits will, however, soon tempt the money lenders again to our best securities.

Of the broken-down roads the year now closing has witnessed a wholesale liquidation. Several have been re-organized through foreclosure, and proceedings are pending in many more cases. Generally this has been accompanied with a shrinkage of from one-third to one-half, or in some cases, three-quarters of the capital invested; and even holders of first mortgages are generally glad to content themselves with fifty per cent of their investment. This is the natural result of paying high prices for money, labor and materials to build roads, where roads were premature, on the one hand; and of capitalists hoping to lend money with safety at from 7 to 15 per cent interest, on the other hand. The process now going on is a healthy one: and its effects will be felt in a wholesome caution and careful canvassing of the elements of traffic in future investments.

That railroads, as a rule, are good paying property still remains true, in spite of numerous exceptions of late. This is evidenced by the steady prices maintained for our first-class bonds and stocks during the depression. Take the familiar instance of one of the trunk roads whose 7 per cent currency bonds are selling at 125, as an example. The high standing of the Pacific Railroad issues (properly so called, and and not to be confounded with the Missouri Pacific, Atlantic and Pacific, Texas and Pacific and the like,) is another indication of the favor in which good roads are held. The business and crops in California are understood to have been prosperous, while those of the rest of the country are depressed; hence we are not surprised to learn that California, with only one-fiftieth of the population and capital, has built during the year a third or fourth of all the new road in the country, and is still pushing new lines in various places. The Southern Pacific is perhaps the most active of them on which over 5,000 men are engaged in construction.

It is generally hoped (and this hope may develop into a corresponding confidence) that next year, with its celebration of the Centennial, will improve the business of railroads. Many will travel to see it who would not otherwise. But even here is a drawback; it is likely that the bulk of the visitors will want to go all at the same time, and it will be difficult to find either cars or motive-power for

their accommodation. Besides everybody who meditates any journey next year will want to do it at excursion rates; for this reason the railroad companies will have before them a delicate problem of how to do a much larger business, without getting less for it than heretofore. As new furnaces are continually blowing in, it is a symptom of the recovery of the iron interest. Cotton manufacture seems to have touched bed-rock, and so long as we can export fabrics at a profit, must not complain.

Baltimore and Ohio and Pittsburg and Connellsville Railroads.

A special meeting of the stockholders of the Baltimore and Ohio Railroad Company was held yesterday at Camden Station, to consider the contract by which the Baltimore and Ohio Company should agree to operate the Pittsburg and Connellsville railroad for a term of years, and to guarantee the principal and interest of the consolidated mortgage bonds to be issued by the Pittsburg and Connellsville Railroad Company.

On motion of Mr. Galloway Cheston, Hon. Robert T. Banks was called to the chair, and Mr. Wm. H. Ijams appointed secretary. The chair appointed Messrs. Wm. J. Albert, Wm. F. Burns and Henry Janes, judges.

The proceedings of the board of directors of the Baltimore and Ohio Company on the subject were read, including the resolutions recommended by the committee of finance, and which were approved by the board. The consolidated mortgage of the Pittsburg and Connellsville road, and the agreement between that company and the Baltimore and Ohio company, which were adopted by the board of directors and the stockholders of that company on the 13th instant., were also submitted.

Mr. Israel M. Parr offered resolutions, which were unanimously adopted, as follows:

Resolved, That the action of the board of directors of the Baltimore and Ohio Railroad Company in guaranteering the consolidated mortgage bonds of the Pittsburg and Connellsville Railroad Company, and in making the contract for operating the railroad of said company, as contained in the above resolutions be and the same is hereby approved and ratified.

Resolved, That the president of this company be and he is hereby authorized to sign and execute on behalf of this company, and as its act and deed, the contract for operating said railroad as herewith submitted.

Resolved, That the Baltimore and Ohio Railroad Company guarantee the payment of the principal and interest of the consolidated mortgage bonds of the Pittsburg and Connellsville Railroad Company, and that the treasurer of the Baltimore and Ohio Railroad Company be and he is hereby authorized, for and on behalf of the said company, and as its act and deed, to affix the corporate seal of the company to such guaranty, to be indorsed on each of said bonds, and attest the same by his signature.

Resolved, That the form of guaranty to be indorsed on each of said consolidated bonds shall be as follows: "For value received, and under authority given by the stockholders, at their meeting held on the 15th day of December, 1875, the Baltimore and Ohio Railroad Company hereby guarantees the prompt payment of the principal and interest of the within bonds as they severally mature. Witness the corporate seal of said company and the signature of the treasurer.

"WM. H. IJAMS,
"Treasurer of the Baltimore and
"Ohio Railroad Company."

On the closing of the polls the judges reported the result of the ballot to the chairman, who announced that 125,705 shares were voted in favor of "the question of assenting to making the contract to operate the Pittsburg and Connellsville railroad, and of guaranteeing the consolidated mortgage bonds of the Pittsburg and Connellsville Railroad Company under the resolutions adopted by the board of directors of the Baltimore and Ohio Railroad Company on the 10th of November, 1875, as amended by the said board of directors on the 8th of December, 1875." The chairman announced that the contract to operate the Pittsburg and Connellsville railroad, and to guarantee the consolidated mortgage bonds of that company, was unanimously approved and ratified, after which the meeting adjourned.—*Balt. Sun, Dec.* 16.

Dividend February 1, 1875		77,184 00
Balance of income June 30, 1875		5,389 52
Total, as above		$227,521 96

Compared with the previous year the gross earnings of 1875 show a decrease of $65,148 70, with a decrease in expenses of operating of $16,468 04—making a decrease in net earnings of $48,680 66 The President, in his report, says:

This is not as favorable as we could have hoped, but when compared with other New England roads similarly situated, it is perhaps as well as we could reasonably expect. We ordinarily carry over the road a large quantity of lumber—that business has been so depressed for the last year or more, that the receipts from that source have fallen off very much. There is, however, a large amount lying on the line of the road which will give us business as soon as a demand shall spring up. There has also been a falling off in other articles of down freight, but the general merchandise freight going up compares very well with former years.

The passenger receipts have kept up better than freight—they show a falling off of only $15,855 70 from the previous year. I see no particular cause of discouragement in this decrease in gross receipts—it is mainly owing to the great depression in the principal branches of trade and manufactures, extending all over New England, and not to any diversion of our business to other channels. We have confidence in a return to our former prosperity upon a revival of the business of the country. In the mean time it teaches the necessity of practicing the most rigid economy in operating the road. The managers have felt it their duty to reduce the number of employees to the smallest possible force consistent with the safe operation of the road, and have also felt obliged to cut down the entire pay roll ten per cent. We feel very confident we shall be able to show quite a reduction in the gross expenses of running the road for the next year.

In March last, a lease was executed by the South Eastern Railroad, of its road and equipment, and the Missisquoi and Clyde River Railroad to the Passumpsic Railroad, for one year.

By a contract with the Boston, Concord and Montreal Road made at the same time the benefits and responsibilities of the lease are shared equally by both corporations. This lease has tended to bring about a more efficient and economical management of the line to Montreal. Owing to the great stagnation of all kinds of business in Canada, as well as on this side of the line, we have not thus far realized that increase in business we had expected. But by the extension of the South Eastern Railroad from Sutton Junction, through Waterloo, Acton and Drummondville to Sorel on the St. Lawrence River, which is now being put through by Col. A. B. Foster, and which it is expected will be completed before another summer, thus opening up a large extent of country which has hitherto had no railroad facilities, we look with confidence for an important increase to the business of the roads from that quarter.

The number of miles run by engines during the year was 408,581. Number of tons carried, 136,280; do. carried one mile, 7,826,758. Passengers carried, 183,754; do. carried one mile, 5,971,686. The equipment of the road is more than ample for its present business, and consists of: 27 engines; 14 passenger, 6 baggage, 1 baggage and smoking, 2 mail, 163 box, 324 platform, 89 rack, 56 hay, 8 horse, 10 ore, 10 charcoal, 5 freight saloon, 2 drovers' saloon, 2 boarding-house, 5 snow-ploughs, 2 gongers, 20 gravel, 3 crane, 28 push, 42 hand and 32 wood cars. One locomotive has been rebuilt, and extensive repairs made upon others. The rolling stock has been kept in good order and repair. The road bed and track are in better condition than at any former period. The bridges, masonry and culverts of road have been carefully examined by two experienced bridge builders from another road, also by the Railroad Commissioner of Vermont, and are pronounced safe and in good condition. 497 tons of new rails have been laid. 6,736 rails have been repaired and relaid, and 52,009 new sleepers put into the track during the year. The stations and buildings have been kept in good repair. $8,105 95 has been expended on the Memphremagog House at Newport, in putting on a new Mansard roof, enlarging and rebuilding the piazzas and other repairs. All of which have been charged to current expenses. There has been no charge to construction during the past year, and the company consider that account as closed.

Statement showing the indebtedness of the corporation and the assets applicable thereto Dec. 1, 1875:

INDEBTEDNESS.	
6 per cent bonds due Dec., 1876	$289,500 00
7 per cent notes " " "	467,500 00
7 per cent " " " 1881	189,500 00
7 per cent mort. bonds (issued) 1893	670,500 00
	$1,567,000 00
Notes payable at bank	146,085 08
Notes given on account of South Eastern Lease secured by rolling stock and other collateral	55,000 00
	$1,768,085 08

ASSETS.

Passumpsic 7 per cent mortgage bonds 1893 in sinking fund	$147,500 00
Missisquoi and Clyde Rivers Railroad 7 per cent bonds	350,000 00
Notes of South Eastern Railway secured by rolling stock and other collateral	140,079 36
Notes for Lyndon lands sold	9,686 04
Money advanced on wood not delivered	6,387 82
Cash on hand	5,042 40
Balance due from connecting roads	7,401 29
Materials and wood on hand paid for	129,868 56
Montpelier and Wells River Railroad covered by collateral	14,279 16
	$810,244 63

Of the $1,500,000 mortgage bonds authorized by vote of stockholders, Feb. 14, 1873, only $670,500 have been issued, leaving on hand to be issued, $829,500; these together with the $147,500 in the sinking fund will take up the entire funded indebtedness of the road outside of this issue, and leave a surplus of $80,500. The company will then have but one class of indebtedness, which will consist of $1,500,000 first mortgage bonds, payable in 1893. The Massawippi road is represented by 6 per cent bonds, payable in gold, $400,000. Stock, $400,000. The Passumpsic pays the interest on the bonds, and the same dividend on the stock as is paid to Passumpsic stockholders.

BALANCES, NOVEMBER 30, 1875.

Pres't.—EMMONS RAYMOND, Cambridge, Mass.

Vice Pres't.—T. P. REDFIELD, Montpelier, Vt.

Directors.—Emmons Raymond, T. P. Redfield, Gardner C. Brown, Amos Barnes, John E. Lyon, Warren K. Blodgett, Alden Speare, Lucius Robinson, Stephen Foster.

Treasurer.—N. P. LOVERING, Boston, Mass.

Secretary.—ELIJAH CLEVELAND, Coventry, Vt.

Sup't.—H. E. FOLSOM, Lyndonville, Vt.

☞ The Burlington, Monmouth and Illinois River Narrow Gauge Railroad Company has been organized with a capital of $1,000,000. The line is to be from East Burlington, Ill., via Monmouth, to Heyworth in McLean county, Illinois.

Chesapeake and Ohio Railroad.

The adjourned annual meeting of the stockholders of this company was held in Richmond, Va., on the 16th inst. Mr. C. P. Huntington, the President, in his report, which was read by Vice President Wickham, recites the present embarrassments under which the company is laboring, condemns the appointment of the present receiver, and declares it to be the intention of the President and directors to use every effort that they may be advised is lawful and proper to secure a reversal of the orders of the court; and, if they succeed in this, an earnest attempt will be made for a re organization of the company on a plan that it is hoped will be acceptable to all interests. The President adds:

"The property is a very valuable one—too valuable to be wasted by litigation—and if a plan of reorganization can be agreed upon before much more valuable time is lost, and before the value of the property is impaired by the costs of litigation, which costs, if incurred, must finally be paid out of the property, then your President and Board of Directors will give their attention earnestly to the work of securing such connections and extensions of the line as are needed; and they will do so in the confident belief that, although the investments in the securities of the company have thus far proved unproductive, they will finally prove to be satisfactory in the returns they will yield to the holders of them, and that all the hopes and expectations which have been indulged in in regard to the great enterprise we have so much at heart will ultimately be realized."

The report of Vice President Wickham states that the gross earnings for the year ending September 30, 1875, were $1,459,189 48, the gross expenses $1,112,320 70, and the earnings over operating expenses $346,868 78—showing an increase in earnings over operating expenses, as compared with the previous year, of $101,019 33. The decrease in transportation expenses, as compared with the previous year, was $102,019 78.

The roadway, depots and water stations are in admirable order and ample for all purposes.

The equipment consists of 72 locomotives; 34 passenger, 16 baggage, mail and express, 1 observation, 2 drovers,' 1 pay, 840 box, 904 coal, 191 platform, 155 gondolas, 103 stock, 137 gravel, 4 derrick, and 100 dump cars.

On motion the reports of the President and Vice President were adopted.

The following gentlemen were elected directors for the ensuing year: C. P. Huntington, A. A. Low, Lloyd Aspinwall, David Stewart, A. S. Hatch and William Whitewright, Jr., of New York; Pliny Fisk, New Jersey; H. C. Parsons, West Virginia; John Echols and W. C. Wickham, Virginia

On motion of General William Skeen, one of the State proxies, seconded by Mr. Magruder, another State proxy, the following resolution was unanimously adopted:

Resolved, That the stockholders in general meeting assembled express their decided approbation of the appointment of Vice President Wickham as receiver by the courts of Virginia and West Virginia, and they hereby express the hope that he will soon be put in full possession and control of the road, franchises, &c.

☞ The commissioners of the Pennsylvania Sinking Fund have published an official statement, showing $710,684 27 on hand, applicable to the public debt, and a balance of $55,334 78 in the Treasury. The amount of debt paid during the month of November was $299,716 40.

Finances of California.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

The debt of the State, November 1, 1875, was as follows:

Outstanding bonds		$3,472,000 00
Outstanding warrants		729,656 03
		$4,201,656 03
Cash in treasury		619,294 38
Total debt		$3,582,861 65

Of which $2,549,000 is owned by the State, and held by her in trust for the school and University funds. The following will show the debt more exactly:

Outstanding seven per cent bonds of 1857		$51,500 00
Outstanding seven per cent bonds of 1860		24,000 00
Outstanding seven per cent Soldiers' Relief bonds		95,500 00
Outstanding seven per cent Capitol bonds of 1870		250,000 00
Outstanding seven per cent Capitol bonds of 1872		250,000 00
Outstanding funded debt bonds of 1872, 6 per cent		2,801,000 00
Total bonds outstanding		$3,472,000 00
Controller's warrants outstanding:		
General fund	$728,559 05	
Library fund	25 00	
Capitol fund	56 51	
School land fund	1,015 47	
		729,656 03
Total debt		$4,201,656 03
Assets:		
Bonds held in trust for the school fund	$1,737,500 00	
Bonds held in trust for the University fund	811,500 00	
Gold coin on hand	523,560 00	
Silver coin on hand	86,138 98	
Legal tenders on hand	9,595 40	
		3,168,294 38
Actual outstanding debt		$1,033,361 65

The State must always resort to direct taxation to pay the interest on the bonds, amounting to $2,549,000, which she has purchased and holds in trust for educational purposes. Such bonds must, therefore, be considered as constituting an actual debt, and it would seem an advisable measure to extinguish them gradually, and substitute in their stead interest bearing securities from abroad, for the reason that the State can better afford to collect interest than to pay it. The increased taxation would be only a temporary burden, while the relief would be permanent.

Nevada County Railroad.

The Grass Valley Union, of December 11th says: "Work on the railroad is progressing well, and the weather is very favorable. The road is now thoroughly repaired and ballasted from Colfax to Butterfly ranch. Yesterday tracklaying began and the road will grow toward Grass Valley at the rate of half a mile or more a day. The late rains give a solid bed on which to put the superstructure. In a few days a first class narrow gauge railroad will be in operation between Colfax and Grass Valley, and a few days thereafter the road will be working to Nevada City."

☞ The Valley (Ohio) Railroad Company have filed with the Secretary of State a certificate for the Extension of line from Bowerstown, Harrison county, to Martinsville, Belmont county, through the counties of Harrison, Belmont and Jefferson.

Commerce of New York.

The foreign imports at New York for the month of November, 1875, are officially stated as follows:

	1874.	1875.
Entered for consumpt'n.	$11,132,035	$9,291,475
Do. for warehousing	4,253 653	4,089,354
Free goods	8,564,179	7,687,532
Specie and bullion	306,405	1,031,950
Total entered at port...	$24,256,272	$22,100,311
Withdrawn fr. wareh'use	5,679,873	6,812,727

The foreign imports at New York for eleven months from January 1, were:

	1874.	1875.
Entered for consumpt'n	$162,126,165	$138,275,125
Do. for warehousing...	100,247,004	85,342,054
Free goods	100,817,010	82,975,469
Specie and bullion.....	5,759,689	12,802,601
Total entered at port..	$368,949,868	$319,395,249
Withdrawn fr. wareh'se	99,430,613	91,874,886

The duties received at New York for eleven months ending November 30, were:

	1874.	1875.
January.....	$10,042,084 05	$8 072,846 12
February.....	10,186,365 08	11,811,046 95
March	10,793,792 81	10,323,619 78

Total exports.....	$24,436,835	$25,487,940
Do. exclusive of specie.	19,988,235	23,250,305

The exports from New York to foreign ports for eleven months from January 1, were:

	1874.	1875.
Domestic produce	$251,766,476	$224,451,482
Foreign free goods	1,979,171	1,821,116
Do. dutiable	6,689,700	5,965,768
Specie and bullion.....	48,724,587	65,793,440
Total exports	$309,159 934	$298,031,806
Do. exclusive of specie.	260,435,347	232,238,366

Bleecker Street and Fulton Ferry R. R.

In Supreme Court, Chambers, on the 21st inst., Chief Justice Davis rendered a decision in the suits of Harlow and Sistare against the Bleecker Street and Fulton Ferry Railroad Company, appointing a Receiver of the company and consolidating the suits. Harlow was the Trustee of the first mortgage bondholders of the road, and had brought suit for a foreclosure of the mortgage, which suit is still pending. Sistare brought a separate suit for foreclosure, for the appointment of a Receiver, and for the consolidation of Harlow's suit with his own, the latter being brought in behalf of the stockholders under the second mortgage. Judge Davis appointed Alvan S. Southworth as Receiver of the road, and ordered a consolidation of the suits, in so far as that Mr. Southworth shall act for the benefit of the plaintiffs in both actions, which are to be conducted pari passu without delay. The Receiver is required to give bonds in the sum of $75,000, and the road is to be placed immediately under his control. By the terms of the order the company is also enjoined from issuing any more second mortgage bonds. During the day Mr. Southworth gave the required bonds, his sureties justifying in $150,000.

Chesapeake and Ohio Canal.

The regular monthly meeting of this company was held at Annapolis, Md., on the 16th inst. The coal tonnage for November was 99,439 tons, an increase over November, 1874, of 27,641 tons. The gross revenue accrued during the month was $54,943 43, an increase over November, 1874, of $12,299 37; expenses of operating, maintaining canal and cost of material for winter repairs, $22,451 49; net revenue for the month $32,491 34—an increase in net revenue, as compared with November, 1875, of $11,959 45. The balance in bank to credit of the company on December 4 was $92,180 87; accrued revenue uncollected $30,000—total $122,180 87. This amount, with the revenue of December, will enable the board to appropriate a sufficient sum to pay the coupon due January 1, 1864. The board appropriated $50,985 to pay said coupon on and after December 29, instant, at the banking house of Alexander Brown & Sons, Baltimore.

Boston and Providence Railroad.

The earnings of this road for the years ending September 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$903,167 11	$897,404 03

Total, as above	$829,060 02	

Compared with the previous year, the gross earnings show a decrease of $106,020 88, with a decrease in expenses of $67,627 66. The report says:

The receipts of the road for the past year have fallen off in a marked degree, from those of the three previous years, and despite the continued large reduction made in expenses, amounting to $67,627 66, the final balancing of accounts on the thirtieth day of September, when the financial year closed, showed that the net earnings were $364,782 20, only $4,782 20 more than nine per cent on the capital stock. As a dividend of five dollars on a share had been made in the spring, one of four dollars was declared for the last six months. Could the course of business have been foreseen, it would have been better to have made the two dividends four and one-half dollars each, but there was a strong belief that the increase of receipts from April 1st, to October 1st, would be such as to assure the usual division for the year.

As it is, nine per cent, all that has been earned has been divided.

Warned by the experience of other corporations, representing various interests, that have strained dividends to the final detriment of stockholders, and as our expenses have been brought to a point below which they cannot be reduced by any great amount, consistently with safety and efficiency, it was thought to be both injudicious and imprudent, to make any draught on the reserve of this short line, to eke out a larger dividend. Indeed, the sum to the credit of income account on our books, is represented by fixed property, essential to the prosperity of the company, and it ought not to be called upon, excepting as an offset to direct loss of assets, or as an aid to credit.

The business of the year is given in the accompanying tables, furnished by the Treasurer; the general result being as follows:

The gross receipts for the fiscal year 1873-4 amounted to	$1,687,279 19
While those for the current year 1874-5, were...	1,581,258 31
Showing a falling off in our receipts for this year of....	$106,020 88
In the corresponding period 1873-4, the expenses were..	$1,284,103 77
And for the current year 1874-5, they were.	1,216,476 11
Showing a reduction in our expenses for this year, of....	$67,627 66

The receipts of last year (1873-4,) were $134,828 99 less than those of 1872-3, and the reduction in expenses for the corresponding period, was $140,899 31.

There has disappeared from our assets an item of $15,000, represented by one hundred and fifty shares of the Mansfield and Framingham Railroad Co., subscribed for in 1869, and thought to be worth what they stood at on our books.

The Boston, Clinton and Fitchburg Railroad Co., were authorized by an act of the legislature, to consolidate the Mansfield and Framingham road with their line. This was done by a vote of the stockholders, at a meeting called for Monday morning, May 31st, at Fitchburg. In accordance with terms of the circular printed below our stock was converted, and then sold, at a net loss of $9,882. This loss was charged to income account, and is in no other way connected with the business transactions of the year.

MANSFIELD AND FRAMINGHAM RAILROAD CO.

TREASURER'S OFFICE,
BOSTON, MASS., June 1st, 1875.

This corporation having consolidated, united with, and become a part of the Boston, Clinton and Fitchburg Railroad Co., will cease to exist as a separate corporation from and after this date.

In accordance with the articles of consolidation agreed upon by a committee of the directors, and ratified and confirmed by a special meeting of the stockholders, held May 31st, 1875, holders of stock in this corporation can, any time before July 1st, 1875, surrender their stock to the Treasurer, S. W. Huntley, Fitchburg, and upon payment of for-

ty dollars on each and every share, shall be entitled to receive the same number of shares of stock of the Boston, Clinton and Fitchburg Railroad Co. All exchanges made before July 1st, will be entitled to a dividend of three dollars per share, due and payable July 1st. Holders of Mansfield and Framingham Railroad stock will also have the right to surrender and exchange, as above, from July 1st, 1875, to January 1st, 1876, by paying six per cent interest upon the forty dollars from July 1st until the time of payment, provided said payment is made on or before January 1st, 1876. Stockholders can send the certificates direct to S. W. Huntley, Treasurer of the Boston, Clinton and Fitchburg Railroad, Fitchburg, Mass., signing in blank on the back of each certificate, and enclosing check payable to his order, for the amount required, or can make the same exchange and payment at the office of the company, No. 17 United States Hotel Block, Boston.

All stock unexchanged as above, will become and remain common or unpreferred stock of the Boston, Clinton and Fitchburg Railroad Co., called Agricultural Branch Railroad stock, upon which no dividends have heretofore been declared. As the Boston, Clinton and Fitchburg Railroad Co. expect to continue the payment of regular dividends upon the preferred stock, it is believed to be for the interest of the Mansfield and Framingham stockholders to make the exchange and payment as above set forth.

HOSEA HYDE, Treasurer.

A suit for injuries received in 1873, after trial, resulted adversely to the corporation, and the award of the jury and legal charges, amounting to $3,899 66, were paid in May last. This sum is included in the item of gratuities and damages.

Two passengers have been killed during the year; one by jumping from the train while at full speed; one by attempting to get on to a train while in motion.

There have been eight other fatal accidents, all caused by individual carelessness in walking on, or in crossing the track, for which the road has in no instance been held culpable.

The report of the Directors to the Railroad Commissioners shows the number of miles run by our trains during the year to have been 800,260, against 789,468 in the last previous year. The whole number of passengers carried this year 3,524,377, against 3,486,280 for the former period. The whole number carried one mile 38,743,664, against 38,625,149, and the number of tons of freight carried this year 691,318, against 738,668. Of the $106,020 88 in the reduction of our receipts, $93,491 38 of it is due to the diminution of our freight business, and only $5,763 08 to the falling off of receipts from passengers.

With eighty-eight miles of double main track, we now have seventy laid with steel rails, as against fifty-nine reported a year ago, leaving eighteen miles to be so renewed.

The road bed was never in better condition, and our equipment, with the exception of "postal cars," is equal to any increase of business that we are likely to have for several years to come.

During the coming year, it is proposed to rebuild the passenger station at Roslindale, and with the assent of the Providence and Worcester Railroad Co., to build conjointly with them, on the line of our common track, a new freight house at Pawtucket.

As similar experiments are being made elsewhere, it may be well to mention that in May last, leave was given to Messrs. Seagrave & Robinson, to alter the old engine "Norfolk" at their own expense, with a view of substituting coal oil, (petroleum) for coal, as a generator of steam in locomotives. On the 27th of September, a train was run from Boston to Canton and back to Readville, a distance of twenty miles, with this engine, burning petroleum. At a later date, the "Norfolk" was set fire to by the combustible fuel, while further adaptations were being tested. Little injury was done to the locomotive, but the experimenters were somewhat singed. Apparently encouraged by this experience, they are still engaged in the endeavor to carry their theories to a safe and practical result.

TRIAL BALANCE, SEPTEMBER 30, 1875.

Construction and equipment	$4,000,000	00

President.—JOHN H. CLIFFORD.

Directors.—John H. Clifford, George W. Hallet, T. P. I. Goddard, Wm. R. Robeson, F. M. Weld, Joseph W. Balch, Henry A. Whitney.

Treasurer.—B. B. TORREY.

Superintendent.—A. A. FOLSOM.

Eastern (Mass.) Railroad.

A meeting of the bondholders and creditors of this road was held in Boston on the 18th inst., to see what measures could be adopted to protect the interests of the bondholders. Mr. Ward, representing Messers. Baring Brothers & Co., of London, presented a plan which he said would no doubt, if adopted, be concurred in by the Barings and their clients. The plan proposed provides for mortgaging the road for $14,000,000 and the issuing of bonds to that amount, 65 per cent of which will be guaranteed, or in the shape of a preferred stock, and 35 per cent of which will come in as secondary stock, and which may never possibly be paid. The plan also provides for the appointment of Trustees to manage the road, and giving creditors a vote in their election for every $100 of their indebtedness. In case the trust is not managed in the way indicated, the mortgagee has the right to foreclose. In view of the time which must elapse to obtain the necessary legislative sanction to the scheme, the advisability of appointing a receiver, so as to prevent any attachments being put upon the road, was suggested in the plan of reorganization as one worthy of consideration.

While some favored the plan and urged its adoption, others objected to it for the reason that all classes of liabilities were not represented; whereas whatever legislation was obtained it must, in view of all preceding legislation in that State, necessarily include all the liabilities of the corporation.

A motion for the appointment of a receiver was made; but the meeting being of the opinion that a receivership meant bankruptcy, voted down the resolution, and a committee of three on the part of the bondholders was subsequently appointed to meet and confer with the directors in reference to the plan submitted and any counter plan which might be agreed upon, and to report at an adjourned meeting. The committee consists of Lemuel Shaw, Charles J. Morrill and Dwight Foster. The meeting then adjourned.

Erie Railway.

The Hurst and Watkin committee of the Erie bondholders in England propose the following scheme to be carried out, under foreclosure, by a committee of which Governor Tilden is to be invited to take the chairmanship:

The plan proposes to give the bondholders the voting power until the position of the undertaking is retrieved and the reduction of the fixed liabilities to a level with the net revenue, by reducing onerous rent charges, and also by reducing the engagements of interest on Erie first and second mortgage bonds, as follows:—

Holders of the first mortgage bonds and of the sterling six per cent bonds shall receive mortgage bonds of the same class for interest at the present rates to March 1, 1876, thereafter until 1880 the interest shall be payable in gold at six per cent and after that time at seven per cent; but the company shall be entitled to redeem prior to 1880 at 105 for Erie second mortgage, including the convertible gold bonds.

Two classes of gold sterling mortgage bonds, running ninety years, are to be substituted; the first for sixty per cent of the principal, carrying interest at six per cent, and payable in bonds of the same class from the dates of default until March, 1877, and thereafter in gold; the second for forty per cent of the principal, carrying four per cent interest and payable only out of net earnings until 1881, and thereafter five per cent.

The dividend on the preferred stock is to be reduced to six per cent; assessments are to be levied at the rate of $3 in the $100 on the preferred stock, and $6 in the $100 on the ordinary stock; shareholders receiving for the amounts thus paid third mortgage bonds, to bear five per cent interest, payable only from net earnings, and also shares in the reconstructed company.

A meeting of the bondholders is called for January 4, 1876, to consider the foregoing propositions.

Chesapeake and Ohio Railroad.

Judge Wellford, of the Richmond (Va.) Circuit Court, has appointed Mr. Wickham receiver of the Chesapeake and Ohio Railroad Co., to enter upon the duties of the position as soon as he executes a bond in the penalty of $150,000, "or as soon thereafter as may be lawfully done." General Wickham gave bond in the sum stated, with W. F. Wickham, John Echols, Isaac Davenport and Franklin Stearns as sureties. If, on the 20th instant, the Circuit Court of the United States, which is to meet at Alexandria on that day, decides that it has no jurisdiction, General Wickham will at once enter upon the duties of receiver under the appointment. The Circuit Court of Richmond will then proceed to ascertain the priorities of the liens on the road in order to foreclose the mortgage and settle with bondholders. —*Balt. Sun, Dec.* 17.

☞ The following official notice appears in the Toronto Globe of the 17th inst.: "Application will be made to the Dominion Parliament at its next meeting for an act giving relief and protection to the holders of bonds issued by the Canada Southern Railway Company under the authority of the various acts of the Parliament of Canada and the Legislature of Ontario against the undue or unnecessary issue of further bonds or stock of the said company, and for further relief and for other purposes."

☞ Tracklaying on the London, Huron and Bruce Railway was completed on the 13th inst. It is anticipated that the road will be opened for traffic in less than a month.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, December 25, 1875.

Financial and Commercial Affairs.

During the past week business in nearly all wholesale lines, financial and commercial, has been confined within rather narrow limits, apart from a comparatively free export movement in domestic produce, which latter yielded an aggregate value, on the Custom House returns, of 6½ million dollars. The Money market closed up briskly, with call loans quoted to the Stock Exchange firms at the full legal rate of 7 per cent as the rule, though in instances advances were made at lower figures. At the quotation, the offerings of accommodation were ample, and no inconvenient pressure for aid was reported by the more prominent borrowers. Preparations for the 1st of January disbursements, in various forms, tended to stimulate the demand. In the discount line, there has not been much animation, and rates were quoted steady within the range of 5@6 @7 per cent per annum, on the best grades of commercial credits. The City Banks have had their averages generally reduced, in the instance of the deposits $2,730,900; and in the legal tender reserve, $1,360,400. The specie average has been diminished $433,600. The loan and discount item was reduced $2,877,900. The circulation was contracted $89,700. The U. S. Sub Treasury in this city closed the week with a currency balance of $38,649,204, against $41,523,017 the preceding week; and a coin board of $42,116,877, against $42,222,707 on the previous return. The City bank exchanges in currency reached $402,925,603, or a daily average of

$67,154,260. The customs revenue of the port, during the week, was $1,305,000. The City banks reported their average of gold last week at $16,105,800, and their greenback average at $41,960,500. Their deposits stood at $204 235,000. The loan item was $265,512,500. The circulation was $19,028,000.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $7,007,800.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $415,861,899. The outstanding amount of legal tender notes is $372,471,772. The National bank circulation is now $343,938,278, including $2,127,750 of national gold bank notes.

The specie shipments from San Francisco, January 1 to Dec. 9th, were $42,226,874, against $28,088,757 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,850,000; special deposit of legal tenders for the redemption of certificates of deposit, $45,460,000; Coin, $68,900,000; Coin certificates $21,660,600.

The week's import entries of Foreign Merchandise at New York were $5,279 516, including $963,561 of Dry Goods.

The income of the Government from internal revennes in the current fiscal year, commencing with July 1, 1875, has been about 55½ millions; and from Customs, 76 millions.

Gold has declined quite steadily during the week, influenced in good part by speculative manipulations of the market, in anticipation of the free coin interest disbursements of the Government, and in view of the light export, and very moderate customs drain. The dealings have been less extensive, as a rule, and the market closed weak. The extremes of the price during the week have been 113¼@114⅛, closing on Wednesday at 113¼ as against 114⅜, on Wednesday of the preceding week. The specie outflow last week was only $414,750 against $320,900 the previous week. The imports of specie at this port last week were $106 822 (of which were $64,000 in silver and $20,000 in gold coin from Vera Cruz) and since Jan. 1, have been $12,727,761, against $6,184,422 same time last year. The customs demand for gold last week averaged only $217,500 per day. Foreign Exchange has been moderately active and quoted firmer. Bankers' sixty day bills on London closed on Wednesday at $4 85@$4 85½; sight bills on London at $4 89@$4 89⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,286,600. The week's imports of Dry Goods and general merchandise were to the specie value of $5,279,516, as against $6,711,774 the corresponding week of last year.

Government Securities have been fairly active through the week, but with the decline in Gold prices have receded, influenced also in part by increased offerings of bonds for arrival from Europe. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $364,690,112. The Five Twenties of 1867 and 1868 held their own comparatively well, as to values; having been favorites with investment buyers.

U. S sixes of 1881 closed on Wednesday of this week at 124⅛@124⅜; U. S. Five-Twenties of 1864, at 114@114¼; U. S. Five-Twenties of 1865, 115⅝@116; U. S. Five-Twenties of 1865, consolidated, 120⅛@120⅜; U. S. Five-Twenties of 1867, 122¾@123; U. S. Five-Twenties of 1868, 122¾@123; U. S. Ten-forties at 117@117¼; U. S. Fives of 1881, (Funding Loan) 116⅞@117⅛; Six per cent. currency Sixes, 122@122½.

State and Railway bonds have been in moderate demand mainly on investment account, with the former quoted weak and irregular; and the more substantial of the Railway mortgages generally firmer. And in the line of Railway and Miscellaneous share property, business has been on a restricted scale, with values quoted easier, toward the close, in most instances.

Domestic Produce has been moderately active, with Breadstuffs, Provisions, Cotton and Petroleum more sought after on export account at, however, variable prices. Foreign merchandise has been quiet as a rule, and quoted weak. Metals have been selling to a fair extent, but prices have favored buyers. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33, No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $22 50@$23 50. Wrought Scrap, $30@$31. Ocean freights have been quoted firm, with room for Grain, Flour, Cotton and Petroleum, in fair request.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ At a special meeting of the commissioners of Calvert county, held at Prince Frederick on the 15th instant, by a unanimous vote they subscribed $100,000 to the capital stock of the Baltimore and Drum Point Railroad Company. The subscription was made in accordance with the act of the Legislature and the vote of the people.

Illinois Central Railroad.

During the month of November, 1875, 1,152.67 acres of Land were sold for $9,286 84. The cash collected on land contracts during the same time was $20,491 72. The traffic on the main line in Illinois was $594,184 95, against $516,163 56 in November, 1874. The traffic of the Iowa lines, (leased at 35 per cent of gross receipts) was $193,668 85, against $152,779 85 in November, 1874. The traffic of the entire line thus far in 1875 (September, October and November estimated,) has been $7,239,007 98.

☞ At a meeting of the first mortgage bondholders of the Wilmington and Reading Railroad Company in Philadelphia on the 14th inst., Matthew Baird, of the committee appointed to fix on a plan of foreclosure of the first mortgage bonds, reported a plan of purchase to protect the first mortgage bondholders. The first mortgage bonds amount to $1,200,000; the second to $1,700,000; stock, $800,000, and a floating debt of $500,000. The road is paying expenses and something over—not less than three per cent. The report was adopted.

☞ Messrs. Phelps, King & Co., of Boston, have been awarded the contract for construction of the Dayton and Southeastern Narrow Gauge railroad, at $6715 per mile, to be completed by October 1, 1876. The contract includes everything ready for rolling stock. The road is one hundred and fifteen miles in length, and is to be built for about $500,000 less than the contract price of the Springfield, Jackson and Pomeroy Narrow Gauge railroad, of about equal length.

☞ The Bucyrus, Ohio, Journal says that at a meeting of the President and Directors of the Atlantic and Lake Erie railroad in Newark, last week, the arrangements in regard to the south end of the road were satisfactorily adjusted, but similar arrangements at the north end were necessarily deferred in consequence of the dilatory action of the stockholders north of Crawford county.

☞ The New Bedford and Fall River Railroad was formally opened on the 15th inst. The new road runs between the two cities in a nearly straight line, a distance of eleven and a half miles. Four way stations will be established, and the trains will run each way daily.

☞ The Chesapeake and Ohio Railroad Injunction case was argued before the United States Circuit Court at Alexandria, Va., on Monday, before Chief Justice Waite and Circuit Judge Bond. Before the conclusion of the argument the Court adjourned until Thursday.

☞ Geo. E. Parcell has been appointed Superintendent of the Eastern Division, and M. G. Carey Superintendent of the Western Division, of the St. Louis, Kansas City and Northern Railroad.

☞ The gross earnings of the Denver and Rio Grande Railway for the month of November, 1875, were $30,410 against $28,823 for November, 1873, an increase of $1587, or about 5½ per cent.

☞ The gross earnings of the Philadelphia and Erie Railroad in November, 1875, were $296,737 21, the expenses $194,195 19, and the net proceeds $102,542 02.

Brown, Brothers & Co.,

Securities of Solvent and Defaulted Railroad Companies, also State, City and County Bonds.

TIME LOANS NEGOTIATED.

Refers by permission to Messrs. M. K. Jesup, Paton & Co., New York; Messrs. Soutter & Co., New York; Jos. S. Norris, Esq., President First National Bank, Baltimore; Robert Mickle, Esq., Cashier Union National Bank, Baltimore.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

Ontario Southern Railroad.

The reorganization of the Sodus Point and Southern Railroad has been completed by the election of Sylvanus J. Macy President, Charles E. Carryl Secretary and Treasurer, and Colonel E. H. Wright, Vice President. The road hereafter it is to be known as the Ontario Southern. By the terms of the reorganization a mortgage of $1,000,000 is to be issued, of which $700,000 are to be given to the old first mortgage bondholders, and the balance is to pay off receiver's certificates, &c. The stock of the new company will be $500,000 preferred and $100,000 common stock. The business of the road is said to be rapidly improving.

☞ J. S. Gemperling has been appointed Superintendent of the Eastern Division, and George W. Howard Superintendent of the Western Division, of the Ohio and Mississippi Railroad.

☞ Hillsboro, Ohio, is seeking a connection with the Scioto Valley railway at Piketon, distance 33 miles.

		334 800 00
Surplus		$73,741 10

Compared with the previous year the receipts of 1875 show an increase of $20,811 15, with a decrease in expenditures of $4,093 37, making an increase in net receipts of $24,904 52. The president in his report says:

While the receipts for the present year, from all sources, are nearly $21,000 in excess of the previous year, the actual earnings, independent of dividends from the Steamboat Company, interest account and amount received from Fall River Line, are $20,000 less, viz: for 1874, $850,000; 1875, $830,000. On the other hand, notwithstanding there has been charged to "Repairs of Road" $35,000 more than last year, the running expenses have been decreased. So that the net earnings, as compared with last year, discarding in both cases all revenue from outside sources, is but $16,000 less—a result much more favorable than could fairly have been predicted. The net earnings, from all sources, are nearly $25,000 in excess of last year.

The unprecedentedly severe winter through which we have passed since our last report, has made necessary an unusual expenditure in Repairs to Road, amounting to nearly $162,000, as against $127,000 the year previous. 1,016 tons best Bessemer Steel Rails, 535 tons new Iron Rails—in all 16 miles of new track—have been laid. 3,186 Rails have been repaired and relaid, and 34,000 new ties put in. Difference in value of Iron and Steel Rails, say $30 per ton, has been charged to construction. The road bed and track are now in excellent condition, second to none, it is believed, in New England. Depots, platforms and bridges, have received extensive and necessary repairs to keep them in good order. 509,186 miles have been run by passenger and freight trains, and 12,000 by construction trains—in all, 521,186 miles—at a cost for fuel of 12.59 cents per mile.

The improvements at Kingston Station, as contemplated in the last report, have been completed, the grounds handsomely laid out and ornamented, and already the predictions then made as to an increase of business at that place are being realized.

At Stonington, where a pressing necessity for more room for side tracks, &c., has long existed, a piece of land to the north of and adjoining the Steamboat Wharf has been purchased and utilized for the purpose. In addition, authority having been obtained from the Connecticut Legislature, a piece of road has been built, partly on this land, connecting the track at the Steamboat Wharf with the main track to New London, thus avoiding the necessity for all trains passing between Providence and New London, via the Steamboat Wharf, being compelled to back out to the Junction, one half mile east of Stonington, to get on the New London track. This, of course, also applies to the trains from New London to Providence, and the local trains between Stonington and New London—to which may be added a great decrease in the risk incurred in crossing and recrossing the principal streets of the village.

There has been added to the rolling stock of the road, during the year, one first class engine, one switch engine, one passenger car, and 11 eight wheel flat cars. All the cars have been built in the Company's shops. The Car House at Groton has been much enlarged, to accommodate the increased number of cars kept at that point, and an elevated railway has been constructed from the coal wharf to the coal yard, by which a large saving is effected in the handling of coal.

The value of fuel and material on hand is $122,722, or $12,074 more than per last report. In this is included 1,222 tons old rails, estimated at $30 per ton, for which at present no demand exists. It is thought, however, that with the revival of business they can be sold at about the above figures.

The connection of the Warwick Railroad with your Road, at Auburn Station, was completed early in July, and trains immediately commenced running. A large number of passengers have been transported to and from that road since that time; but there is no data at hand showing the result of the business. The connection will no doubt ultimately prove valuable.

On the 1st of April last, the Stonington Steamboat Company, in which this Company had a controlling interest, was consolidated with the Providence and New York Steamship Company, under the name of the "Providence and Stonington Steamship Company," with a capital of 1,400,000 dollars; and under authority granted by the Legislatures of Rhode Island and Connecticut, the interest of this corporation in the new Company has been increased to 800,000 dollars, by which it retains control of both the Stonington and Providence Steamboat Lines. It is believed that this investment will in itself prove a large and constantly increasing source of revenue, and what is of equal importance, will prevent the possibility of a ruinous competition by a first class line of steamers running direct to Providence, in which this Company would have no interest, and over which it could have no control.

The number of passengers carried over the road the past two years is as follows:

	1874.	1875.
Through passengers	166,374	157,907
Local "	371 644	430 010
Commuters	99,742	104,294
	637,760	692 211

The amount of freight transported over the road the past two years is as follows:

	1874. Tons.	1875. Tons.
Through freight	189,950	181,870

Civil Engineering and the Exposition.

The American Society of Civil Engineering has had under consideration for some time past the propriety of obtaining space in the Centennial Exposition for the exhibition of engineering plans, devices, models and machinery, illustrative of the progress and status of civil engineering in the United States. The objects suggested as appropriate for the contemplated display embrace metallic bridge work, (in which it is claimed that this country has produced many novel and instructive devices,) harbor improvements, designs of structures erected, many descriptions of railroad work, the machinery employed in construction, the various kinds of permanent way, canal work, and all the interesting and useful contrivances that have been invented to facilitate transportation—so that the exhibition may be rendered historical as well as typical of the condition of engineering at the present day. It is proposed that the objects selected for exhibition shall be represented by drawings or models. The contemplated display would evidently possess deep interest, and it is to be hoped that it will be made.

Locomotives in Russia.

At the beginning of 1875 the total number of locomotives on the 44 railways of Russia was 3142. The 44 lines having a total length of about 10,900 miles, the average is rather less than three locomotives to a mile. Only 607, or 17 64 per cent. of the whole number, were built in Russia. Of these, 183 were constructed in Alexandrow's works, St. Petersburg, 167 in Kolomna's (Struve's), 133 in the works of the Russian Mining and Manufacturing Company, St. Petersburg, 104 in Malzow's works at Brjansk, fourteen in Wotkin's works, and six at the St. Petersburg depot of the St. Petersburg and Warsaw Railway. Of the 2835 locomotives from abroad, 1051 are from Germany, 656 from England, 654 from France, 276 from Austria, 176 from Belgium, and 22 from America. The maker who has sent in the greatest number is Borsig, of Berlin, who has built 583. The average cost of a Russian locomotive being 20,000 roubles, the stock represents an outlay of 56,000,000 roubles.

The Coal Trade.

The quantity of anthracite coal sent from all the regions for the week ending on the 11th inst. was 375,412 tons, and of bituminous 81,367 tons, being a total of all kinds of 456,779 tons, against 371,912 tons in corresponding week last year, being an increase of 57,562 tons of anthracite and of 23,305 tons of bituminous, and a total increase of 84,867 tons. The quantity sent from all the regions so far this year is 19,757,758 tons anthracite, and 3,787,029 tons bituminous—total, 23,544,787; against 19,081,623 tons anthracite and 3,515,902 tons bituminous; total, 23,167,525 tons. Increase of anthracite, 106,135 tons; increase of bituminous, 271,127 tons; total increase, 377,362 tons.

☞ The Ohio State Journal says that "track laying on the Scioto Valley Railroad is being pushed as lively as possible, and ties are coming in from every direction and as fast as they are wanted. The grading is nearly all finished between here and Chillicothe. It is expected that the road will be finished to Lockbourne by Monday."

Prospects of the Grand Southern.

A meeting of the Directors of the Shore Line Railroad was held at Cherryfield, Me., the other day. A quorum of the Board was present. They adopted the three feet gauge, and also entertained propositions from one or more companies to build and equip the road. Should this line be built to Calais, the Grand Southern, from St. John to St. Stephen, via St. George would be constructed as a matter of course. The gauge ought to be 3 ft. 6 in., however like that of the New Brunswick Railway. Some standard narrow gauge should be adopted by all the railway projectors, so that, after the broad gauge roads are narrowed, there will be but two railway gauges in the Province.—*St. John News, Dec.* 15.

☞ The contract for the superstructure work and grading of the Bay Ridge Railroad, from Bay Ridge, L. I., to East New York, a distance of nine miles, has been awarded to New Jersey parties for $95,000.

HUDSON RIVER

CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y — J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER

CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

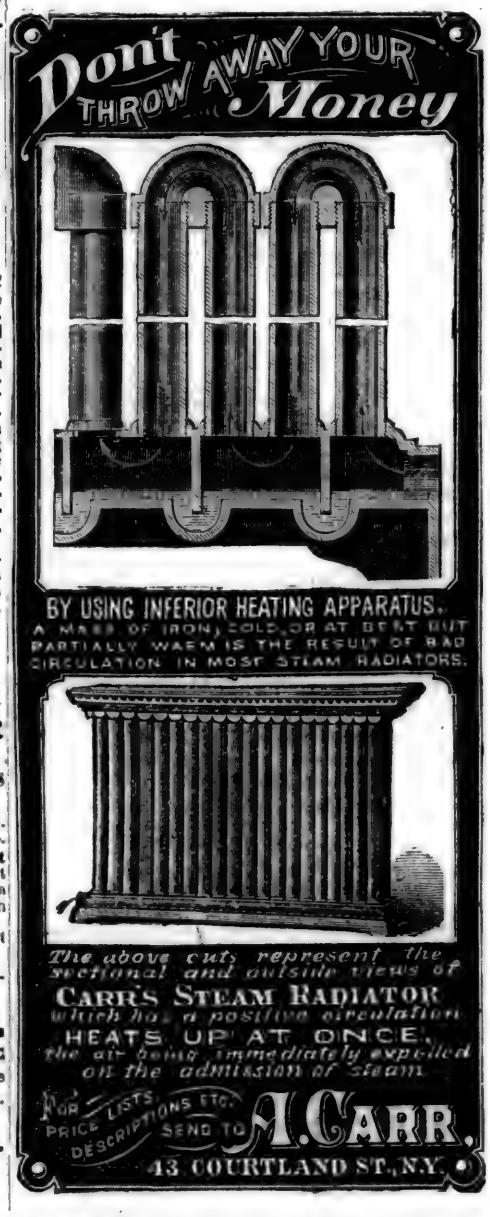
Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300** lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE

CEMENT COMPANY.

ROSENDALE



HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

The Pickson Manufacturing Co. of Scranton.

Intercolonial Railway.

This great inter provincial work may now be be said to be finished, but we have not heard whether it will be opened for traffic before the spring or not. Its construction was a part of the terms of Confederation, and it has cost up to this time the sum of $21,103,316, with the certain prospect of additional outlay before it is in smooth working order. It might naturally be expected that the completion of so large and costly a rail road, connecting Ontario and Quebec with New Brunswick and Nova Scotia, would have evoked some interest, if not enthusiasm, on the part of the people; it must be confessed, however, the announcement has been received with comparative indifference even by the commercial classes. Nor is the cause difficult to discover: to St. John and other New Brunswick ports we can go much quicker and shorter by the railways of Maine than by the Intercolonial; and the gain to Halifax is not very large. Taking Montreal and Toronto as the starting points, the distances in miles are given as follows:

	By Intercolonial.	By U. S. lines.
Montreal to St. John.....	751½	614
Montreal to Halifax.....	847½	890
Toronto to St. John.....	1,084½	947
Toronto to Halifax.....	1,180½	1,223

It appears, therefore, that to go from Toronto or Montreal by the Intercolonial to the city of Halifax, would be closer by 42½ miles than via Portland in the State of Maine; but to reach St. John, New Brunswick, the United States roads are 137¼ miles shorter than the Intercolonial. The new road cannot, consequently, carry much freight from Ontario and Quebec to New Brunswick, and it is feared that most of the freights for Europe will still go to Portland, which is about 550 miles nearer Toronto than Halifax. Glancing at the other side of the account, it is admitted on all hands, that as the road has been most substantially made, it must tend very considerably to increase trade between the West and Nova Scotia, and will undoubtedly stimulate the development of the Quebec counties on the lower St. Lawrence. —*Toronto Monetary Times.*

☞ The Portsmouth (Ohio) Street railway will be opened for business about Christmas.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

410 Walnut Street,
PHILADELPHIA.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.
